# UPLISTING SUMMARY

---

Eight issuers listed their shares on the NASDAQ and NYSE in January, raising a combined \$35 million. Companies who operate in four different sectors made up the January 2022 class of uplisted companies including from the technology, consumer services, energy and precious materials sectors. Six of the newly exchange traded companies were listed organically, meaning they did not require a simultaneous underwritten public offering in order to consummate the uplisting or cross-listing to a Senior U.S. Exchange. Two of the uplistings and cross-listings included offerings ranging from \$10,000,000 to \$15,000,000, with investment banking partners including EF Hutton and Boustead Securities. Of these two companies that raised capital in connection with their listing, one included tradeable warrants as part of the transaction. We are hopeful for an active participation for uplistings and cross-listings in the months ahead even if the broader markets begin to slow.
