Synchrony Financial and International Diamond Center Launch Consumer Financing Program

Exclusive multi-year agreement to continue International Diamond Center participation in Synchrony Bank's luxury credit card program

STAMFORD, Conn. & CLEARWATER, Fla.--(BUSINESS WIRE)-- Synchrony Financial (NYSE:[SYF](#)), a premier consumer financial services company with 80 years of retail heritage, has signed a multi-year agreement with International Diamond Center to provide financing programs for customers through the jewelry retailer's eight stores located in Florida and Georgia.

The International Diamond Center credit card, managed by Synchrony Financial, provides customers with a dedicated line of credit and special financing options for their luxury jewelry purchases*.

"We are looking forward to providing our customers with the full-range of benefits offered by Synchrony Financial through our new financing program," said Brian Stamey, general manager for International Diamond Center. "Now, our customers can enjoy flexible financing options in addition to the above-and-beyond quality they have come to expect from our business."

Since 1983, the International Diamond Center has provided consumers with a wide variety of quality diamonds and brilliant gems. In addition to loose stones, customers can select from a wide variety of designer jewelry, bridal and family jewelry, and watches.

"Jewelry is one of the most personal purchases one can make, either for themselves or others," said Stephen Roe, vice president and general manager of Sales for Synchrony Financial. "We are pleased to partner with International Diamond Center in providing customers with the ability to select and purchase the jewelry of their dreams."

Financing plays an important role for jewelry shoppers, according to the third annual Major Purchase Consumer Study** commissioned by Synchrony Financial. More than 80 percent of fine jewelry shoppers begin their research online, reviewing product styles as well as promotions and payment options, and spend 45 days on average before making a major jewelry purchase. Further, the findings confirm 75 percent of cardholders always seek promotional financing options when making a jewelry purchase and nearly half would choose not to make a purchase or go elsewhere if retail financing were not available.
