UPLISTING SUMMARY

The uplisting and cross-listing market remained active in June, with 5 issuers listing their shares on the Nasdaq and NYSE, raising a total of \$18.5 million. Three of the five uplisting issuers are from the micro-cap space (issuers with up to \$300 million market cap). Companies who operate in 5 different sectors made up the June 2022 class of uplisted and cross-listed companies, including from the technology, energy, industrials, consumer and financial services sectors.

Two of the newly exchange traded companies was listed organically, meaning they did not require a simultaneous underwritten public offering in order to consummate their uplisting to the Nasdaq and NYSE American. Three of the uplistings and cross-listings included offerings ranging from \$4,200,000 to \$9,256,895, with investment banking partners including ThinkEquity, Northland Capital and Spartan Capital. Of these 3 companies that raised capital in connection with their listing, one included tradeable warrants as part of the transaction. One of the companies that raised capital in connection with its listing did so via a structured PIPE transaction.

Overall, offering in the uplisting and cross-listing market have declined slightly in June. We remain hopeful for an active participation for uplistings and cross-listings in the months ahead even if the broader markets begin to slow or slide.
