# Flux Power to Exhibit at ProMat 2025 Tradeshow March 17-20 at McCormick Place in Chicago

*Company to Showcase Expanded Heavy-Duty Battery Line and SkyBMS Telematics for Optimized Fleet Performance*

VISTA, Calif.--(BUSINESS WIRE)-- **Flux Power Holdings, Inc.** (NASDAQ: [FLUX](#)), a developer of advanced lithium-ion energy storage solutions for electrification of commercial and industrial equipment, today announced it will exhibit at ProMat 2025 in **Lakeside Hall Booth #E11730** at Chicago's **McCormick Place March 17-20, 2025**.

At ProMat 2025, Flux Power will showcase its next-generation lithium-ion battery packs, engineered to deliver enhanced capacity, improved efficiency, and superior performance for Class I-III material handling equipment. Designed for heavy-use applications, these advanced solutions support longer run times, higher power output, and reduced maintenance, helping fleet operators improve productivity while lowering total cost of ownership.

Flux Power will also conduct live demonstrations of SkyBMS, its intelligent battery telematics system that provides real-time data and actionable insights for fleet managers. With SkyBMS, businesses can optimize performance, prevent downtime, and enhance overall fleet efficiency. Additionally, Flux Power will offer a preview of its upcoming Customer Interface Energy Management solution, set to launch in 2025, designed to provide deeper insights and greater control over energy usage.

"ProMat is the perfect venue to showcase our expanded product line to the industry's leading professionals," said Kelly Frey, Chief Revenue Officer at Flux Power. "Our lithium-ion solutions are designed to help businesses tackle operational challenges with a focus on performance, reliability, and sustainability. We are excited to meet with customers and partners to discuss how Flux Power's technology can power their operations more efficiently."

## About ProMat 2025

ProMat is one of the largest manufacturing and supply chain events for the year. From education to new technology, ProMat allows attendees to connect, learn, and meet with new contacts and discover the latest trends in the industry. For more information visit [www.promatshow.com](http://www.promatshow.com).

About Flux Power Holdings, Inc.

Flux Power (NASDAQ: FLUX) designs, manufactures, and sells advanced lithium-ion energy storage solutions for electrification of a range of industrial and commercial sectors including material handling, airport ground support equipment (GSE), and stationary energy storage. Flux Power's lithium-ion battery packs, including the proprietary battery management system (BMS) and telemetry, provide customers with a better performing, lower cost of ownership, and more environmentally friendly alternative, in many instances, to traditional lead acid and propane-based solutions. Lithium-ion battery packs reduce CO2 emissions and help improve sustainability and ESG metrics for fleets. For more information, please visit [www.fluxpower.com](http://www.fluxpower.com).

## **Forward-Looking Statements**

This release contains projections and other "forward-looking statements" relating to Flux Power's business, that are often identified using "believes," "expects" or similar expressions. Forward-looking statements involve several estimates, assumptions, risks, and other uncertainties that may cause actual results to be materially different from those anticipated, believed, estimated, expected, etc. Accordingly, statements are not guarantees of future results. Some of the important factors that could cause Flux Power's actual results to differ materially from those projected in any such forward-looking statements include, but are not limited to: risks and uncertainties, related to Flux Power's business, results and financial condition; plans and expectations with respect to access to capital and outstanding indebtedness; Flux Power's ability to comply with the terms of the existing credit facilities to obtain the necessary capital from such credit facilities; Flux Power's ability to raise capital; Flux Power's ability to continue as a going concern. Flux Power's ability to obtain raw materials and other supplies for its products at competitive prices and on a timely basis, particularly in light of the potential impact of the COVID-19 pandemic on its suppliers and supply chain; the development and success of new products, projected sales, cancellation of purchase orders, deferral of shipments, Flux Power's ability to improve its gross margins, or achieve breakeven cash flow or profitability, Flux Power's ability to fulfill backlog orders or realize profit from the contracts reflected in backlog sale; Flux Power's ability to fulfill backlog orders due to changes in orders reflected in backlog sales, Flux Power's ability to obtain the necessary funds under the credit facilities, Flux Power's ability to timely obtain UL Listing for its products, Flux Power's ability to fund its operations, distribution partnerships and business opportunities and the uncertainties of customer acceptance and purchase of current and new products, and changes in pricing. Actual results could differ from those projected due to numerous factors and uncertainties. Although Flux Power believes that the expectations, opinions, projections, and comments reflected in these forward-looking statements are reasonable, they can give no assurance that such statements will prove to be correct, and that the Flux Power's actual results of operations, financial condition and performance will not differ materially from the results of operations, financial condition and performance reflected or implied by these forward-looking statements. Undue reliance should not be placed on the forward-looking statements and Investors should refer to the risk factors outlined in our Form 10-K, 10-Q and other reports filed with the SEC and available at [www.sec.gov/edgar](http://www.sec.gov/edgar). These forward-looking statements are made as of the date of this news release, and Flux Power assumes no obligation to update these statements or the reasons why actual results could differ from those projected.
