

#### Dynatrace Reports First Quarter of Fiscal Year 2023 Financial Results

#### Delivers Adjusted ARR growth of 34% year-over-year

WALTHAM, Mass, August 3, 2022 (Business Wire) - Software intelligence company Dynatrace (NYSE: DT) today released financial results for the first quarter of its fiscal 2023 ended June 30, 2022.

"Q1 was yet another quarter of solid execution with balanced growth and profitability highlighting the durability of our business in the current environment," said Rick McConnell, Chief Executive Officer. "We continue to see digital transformation initiatives with clear and measurable ROI as a top priority for the global 15,000 organizations that we target. Automation and AIOps are requirements for companies looking to do more with less time, resource, and cost. Our platform is rooted in these capabilities, which differentiate us from our competitors and position us well for continued growth and success in the future.

#### First Quarter Fiscal 2023 and Other Recent Business Highlights:

All growth rates are compared to the first quarter of fiscal 2022 unless otherwise noted.

#### \* Use of Non-GAAP Financial Measures

In our earnings press releases, conference calls, slide presentations, and webcasts, we may use or discuss non-GAAP financial measures, as defined by Regulation G. The GAAP financial measure most directly comparable to each non-GAAP financial measure used or discussed, and a reconciliation of the differences between each non-GAAP financial measure and the comparable GAAP financial measure, are included in this press release after the consolidated financial statements. Our earnings press releases containing such non-GAAP reconciliations can be found in the Investors section of our website at https://ir.dynatrace.com.

#### **Financial Outlook**

Since March 31, 2022, Dynatrace has seen an incremental strengthening of the U.S. dollar resulting in a foreign exchange ("FX") headwind in fiscal 2023. Total FY23 FX impact on a constant currency basis is expected to be approximately \$40 million on ARR, up from prior quarter expectations of \$20 million. Total FY23 FX impact is expected to be approximately \$47 million on Revenue, up from prior quarter expectations of \$33 million.

Growth rates for Adjusted ARR, Total revenue, and Subscription revenue are presented in constant currency in the table below to provide better visibility into the underlying growth of the business.

Our guidance is based on foreign exchange rates as of the end of July.

Reconciliation of non-GAAP operating income, non-GAAP net income, non-GAAP net income per diluted share and free cash flow guidance to the most directly comparable GAAP measures is not available without unreasonable efforts

on a forward-looking basis due to the high variability, complexity and low visibility with respect to the charges excluded from these non-GAAP measures; in particular, the measures and effects of share-based compensation expense, employer taxes and tax deductions specific to equity compensation awards that are directly impacted by future hiring, turnover and retention needs, as well as unpredictable fluctuations in our stock price. We expect the variability of the above charges to have a significant, and potentially unpredictable, impact on our future GAAP financial results.

#### **Non-GAAP Financial Measures & Key Metrics**

In addition to disclosing financial measures prepared in accordance with GAAP, this press release and the accompanying tables contain certain non-GAAP financial measures.

Non-GAAP financial measures do not have any standardized meaning and are therefore unlikely to be comparable to similarly titled measures presented by other companies. Dynatrace considers these non-GAAP financial measures to be important because they provide useful indicators of its performance and liquidity measures. These are key measures used by our management and board of directors to understand and evaluate our core operating performance and trends, to prepare and approve our annual budget and to develop short and long-term operational plans. In addition, investors often use similar measures to evaluate the performance of a company. Non-GAAP financial measures are presented for supplemental informational purposes only for understanding the company's operating performance. The non-GAAP financial measures should not be considered a substitute for financial information presented in accordance with GAAP, and may be different from non-GAAP financial measures presented by other companies. The GAAP financial measure most directly comparable to each non-GAAP financial measure used or discussed, and a reconciliation of the differences between each non-GAAP financial measure and the comparable GAAP financial measure, are included in this press release after the consolidated financial statements.

Dynatrace presents constant currency amounts for Revenue and Annual Recurring Revenue to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency rate fluctuations. To present this information, current and comparative prior period results for entities reporting in currencies other than United States dollars are converted into United States dollars using the average exchange rates from the comparative period rather than the actual exchange rates in effect during the respective periods. All growth comparisons relate to the corresponding period in the last fiscal year. Dynatrace provides this non-GAAP financial information to aid investors in better understanding our performance.

**Annual Recurring Revenue "ARR"** is defined as the daily revenue of all subscription agreements that are actively generating revenue as of the last day of the reporting period multiplied by 365. We exclude from our calculation of Total ARR any revenues derived from month-to-month agreements and/or product usage overage billings.

**Adjusted ARR** is defined as ARR excluding the impact of foreign exchange rate fluctuations that occurred over the trailing twelve month period. This calculation also excludes the headwind associated with the Dynatrace® perpetual license ARR that rolled off in the trailing twelve month period.

Adjusted ARR Growth is defined as year-over-year growth in Adjusted ARR divided by ARR as reported.

**Dynatrace® Net Expansion Rate** is defined as the Dynatrace® ARR at the end of a reporting period for the cohort of Dynatrace® accounts as of one year prior to the date of calculation, divided by the Dynatrace® ARR one year prior to the date of calculation for that same cohort. This calculation excludes the benefit of Dynatrace® ARR resulting from the conversion of Classic products to the Dynatrace® platform. Effective the first quarter of fiscal year 2023, we began to exclude the headwind associated with the Dynatrace perpetual license ARR given diminishing impact of perpetual license ARR. We believe that eliminating the perpetual license headwind will result in a Net Expansion Rate metric that better reflects Dynatrace's ability to expand existing customer relationships.

**Dynatrace customers** are defined as accounts, as identified by a unique account identifier, that generate at least \$10,000 of Dynatrace® ARR as of the reporting date. In infrequent cases, a single large organization may comprise multiple customer accounts when there are distinct divisions, departments or subsidiaries that operate and make purchasing decisions independently from the parent organization. In cases where multiple customer accounts exist under a single organization, each customer account is counted separately based on a mutually exclusive accounting of ARR.

Free Cash Flow is defined as net cash provided by (used in) operating activities less capital expenditures.
