

# TrueBlue Reports 2008 Second Quarter Results

TACOMA, Wash .-- (BUSINESS WIRE) --

TrueBlue, Inc. (NYSE:TBI):

Second Quarter Summary

- -- Revenue of \$371 million, an increase of 6% compared to the second quarter of 2007.
- -- Net income of \$16.7 million, a decrease of 11% compared to the second quarter of 2007.
- -- Diluted net income per common share of \$0.39 compared to \$0.41 for the second quarter of 2007.

The six percent revenue growth for the quarter consisted of 18 percent growth from acquisitions completed within the last 12 months offset by a 12 percent decrease in organic revenue growth, which consists of total revenue growth less growth from acquisitions.

Included in net income for the second quarter is \$0.04 per diluted share of income tax benefit from the resolution of certain income tax matters.

"Economic pressures have created a broad-based reduction in demand across the geographies and industries we serve," said TrueBlue CEO Steve Cooper. "We responded this quarter by further reducing our cost structure through closing branches and reducing other expenses. We will continue our disciplined approach to controlling the costs of our operations as we manage through these difficult conditions."

**Branch and Acquisition Activity** 

TrueBlue acquired 44 branches with the acquisition of PMI, a light industrial staffing company, and closed 18 branches across multiple brands, resulting in 927 total branches in operation at the end of the guarter. Year-to-date branch closures for 2008 total 24.

Since May 2007, TrueBlue has completed four acquisitions: Skilled Services in May 2007 to grow the CLP skilled construction trades brand; PlaneTechs in December 2007 to enter the aviation mechanic staffing market; TLC in February 2008 to enter the truck driver staffing market; and PMI in May 2008 to expand TrueBlue's geographic presence in the light industrial staffing market.

"Our acquisitions position us well for growth," said Cooper. "However, our top priority is to maximize the performance of our existing operations."

Share Repurchase and Q3 Outlook

TrueBlue repurchased 0.88 million shares during the quarter at a cost of \$11.5 million and 0.35 million shares at a cost of \$4.5 million following the end of the quarter. Under the current share repurchase authorization, \$21.5 million remains available for repurchase.

For the third quarter of 2008, TrueBlue estimates revenue in the range of \$390 to \$400 million with net income per diluted share for the quarter in the range of \$0.38 to \$0.42.
