

# Q1 2025 Earnings Presentation

April 24, 2025

# Forward Looking Statements

This presentation contains statements that are forward looking within the meaning of the Private Securities Litigation Reform Act of 1995, including, but not limited to, statements concerning the macro environment, our business outlook, our business plans and capital allocation strategy and our earnings and cash flow outlook. These statements involve risks and uncertainties that may cause actual results and trends to differ materially from those projected. When citing financial performance relative to expectations, we are referring to actual results against the outlook provided on our Q4 2024 earnings call, unless otherwise noted. Except to the extent required by applicable securities laws, we undertake no obligation to update or publicly revise any of the forward-looking statements that you may hear today. Please refer to our first quarter earnings release, furnished on Form 8-K, our most recent annual and quarterly reports filed on Form 10-K and Form 10-Q, respectively, and in particular any discussion of risk factors or forward-looking statements therein, which are available on the SEC's website ([www.sec.gov](http://www.sec.gov)), for a full discussion of the risks and other factors that may impact any forward-looking statements that you may hear today. We may make certain statements during the course of this presentation, which include references to "non-GAAP financial measures," as defined by SEC regulations. Where required by these regulations, we have provided reconciliations of these measures to what we believe are the most directly comparable GAAP measures, which are included in the appendix.

# Consolidated Results Summary

**QTD Financials**, \$ in millions, except per share figures, % change for consolidated results in USD

|                 | Three Months Ended March 31, |         |          |
|-----------------|------------------------------|---------|----------|
|                 | 2025                         | 2024    | % Change |
| Revenue         | \$8,910                      | \$7,935 | 12%      |
| Net Revenue     | 5,112                        | 4,444   | 15%      |
| GAAP Net Income | 163                          | 126     | 29%      |
| Core EBITDA     | 540                          | 424     | 27%      |
| GAAP EPS        | \$0.54                       | \$0.41  | 32%      |
| Core EPS        | \$0.86                       | \$0.78  | 10%      |

- Core EBITDA growth of 27% year-on-year, led by continued strength in our resilient business lines and continued recovery of transactional businesses
- Core EPS growth of 10% year-on-year. Note that last year’s Q1 included a large, one-time tax benefit. Absent that benefit, Core EPS grew 39% year-on-year
- YTD Repurchased nearly \$600 million worth of shares
- CBRE resilient businesses generated net revenue growth of 17%, nearly matching the 18% increase in our transactional businesses, and resilient businesses accounted for over 60% of our total SOP on a trailing 12-month basis.
- Given CBRE’s success in increasing the resilient parts of our business and our strong balance sheet, we are better positioned than ever before to not only weather a recession but take advantage of opportunities created in a downturn

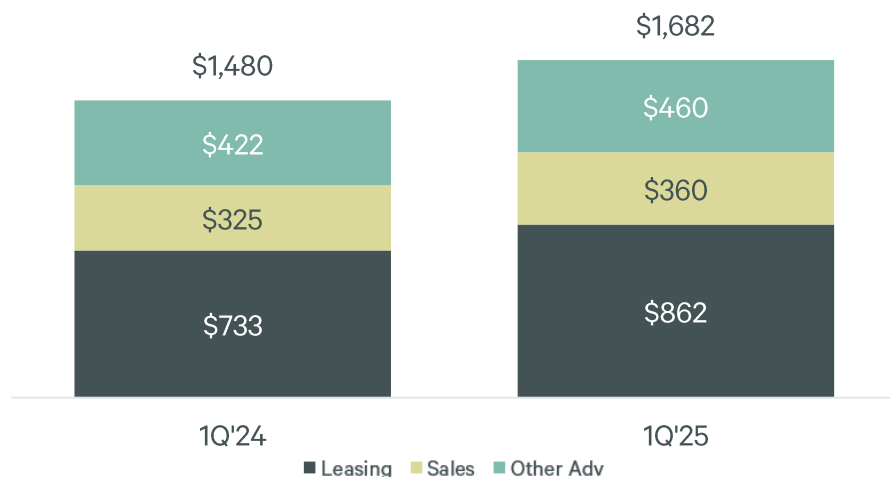

# Advisory Services

\$ in millions, totals may not sum due to rounding

## Financial Commentary, % change in Local currency

- Net revenue growth of 16% exceeded expectations, led by strong leasing and capital markets activity
- Global leasing revenue growth accelerated to 19% in the first quarter, fueled by a 38% jump in office leasing that reached its highest level for any Q1
- Strong office activity continued in gateway markets, which grew 55% in aggregate while non-gateway markets like Atlanta, Dallas, Houston and Miami delivered double-digit growth
- U.S. property sales revenue grew 26%, with a significant uptick in multifamily and industrial asset sales. Loan originations solid, led by banks and insurance companies
- SOP growth of 31% reflected strong operating leverage

**Net Revenue**

**Segment Operating Profit**

1. Other Advisory includes Commercial Mortgage Originations, Loan Servicing, Valuations and Other Portfolio Services

# Building Operations & Experience

\$ in millions, totals may not sum due to rounding

## Financial Commentary, % change in Local currency

- Net revenue growth of 22%, with strong organic growth across Facilities Management and Property Management business lines
- Strong demand from Enterprise clients in the Technology, Life Sciences and Healthcare sectors, as well as new wins with hyperscale data center clients
- The Local business within Facilities Management continues to drive outsized growth in the U.S., where we are actively expanding our market share in a fragmented market. We also saw strong growth in our most mature market, the U.K.
- Property Management business delivered strong growth, slightly ahead of expectations
- Strong operating leverage primarily resulting from last year’s cost efficiency initiatives, driving 38% SOP growth

**Net Revenue**

**Segment Operating Profit**

# Project Management

\$ in millions, totals may not sum due to rounding

## Financial Commentary, % change in Local currency

- Revenue growth of 9%, in-line with our expectations, led by mid-double-digit revenue growth from legacy Turner & Townsend
- The legacy Turner & Townsend business had strong wins in Infrastructure in the UK and Middle East, as well as large new program mandates in Real Estate
- Project Management net SOP margin continued to improve year-on-year, driving SOP growth of 14%. This increase in margin does not yet reflect the cost and operating synergies of combining CBRE Legacy Project Management with Turner & Townsend

Net Revenue

Segment Operating Profit

# Real Estate Investments

\$ in millions, totals may not sum due to rounding

## Financial Commentary, % change in Local currency

- Investment Management operating profit was up 43% year-on-year, exceeding expectations, driven by higher net promotes and recurring asset management fees as well as modestly lower operating expenses
- Assets under management ended the quarter at \$149 billion, up nearly \$3 billion since the end of 2024, driven by net inflows, higher asset values and favorable currency movement
- Development operating profit was in-line with expectations
- We continued to grow our in-process portfolio in the U.S, starting 12 projects in the first quarter, compared with 26 in all of 2024

**Revenue**

**Segment Operating Profit**

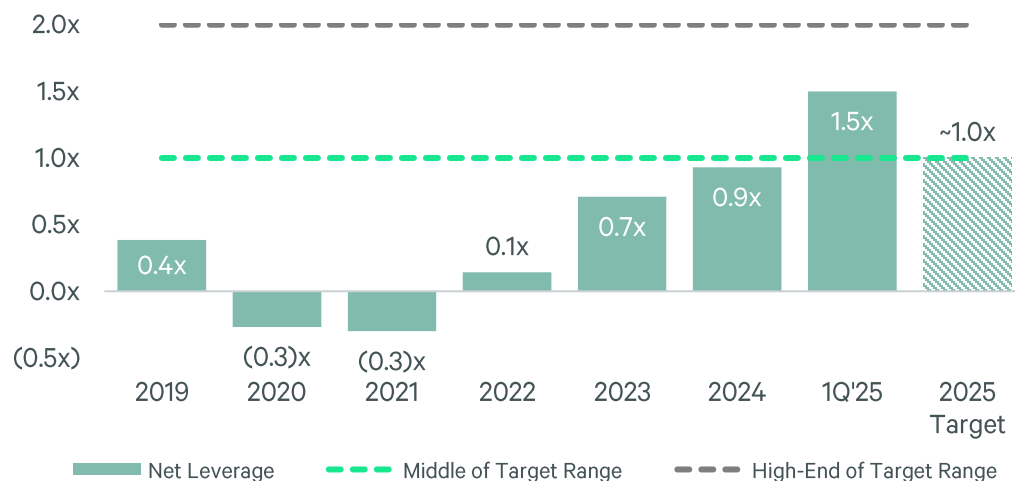

# Capital Allocation and Free Cash Flow

**TTM Free Cash Flow, \$ in millions**

- TTM Free Cash Flow conversion solid at 93%.
- We continue to expect full year conversion in-line with our previously stated target range of 75 – 85%
- Strong free cash flow and an even stronger balance sheet provide CBRE with meaningful optionality for any economic scenario
- After deploying approximately \$1 billion of capital year to date across M&A, share repurchase and co-investments we ended the quarter with net leverage of less than 1.5 turns
- Absent large-scale M&A or a recession, we expect to end the year at or under one turn of net leverage and are willing to lever up to two turns for the right acquisitions

**Net Leverage**

# 2025 Outlook

## Financial Commentary

### Consolidated Guidance

2025 Core EPS of \$5.80 - \$6.10

2025 FCF to approximate 2024 level, with conversion within 75-85% target range

- Heading into Q2, our strong Q1 performance, strong pipelines and strong current activity would have prompted us to raise our full-year guidance to the high-end of the range we set in February
- However, given the significant market uncertainty related to tariffs, absent increased interest rate volatility or a recession, we are maintaining our 2025 Core EPS guidance range of \$5.80 - \$6.10

1. Total Resilient and Transactional Businesses excludes Corporate Expenses and revenue eliminations

Note: the above split between resilient and transactional businesses represents management's best estimates and is only to demonstrate the resiliency of CBRE's various businesses. Resilient businesses include facilities management, project management, loan servicing, valuations, other portfolio services, property management and recurring investment management fees. Transactional businesses include property sales, leasing, mortgage origination, carried interest and incentive fees in the investment management business, and development fees.

| <b>Weighted Average Shares outstanding for diluted income per share</b>                               | <b>302.9</b>                 | <b>308.5</b>  |

CBRE has not reconciled the (non-GAAP) Core EPS forward-looking guidance included in this presentation to the most directly comparable GAAP measure because this cannot be done without unreasonable effort due to the variability and low visibility with respect to costs related to acquisitions, carried interest incentive compensation and financing costs, which are potential adjustments to future earnings. We expect the variability of these items to have a potentially unpredictable, and a potentially significant, impact on our future GAAP financial results.
