MGP Ingredients Prices Offering of \$175 Million of Convertible Senior Notes Due 2041

ATCHISON, Kan., Nov. 10, 2021 (GLOBE NEWSWIRE) -- **MGP Ingredients, Inc. (Nasdaq: MGPI)** (the “Company” or “MGP”), a leading provider of distilled spirits, branded spirits, and food ingredient solutions, today announced the pricing of its offering of \$175,000,000 aggregate principal amount of 1.875% convertible senior notes due 2041 (the “Notes”) in a previously announced private offering to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the “Securities Act”). The issuance and sale of the Notes are scheduled to settle on November 16, 2021, subject to customary closing conditions. MGP also granted the initial purchasers of the Notes an option to purchase, within a 13-day period beginning on, and including, the date on which the Notes are first issued, up to an additional \$26,250,000 aggregate principal amount of the Notes, solely to cover over-allotments.

The Notes will be senior, unsecured obligations of MGP and will accrue interest at a rate of 1.875% per annum, payable semi-annually in arrears on May 15 and November 15 of each year, beginning on May 15, 2022. Beginning on November 15, 2026, holders will receive contingent interest for certain periods if the trading price of the Notes exceeds a certain threshold. Any contingent interest payable on the Notes will be in addition to the regular interest payable on the Notes. The Notes will mature on November 15, 2041, unless earlier repurchased, redeemed or converted. The Notes will be convertible only upon the occurrence of certain events and during certain periods. MGP will settle conversions of the Notes by paying cash up to the principal amount of such Notes being converted and by paying and/or delivering, as the case may be, cash, shares of MGP’s common stock or a combination of cash and shares of MGP’s common stock, at MGP’s election, in respect of the remainder of the conversion value, if any. The Notes will be guaranteed on a senior unsecured basis by each of MGPI Processing, Inc., MGPI of Indiana, LLC and Luxco, Inc.

The initial conversion rate of the Notes is 10.3911 shares of MGP common stock per \$1,000 principal amount of Notes (equivalent to an initial conversion price of approximately \$96.24 per share of MGP common stock). The initial conversion price of the Notes represents a premium of approximately 37.5% over the \$69.99 per share closing price of MGP common stock on The Nasdaq Global Select Market on November 10, 2021. The conversion rate and conversion price of the Notes will be subject to adjustment upon the occurrence of certain events.

The Notes will be redeemable, in whole or in part, for cash at MGP’s option at any time, and from time to time, (i) on or after November 20, 2024, but only if the closing sale price per

share of MGP's common stock exceeds 130% of the conversion price of the Notes for a specified period of time and (ii) on or after November 20, 2026 and prior to the maturity date, regardless of the foregoing sale price condition. In each case, the redemption price will be equal to 100% of the principal amount of the Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date. Holders of the Notes will have the right to require MGP to repurchase all or a part of their Notes on each of November 15, 2026, November 15, 2031 and November 15, 2036 or upon the occurrence of a fundamental change at a cash repurchase price equal to 100% of the principal amount of the Notes to be repurchased, plus accrued and unpaid interest, if any, to, but excluding, the relevant repurchase date.

The Company estimates that the net proceeds from the offering will be approximately \$169.3 million, or approximately \$194.8 million if the initial purchasers fully exercise their over-allotment option to purchase additional Notes, after deducting the initial purchasers' discounts and commissions and estimated offering expenses. MGP intends to use the net proceeds from the offering to reduce the outstanding balance on its revolving credit facility.

The offer and sale of the Notes and any shares of MGP's common stock issuable upon conversion of the Notes have not been, and will not be, registered under the Securities Act, or any other securities laws, and the Notes and any such shares cannot be offered or sold except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and any other applicable securities laws.

This press release does not constitute an offer to sell, or the solicitation of an offer to buy, the Notes or any shares of MGP's common stock issuable upon conversion of the Notes, nor will there be any offer, solicitation or sale of the Notes or any such shares, in any state or other jurisdiction in which such offer, solicitation or sale would be unlawful.
