DENVER--(BUSINESS WIRE)-- VF Corporation (NYSE: VFC) today reported financial results for its first quarter ended July 3, 2021. All per share amounts are presented on a diluted basis. This release refers to “reported” and “constant dollar” amounts, terms that are described under the heading “Constant Currency - Excluding the Impact of Foreign Currency.” Unless otherwise noted, “reported” and “constant dollar” amounts are the same. This release also refers to “continuing” and “discontinued” operations amounts, which are concepts described under the heading “Discontinued Operations - Occupational Workwear Business.” Unless otherwise noted, results presented are based on continuing operations. This release also refers to “adjusted” amounts, a term that is described under the heading “Adjusted Amounts - Excluding Transaction and Deal Related Activities and Costs Related to Specified Strategic Business Decisions.” Unless otherwise noted, “reported” and “adjusted” amounts are the same.

"Our teams delivered an outstanding first quarter, powering VF back to pre-pandemic revenue levels while driving an earnings recovery ahead of our expectations," said Steve Rendle, VF's Chairman, President and CEO. "We continue to see broad-based momentum across the portfolio, supporting an increase to our fiscal 2022 outlook for each of our largest brands. Though the first quarter is a relatively small portion of our total year, this strong start reinforces my confidence in our ability to accelerate growth through fiscal 2022 and beyond."

Constant Currency - Excluding the Impact of Foreign Currency

This release refers to "reported" amounts in accordance with U.S. generally accepted accounting principles ("GAAP"), which include translation and transactional impacts from foreign currency exchange rates. This release also refers to "constant dollar" amounts, which exclude the impact of translating foreign currencies into U.S. dollars. Reconciliations of GAAP measures to constant currency amounts are presented in the supplemental financial information included with this release, which identifies and quantifies all excluded items, and provides management's view of why this information is useful to investors.

Discontinued Operations - Occupational Workwear Business

On June 28, 2021, VF completed the sale of its Occupational Workwear business. The Occupational Workwear business was comprised primarily of the following brands and businesses: *Red Kap*[®], *VF Solutions*[®], *Bulwark*[®], *Workrite*[®], *Walls*[®], *Terra*[®], *Kodiak*[®], *Work Authority*[®] and *Horace Small*[®]. The business also included a license for certain *Dickies*[®] occupational workwear products that have historically been sold through the business-to-business channel. Accordingly, the company has reported the related held-for-sale assets and liabilities as assets and liabilities of discontinued operations and included the operating results and cash flows of the business in discontinued operations for all periods, through the date of sale.

Adjusted Amounts - Excluding Transaction and Deal Related Activities and Costs Related to Specified Strategic Business Decisions

The adjusted amounts in this release exclude transaction and deal related activities associated with the acquisition of the *Supreme*[®] brand. Total transaction and deal related activities include a decrease in the estimated fair value of the contingent consideration liability of \$73 million and integration costs of approximately \$4 million in the first quarter of fiscal 2022.

The adjusted amounts in this release exclude costs related to VF's business model transformation, a transformation initiative for our Asia-Pacific regional operations and certain cost optimization activities and other charges indirectly related to the divestiture of the Occupational Workwear business. Total costs were approximately \$14 million in the first quarter of fiscal 2022.

Combined, the above items positively impacted earnings per share by \$0.12 during the first quarter of fiscal 2022. All adjusted amounts referenced herein exclude the effects of these amounts.

Reconciliations of measures calculated in accordance with GAAP to adjusted amounts are presented in the supplemental financial information included with this release, which

identifies and quantifies all excluded items, and provides management's view of why this information is useful to investors.

COVID-19 Outbreak Update

To help mitigate the spread of COVID-19 and in response to public health advisories and governmental actions and regulations, VF has modified its business practices, including the temporary closing of offices and retail stores, instituting travel bans and restrictions and implementing health and safety measures including social distancing and quarantines.

The majority of VF's supply chain is currently operational. Suppliers are complying with local public health advisories and governmental restrictions which has resulted in isolated product delays. The resurgence of COVID-19 lockdowns in key sourcing countries has resulted in additional manufacturing capacity constraints during the first quarter. Additionally, port delays, equipment availability and other logistics challenges have contributed to product delays. VF is working with its suppliers to minimize disruption and is employing expedited freight as needed. VF's distribution centers are operational in accordance with local government guidelines while maintaining enhanced health and safety protocols.

In North America, less than 5 percent of stores were closed at the beginning of the first quarter. All stores have since reopened and currently all stores are open.

In the EMEA region, approximately 60 percent of stores were closed at the beginning of the first quarter. All stores have since reopened and currently all stores are open.

Nearly all of VF's owned retail stores in the APAC region, including Mainland China, were open at the beginning of the first quarter. Additional stores have since re-closed and currently 5% of stores are closed.

VF is continuing to monitor the COVID-19 outbreak globally and will comply with guidance from government entities and public health authorities to prioritize the health and well-being of its employees, customers, trade partners and consumers. As COVID-19 uncertainty continues, VF expects ongoing disruption to its business operations.

First Quarter Fiscal 2022 Income Statement Review

- **Revenue** increased 104 percent (up 96 percent in constant dollars) to \$2.2 billion. Excluding the impact of acquisitions, revenue increased 90 percent (up 83 percent in constant dollars) driven by VF's largest brands and the EMEA and North American regions, which experienced a significant negative impact from COVID-19 in the prior year period.
- **Gross margin** increased 360 basis points to 56.5 percent, primarily driven by reduced promotional activity. On an adjusted basis, gross margin increased 260 basis points, including a 30 basis point positive impact from acquisitions, to 56.7 percent.
- **Operating income** on a reported basis was \$203 million. On an adjusted basis, operating income increased 164 percent (160 percent in constant dollars) to \$148 million, including a \$32 million contribution from acquisitions. **Operating margin** on a reported basis was 9.2 percent. Adjusted operating margin increased 2820 basis points, including a 110 basis point positive impact from acquisitions, to 6.8 percent.
- **Earnings per share** was \$0.39 on a reported basis. On an adjusted basis, earnings per share increased 148 percent (up 144 percent in constant dollars) to \$0.27, including a \$0.07 contribution from acquisitions.

Balance Sheet Highlights

Inventories were down 13 percent compared with the same period last year. During the quarter, VF returned approximately \$192 million of cash to shareholders through dividends. As part of the company's liquidity preservation actions during the ongoing COVID-19 outbreak, the company has suspended its share repurchase program. VF has \$2.8 billion remaining under its current share repurchase authorization.

Full Year Fiscal 2022 Outlook

VF's full year outlook assumes no material deterioration to the company's current business operations as a result of COVID-19, governmental actions and regulations. VF's full year fiscal 2022 outlook has been updated and includes the following:

- **Revenue** is now expected to be at least \$12.0 billion, reflecting growth of at least 30 percent, including an approximate \$600 million contribution from the *Supreme*[®] brand. This compares to the previous expectation of approximately \$11.8 billion, reflecting growth of approximately 28 percent. By segment, revenue for **Outdoor** is now expected to increase between 24 percent and 26 percent versus the previous expectation of a 23 to 25 percent increase; revenue for **Active** is now expected to increase between 37 percent and 39 percent versus the previous expectation of a 34 to 36 percent increase; revenue for **Work** is now expected to increase between 16 and 18 percent versus the previous expectation of a 10 to 12 percent increase.
- **International** revenue is expected to increase between 25 percent and 27 percent. By geographic region, in the EMEA region, revenue is expected to increase between 29 percent and 31 percent. In the Asia Pacific region, revenue is expected to increase between 18 percent and 20 percent. And, in the Americas (non-U.S.) region, revenue is expected to increase between 28 percent and 30 percent.
- **Direct-to-consumer** revenue is now expected to increase between 39 percent and 41 percent versus the previous expectation of 38 percent and 40 percent, including **Digital** revenue growth of between 29 percent and 31 percent.
- **Adjusted gross margin** is expected to exceed 56.0 percent, which represents an estimated increase of more than 270 basis points.
- **Adjusted operating margin** is now expected to increase more than 500 basis points to more than 13.0 percent, versus the previous expectation of approximately 12.8 percent.
- **Adjusted earnings per share** is expected to be at least \$3.20, including an approximate \$0.25 contribution from the *Supreme*[®] brand. This compares to the previous expectation of approximately \$3.05.
- **Adjusted cash flow from operations** is expected to exceed \$1.0 billion.
- Other full year assumptions include an **effective tax rate** of approximately 15 percent and **capital expenditures** of approximately \$350 million.

Dividend Declared

VF's Board of Directors declared a quarterly dividend of \$0.49 per share, payable on September 20, 2021, to shareholders of record on September 10, 2021. Subject to approval by its Board of Directors, VF intends to continue to pay its regularly scheduled dividend and is not currently contemplating the suspension of its dividend.

Constant Currency Financial Information

VF is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by VF from translating its foreign revenues and expenses into U.S. dollars. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present constant currency financial information, which is a non-GAAP financial measure that excludes the impact of translating foreign currencies into U.S. dollars. We use constant currency information to provide a framework to assess how our business performed excluding the effects of changes in the rates used to calculate foreign currency translation. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a constant currency basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period).

These constant currency performance measures should be viewed in addition to, and not in lieu of or superior to, our operating performance measures calculated in accordance with GAAP. The constant currency information presented may not be comparable to similarly titled measures reported by other companies.

(a) Transaction and deal related activities include activities associated with the acquisition of Supreme Holdings, Inc. ("Supreme") for the three months ended June 2021. Transaction and deal related activities include a decrease in the estimated fair value of the contingent consideration liability of \$73.0 million and integration costs of \$4.4 million for the three months ended June 2021. The transaction and deal related activities resulted in a net tax expense of \$9.5 million in the three months ended June 2021, primarily related to the impact of the decrease in the estimated fair value of the contingent consideration liability on the interim tax rate calculation.

(b) Specified strategic business decisions for the three months ended June 2021 include costs related to VF's business model transformation of \$1.5 million in the three months ended June 2021, related primarily to restructuring and other costs. Specified strategic business decisions also include costs related to a transformation initiative for our Asia-Pacific regional operations of \$8.5 million in the three months ended June 2021. Specified strategic business decisions also include cost optimization activities and other charges indirectly related to the divestiture of the Occupational Workwear business, which totaled \$4.1 million during the three months ended June 2021. The specified strategic business decisions resulted in a net tax benefit of \$2.2 million in the three months ended June 2021.

(c) The contribution from acquisition represents the operating results of Supreme for the three months ended June 2021. The results exclude transaction and deal related activities.

(d) Amounts shown in the table have been calculated using unrounded numbers. The diluted earnings per share impacts were calculated using 394,128,000 weighted average common shares for the three months ended June 2021.

Non-GAAP Financial Information

The financial information above has been presented on a GAAP basis, on an adjusted basis, which excludes the impact of transaction and deal related activities and activity related to specified strategic business decisions, and on an adjusted organic basis, which excludes the operating results of Supreme (for the three months ended June 2021). Contribution from acquisition also excludes transaction and deal related activities. These adjusted presentations are non-GAAP measures. Management believes these measures provide investors with useful supplemental information regarding VF's underlying business trends and the performance of VF's ongoing operations and are useful for period-over-period comparisons of such operations.

Management uses the above financial measures internally in its budgeting and review process and, in some cases, as a factor in determining compensation. While management believes that these non-GAAP financial measures are useful in evaluating the business, this information should be considered as supplemental in nature and should be viewed in addition to, and not in lieu of or superior to, VF's operating performance measures calculated in accordance with GAAP. In addition, these non-GAAP financial measures may not be the same as similarly titled measures presented by other companies.
