Management Commentary

"Fourth quarter of fiscal 2018 was an exceptionally strong quarter for Clearfield, as we achieved the highest level of quarterly revenue in the Company's history with \$22.5 million, up 22% over the same period a year ago," said Clearfield CEO, Cheri Beranek. "Much of this was driven by the continued strong performance in our Community Broadband business, as we helped these broadband service providers continue to serve their local areas as well as enter and capitalize on underserved communities.

"Revenue for the fiscal year increased 5%, with the increase primarily attributable to revenue from the acquisition and successful integration of our active cabinet line as well as the successful introduction of FieldShield at a national Tier 1 service provider. These advances, paired with our fiber management expertise, gives us a strong head start for oncoming new

technologies associated with network convergence and the 5G market-ready fiber build-out.

“Throughout the year, we have grown our portfolio of certifications and master purchase agreements and strengthened our team with key hires. With the overall momentum achieved, I’m excited by the work we’ve done to steer our ship through the choppy waters we experienced these past two years. Having successfully put the patent infringement litigation behind us, eliminating the costs and distractions associated with it, we’re now implementing what we call our ‘Coming of Age’ phase.

“This new phase will be defined by three major initiatives, which are expanding our core Community Broadband business, enhancing our competitive position and operational effectiveness, and capitalizing on disruptive growth opportunities, particularly within our Tier 1 markets. Together, these initiatives will play a critical role in our efforts to grow the Company moving forward.”

Financial Results for the Quarter Ended September 30, 2018

Revenue for the fourth quarter of fiscal 2018 increased 22% to \$22.5 million from \$18.4 million in the same year-ago quarter. Revenues from the Company’s traditional product categories slightly increased for the quarter while revenues from the Company’s acquired active cabinet line were approximately \$3.5 million for the quarter.

Gross profit increased 12% to \$8.6 million, or 38.3% of revenue, from \$7.7 million, or 41.7% of revenue, in the fourth quarter of fiscal 2017. The increase in gross profit was due to increased sales volume. The decrease in gross profit percent was primarily due to the integration of the Company’s acquired active cabinet line into its manufacturing processes as well as a higher percentage of sales associated with these products, which have lower gross margins.

Operating expenses were \$6.1 million, consistent when compared to \$6.2 million in the same year-ago quarter. The slight decrease was primarily due to a reduction of legal expenses due to the settlement of the patent infringement litigation that occurred during the second quarter of fiscal 2018.

Income from operations increased 68% to \$2.5 million for the fourth quarter of fiscal 2018 from \$1.5 million in the same year-ago quarter. Income tax expense increased 129% to \$791,000 for the fourth quarter of fiscal 2018 from \$345,000 in the same year-ago quarter primarily due to increased income from operations. Net income increased 49% to \$1.9 million for the fourth quarter of fiscal 2018, or \$0.14 per diluted share, from \$1.3 million, or \$0.09 per diluted share, in the same year-ago quarter.

During the quarter, the Company repurchased 34,776 shares of its common stock under its stock repurchase program, utilizing \$389,000 in cash. At quarter-end, cash, cash equivalents and investments decreased \$500,000 to \$35.5 million when compared to the end of the prior quarter. The Company has no debt.

Order backlog (defined as purchase orders received but not yet fulfilled) at September 30, 2018 remained consistent with June 30, 2018 at \$5.6 million and increased 41% from \$4.0 million at September 30, 2017.

Financial Results for the Year Ended September 30, 2018

Revenue increased 5% to \$77.7 million for fiscal 2018 from \$73.9 million in fiscal 2017. The increase was primarily due to revenues from the Company's active cabinet line acquired in February 2018.

Gross profit was \$31.0 million, or 39.9% of revenue, for fiscal 2018, a slight increase of 2% from \$30.3 million, or 40.9% of revenue, in fiscal 2017.

Operating expenses increased 4% to \$25.9 million for fiscal 2018 from \$25.0 million in fiscal 2017.

Income from operations totaled \$5.1 million, or 6.5% of revenue, for fiscal 2018 compared to \$5.3 million, or 7.2% of revenue, in fiscal 2017.

Income tax expense decreased 28% to \$1.3 million for the year ended September 30, 2018 from \$1.7 million during fiscal 2017. The decrease is primarily due to the Tax Cuts and Jobs Act enacted in December 2017 that resulted in a lower federal tax rate. Net income totaled \$4.3 million, or \$0.32 per diluted share, for the year ended September 30, 2018, an increase of 11% from \$3.8 million, or \$0.28 per diluted share, during fiscal 2017.

Fiscal 2019 Financial Outlook

Clearfield expects revenue for fiscal 2019 to be between \$83 million and \$87 million. The Company also expects its gross profit as a percentage of total revenue to range between 37% and 38%, with some variability on a quarter-to-quarter basis. In addition, Clearfield forecasts operating expenses to be between 31% and 33% of total revenue, and net income as a percentage of revenue to be between 3% and 5%.

Cautionary Statement Regarding Forward-Looking Information

Forward-looking statements contained herein and in any related presentation or in the related FieldReport are made pursuant to the safe harbor provisions of the Private Litigation Reform Act of 1995. Words such as “may,” “will,” “expect,” “believe,” “anticipate,” “estimate,” “outlook,” or “continue” or comparable terminology are intended to identify forward-looking statements. Such forward looking statements include, for example, statements about the Company’s future revenue and operating performance, integration of the acquired active cabinet line, trends in and growth of the FTTx markets, market segments or customer purchases, effectiveness of the Company’s sales and marketing strategies and organization, utilization of manufacturing capacity, and the development and marketing of products. These statements are based upon the Company’s current expectations and judgments about future developments in the Company’s business. Certain important factors could have a material impact on the Company’s performance, including, without limitation: further consolidation among our customers may result in the loss of some customers and may reduce sales during the pendency of business combinations and related integration activities; to compete effectively, we must continually improve existing products and introduce new products that achieve market acceptance; we must successfully integrate the acquired active cabinet line in order to obtain the anticipated financial results and customer synergies within the timeframes expected; our operating results may fluctuate significantly from quarter to quarter, which may make budgeting for expenses difficult and may negatively affect the market price of our common stock; our success depends upon adequate protection of our patent and intellectual property rights; intense competition in our industry may result in price reductions, lower gross profits and loss of market share; we rely on single-source suppliers, which could cause delays, increases in costs or prevent us from completing customer orders, all of which could materially harm our business; a significant percentage of our sales in the last three fiscal years have been made to a small number of customers, and the loss of these major customers or significant decline in business with these major customers would adversely affect us; our planned implementation of information technology systems could result in significant disruptions to our operations; product defects or the failure of our products to meet specifications could cause us to lose customers and sales or to incur unexpected expenses; we are dependent upon key personnel; we face risks associated with expanding our sales outside of the United States; our results of operations could be adversely affected by economic conditions and the effects of these conditions on our customers’ businesses; and other factors set forth in Part I, Item 1A. Risk Factors of Clearfield’s Annual Report on Form 10-K for the year ended September 30, 2017 as well as other filings with the Securities and Exchange Commission.
