Sidus Space Offers Spacecraft Mission Control Center for Commercial Customers

CAPE CANAVERAL, Fla.--(BUSINESS WIRE)-- Sidus Space, Inc. (NASDAQ: SIDU) (the "Company" or "Sidus"), a multi-faceted Space and Data-as-a-Service satellite company, unveils its Mission Control Center ("MCC") as an additional revenue stream within the Company's Space-Based Data Solutions business unit.

Sidus' products and services are offered through its four business units: Space and Defense Hardware Manufacturing, Satellite Manufacturing and Payload Integration, Space-Based Data Solutions, and AI/ML Products and Services. The MCC presents a unique service offering to monitor and support spacecraft missions and generate additional revenue from commercial customers.

Sidus' MCC manages space mission operations for the lifecycle of a spacecraft, from launch to mission completion. The Company's MCC Team has 100% uptime, working 24/7 to monitor every aspect of a mission, from the health and status of the satellite or spacecraft while in orbit, to performing operational tests throughout mission lifecycle. The MCC monitors propulsion, temperature, on-board computers, and payload status and has the capability to identify potential risks, helping ensure the success of each mission. Additionally, Sidus' MCC establishes and maintains bidirectional communication with the spacecraft via the Company's network of ground stations, allowing for the transmittal of data and imagery while on-orbit back to Earth. Sidus' MCC is scalable to support from one spacecraft to a full constellation of many satellites and is an attractive option for satellite customers that do not have their own mission control capabilities.

"We are excited to offer this capability to commercial customers to provide a much-needed service to the Space ecosystem," said Carol Craig, CEO. "This specialized service adds another revenue stream to our heritage-based space capabilities which will result in added value for our shareholders."

About Sidus Space

Sidus Space (NASDAQ: SIDU) is a multi-faceted Space and Data-as-a-Service satellite company focused on mission-critical hardware manufacturing; multi-disciplinary engineering services; satellite design, production, launch planning, mission operations; and in-orbit support. The Company is in Cape Canaveral, Florida, where it operates from a 35,000-square-foot manufacturing, assembly, integration, and testing facility focused on vertically integrated Space-as-a-Service solutions including end-to-end satellite support.

Sidus Space has a mission of Bringing Space Down to Earth™ and a vision of enabling space flight heritage status for new technologies while delivering data and predictive analytics to domestic and global customers. More than just a "Satellite-as-a-Service"

provider, Sidus Space's products and services are offered through its four business units: Space and Defense Hardware Manufacturing, Satellite Manufacturing and Payload Integration, Space-Based Data Solutions, and AI/ML Products and Services to support customers from concept to Low Earth Orbit and beyond. Sidus Space is ISO 9001:2015, AS9100 Rev. D certified, and ITAR registered.

Forward-Looking Statements

Statements in this press release about future expectations, plans and prospects, as well as any other statements regarding matters that are not historical facts, may constitute 'forward-looking statements' within the meaning of The Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to, statements relating to the expected trading commencement and closing dates. The words 'anticipate,' 'believe,' 'continue,' 'could,' 'estimate,' 'expect,' 'intend,' 'may,' 'plan,' 'potential,' 'predict,' 'project,' 'should,' 'target,' 'will,' 'would' and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: the uncertainties related to market conditions and other factors described more fully in the section entitled 'Risk Factors' in Sidus Space's Annual Report on Form 10-K for the year ended December 31, 2023, and other periodic reports filed with the Securities and Exchange Commission. Any forward-looking statements contained in this press release speak only as of the date hereof, and Sidus Space, Inc. specifically disclaims any obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.
