A New Audio Interview with James Nathanielsz, Propanc Biopharma Inc.'s Chief Executive Officer, is now at SmallCapVoice.com

AUSTIN, Texas—5/23/17 -- [Propanc Biopharma Inc.](#) (OTC QB [PPCH](#)) ("Propanc Biopharma" or "the Company"), a clinical stage biopharmaceutical company focusing on development of new and proprietary treatments for cancer patients suffering from solid tumors such as pancreatic, ovarian and colorectal cancers, today announced that a new audio interview with the Company, is now available. The interview can be heard at <http://smallcapvoice.com/blog/5-19-17-smallcapvoice-interview-with-propanc-biopharma-inc-ppch>.

James Nathanielsz, Propanc's Chief Executive Officer, called in to SmallCapVoice.com, Inc. to go over Company's business model, the markets they serve, how they got to where they are today and the goals for the Company in 2017. Recently, the Company announced that fresh new insights have emerged into how cancer stem cells (CSCs) are able to resist standard treatments, become more aggressive and spread rapidly. Published in *Oncogene*, by researchers from the Bellvitge Biomedical Research Institute south of Barcelona, Spain, the findings have significant implications for Propanc Biopharma's lead product PRP, which reprograms CSCs so that they are no longer malignant and a threat to the patient. PRP is a solution for once daily intravenous administration of a combination of two pancreatic proenzymes trypsinogen and chymotrypsinogen.

In the interview, Mr. Nathanielsz states, "Right now, based on all the information we've been able to generate and the scientific data that supports our efforts, what we're really focused on is two key aspects for the Company and they are quite simple: One, get this product to patients as soon as possible. Two, if it works, get it to as many patients as possible. We appreciate the opportunity to share our story with our shareholders and the SmallCapVoice.com listening audience".

About SmallCapVoice.com

SmallCapVoice.com is a recognized corporate investor relations firm, with clients nationwide, known for its ability to help emerging growth companies build a following among retail and institutional investors. SmallCapVoice.com utilizes its stock newsletter to feature its daily stock picks, audio interviews, as well as its clients' financial news releases. SmallCapVoice.com also offers individual investors all the tools they need to make informed decisions about the stocks they are interested in. Tools like stock charts, stock alerts, and Company Information Sheets can assist with investing in stocks that are traded on the OTC BB and Pink Sheets. About Propanc Biopharma:

Propanc Biopharma is a clinical stage biopharmaceutical company developing new cancer treatments initially for patients suffering from pancreatic, ovarian and colorectal cancers. We have developed a formulation of anti-cancer compounds, which exert a number of effects designed to control or prevent tumors from recurring and spreading throughout the body. Our products involve or employ pancreatic proenzymes, which are inactive precursors of enzymes. In the near term, we intend to target patients with limited remaining therapeutic options for the treatment of solid tumors. In future, we intend to develop our lead product to treat (i) early stage cancer and (ii) pre-cancerous diseases and (iii) as a preventative measure for patients at risk of developing cancer based on genetic screening. For more information, visit: www.propanc.com.

Forward-Looking Statements:

All statements other than statements of historical fact contained herein are "forward-looking statements" for purposes of federal and state securities laws. Forward-looking statements may include the words "may," "will," "estimate," "intend," "continue," "believe," "expect," "plan" or "anticipate" and other similar words. Although we believe that the expectations reflected in our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and to inherent risks and uncertainties including those regarding our earnings, revenues and financial condition, our ability to implement our plans, strategies and objectives for future operations, our ability to execute on proposed new products, services or development thereof, our ability to establish and maintain the proprietary nature of our technology through the patent process, our ability to license from others patents and patent applications, if necessary, to develop certain products, our ability to implement our long range business plan for various applications of our technology, our ability to enter into agreements with any necessary manufacturing, marketing and/or distribution partners for purposes of commercialization, the results of our clinical research and development, competition in the industry in which we operate, overall market conditions, and any statements or assumptions underlying any of the foregoing. Other risks, uncertainties and factors that could cause actual results to differ materially from those projected may be described from time to time in reports we file with the Securities and Exchange Commission, including our reports on Forms 10-K, 10-Q and 8-K. We do not intend, and undertake no obligation, to update any forward-looking statement contained herein, except as required by law.
