Flux Power to Exhibit at MODEX 2024 Tradeshow March 11-14 at the Georgia World Congress Center in Atlanta

Company to Showcase its New G2 Product Line of Heavy-Duty Battery Packs and SkyBMS® Telematics Solution

VISTA, Calif.--(BUSINESS WIRE)-- **Flux Power Holdings, Inc.** (NASDAQ: [FLUX](#)), a developer of advanced lithium-ion energy storage solutions for electrification of commercial and industrial equipment, today announced it will exhibit at MODEX 2024 in Hall C [Booth C4085](#) at Georgia's World Congress Center March 11-14.

Flux Power will showcase its next generation battery packs, including lithium-ion solutions for Class I-III material handling equipment. These next generation lithium-ion battery packs are equipped with newer technology and more capacity for fleet operations with a heavy workload.

Along with showcasing the new line of heavy-duty products, Flux Power will also conduct demonstrations of its SkyBMS® telematics solution, which helps operation managers better manage their fleet by providing them real-time data and actionable insights.

"We look forward to showcasing our complete line to new and existing customers," said Tod Kilgore, VP of Sales at Flux Power. "Our state-of-the-art lithium-ion solutions solve a variety of existing performance challenges with a common theme: longer run times, sustained high power performance, limited maintenance, and a more sustainable solution. Flux Power delivers these advantages at price points that significantly lower the total cost of ownership compared to conventional battery offerings."

MODEX 2024 Powered by MHI

Date: March 11-14, 2024

Time: Monday-Wednesday 10am-5pm & Thursday 9am-1pm

Location: Georgia World Congress Center

Booth: Hall C [Booth C4085](#)

About Flux Power Holdings, Inc.

Flux Power (NASDAQ: FLUX) designs, manufactures, and sells advanced lithium-ion energy storage solutions for electrification of a range of industrial and commercial sectors including material handling, airport ground support equipment (GSE), and stationary energy storage. Flux Power's lithium-ion battery packs, including the proprietary battery management system (BMS) and telemetry, provide customers with a better performing, lower cost of ownership, and more environmentally friendly alternative, in many instances, to traditional lead acid and propane-based solutions. Lithium-ion battery packs reduce CO2 emissions and help improve sustainability and ESG metrics for fleets. For more information, please visit www.fluxpower.com.
