HOUSTON, March 23, 2023 /PRNewswire/ -- Direct Digital Holdings, Inc. (Nasdaq: DRCT) ("Direct Digital Holdings" or the "Company"), a leading advertising and marketing technology platform operating through its companies Colossus Media, LLC ("Colossus SSP"), Huddled Masses LLC ("Huddled Masses") and Orange142, LLC ("Orange142"), today announced financial results for the fourth guarter and fiscal year ended December 31, 2022.

Mark Walker, Chairman and Chief Executive Officer, commented, "We are pleased to report that 2022, our first year as a public company, saw robust financial performance, significant operational expansion and continued gains in market share for Direct Digital Holdings. Both our quarterly and full-year results capitalized on brands and businesses moving dollars away from less efficient traditional advertising outlets towards digital media. We are expecting strong double-digit percentage revenue growth in FY 2023 across both our sell- and buy-side business segments as we further drive customer adoption of our digital advertising solutions."

Keith Smith, President, added, "Our fourth quarter and full-year 2022 performance, particularly during a difficult macroeconomic environment, is a testament to our market-leading approach working with middle market and multicultural audiences. Looking ahead, we are excited to continue scaling across these fast-growing and underrepresented communities from a position of financial strength, which we expect will give us a significant competitive advantage for sustainable, long-term growth."

Financial Outlook

Assuming the U.S. economy does not experience any major economic conditions that deteriorate or otherwise significantly reduce advertiser demand, we estimate the following:

• For fiscal year 2023, we *expect* revenue to be in the range of \$118 million to \$122 million, or 36% year-over-year growth at the mid-point.

"As we enter into our second year as a public company, we remain disciplined in our strategic organic growth initiatives, continue to focus on increasing EBITDA and aim to provide maximum value for our shareholders," commented Susan Echard, Chief Financial Officer.

NON-GAAP FINANCIAL MEASURES

In addition to our results determined in accordance with U.S. generally accepted accounting principles ("GAAP"), including, in particular operating income, net cash provided by operating activities, and net income, we believe that earnings before interest, taxes, depreciation and amortization ("EBITDA"), as adjusted for stock compensation expense, forgiveness of Paycheck Protection Program loans, gain from revaluation and settlement of seller notes and earnout liability, loss on early extinguishment of debt, and loss on early redemption of non-participating preferred units ("Adjusted EBITDA"), a non-GAAP financial measure, is useful in evaluating our operating performance. The most directly comparable GAAP measure to Adjusted EBITDA is net income (loss).

In addition to operating income and net income, we use Adjusted EBITDA as a measure of operational efficiency. We believe that this non-GAAP financial measure is useful to investors for period-to-period comparisons of our business and in understanding and evaluating our operating results for the following reasons:

- Adjusted EBITDA is widely used by investors and securities analysts to measure a
 company's operating performance without regard to items such as depreciation and
 amortization, interest expense, provision for income taxes, and certain one-time items
 such as acquisition transaction costs and gains from settlements or loan forgiveness
 that can vary substantially from company to company depending upon their financing,
 capital structures and the method by which assets were acquired;
- Our management uses Adjusted EBITDA in conjunction with GAAP financial measures for planning purposes, including the preparation of our annual operating budget, as a measure of operating performance and the effectiveness of our business strategies and in communications with our board of directors concerning our financial performance; and
- Adjusted EBITDA provides consistency and comparability with our past financial performance, facilitates period-to-period comparisons of operations, and also facilitates comparisons with other peer companies, many of which use similar non-GAAP financial measures to supplement their GAAP results.

Our use of this non-GAAP financial measure has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our financial results as reported under GAAP. The following table presents a reconciliation of Adjusted EBITDA to net income (loss) for each of the periods presented:
