NorthWest Indiana
BANCORP

"...our team has the plan, personnel, and technology in place to continue to earn your confidence and trust."

David A. Bochnowski
Chairman & CEO

2008 Annual Report

2008 > Gary, Indiana

A ribbon-cutting ceremony marked the opening of Peoples' 10th Banking Center in Gary.

2008 > Community First

Through internal fundraising events and with matching funds from the Bank, employees raised $25,000 which they distributed to the Boys and Girls Club of Northwest Indiana, Habitat for Humanity and the Legacy Foundation. The money donated to the Boys and Girls Clubs alone provided clothing to 87 children in need.

2008 > You First Banking Staff

By responding quickly and effectively with the service and solutions to meet the customer's financial goals, Peoples Bank employees demonstrate their commitment to putting the needs of customers first. That's ***You First Banking!***

2008 Annual Report

Dear Shareholder,

At a time when our nation is facing its worst economic crisis in four generations, your company, the NorthWest Indiana Bancorp, bucked the national trend as we reported income of $5.9 million in 2008.

David A. Bochnowski
Chairman and
Chief Executive Officer

This 6.1% earnings increase for the year was an achievement nothing short of remarkable against the backdrop of a national recession, and in the midst of efforts by the government to shore up the balance sheets of financial services companies.

Federal Assistance Declined

In November, your Board of Directors diligently reviewed the Capital Purchase Program of the Treasury Department. This program provided the opportunity for banks to receive financial assistance from the federal government in the form of capital infusions subject to certain rules and regulations, including the payment of interest as well as the repayment of principal. After careful consideration of all factors including our capital position, income, asset quality, reserves for potential loan portfolio stress, core earnings, and the details of the program, the Board of Directors unanimously decided not to apply for the funds.

As the leader of the Bancorp and our operating subsidiary, Peoples Bank, I am confident that our team has the plan, personnel, and technology in place to continue to earn your confidence and trust. We have faced uncertain times before, including the recession that devastated our community in the early 1980s, the follow up recession later that same decade, and the bursting of the technology bubble at the beginning of this century. The Peoples team successfully met each of those challenges and has the experience, talent, and motivation to do so again in the current environment.

Stability

The stability of the Bancorp's performance can be measured by the consistency of our commitment to our core business: utilizing retail deposits to serve the credit needs of consumers and small business. Because of our focus on the creation of value for our customers, community and shareholders, the Bancorp avoided high-flying disastrous practices. Your company has no exposure to subprime lending, credit default swaps, brokered deposits, or Fannie Mae or Freddie Mac stock.

Statistically, the Bancorp outperformed the industry based upon two key measures. Our return on assets (ROA) was 0.91% and our return on equity (ROE) was 10.96%. Both ratios more than doubled national averages for the banking sector.

Operating Results

The Peoples team took care of business during the year: income was up, assets grew, loan balances increased, and core accounts funded our growth.

At year-end our assets totaled $664.7 million, an increase of $36.0 million over the prior year. Contrary to the national reports of a credit crisis, our loan portfolio increased $21.1 million with growth in consumer loans, commercial loans, and loans to local government units. Deposits increased $34.8 million with core accounts, checking, money market, and savings representing 56.3 % of total deposits.

Our position as a core account funded bank drove a significant increase in our net interest income, the difference between interest income from loans and investments and interest expense paid on deposits and borrowed funds. For the year, our net interest margin, or core income, increased $4.3 million or 24.3%. Core income as measured by our net interest margin was 3.99% at the end of December, a healthy position that will help insulate the Bank should economic conditions deteriorate.

Performance Strategy

Your company has adopted "You First Banking" as the brand that describes our unique position as a community bank in our market. The clarity of our message—putting customers first—stands in stark contrast to the products and services of our regional and national banking competitors. We offer traditional deposit and loan products, as well as wealth management services, private banking, and electronic banking with a customer-centered approach to every individual and transaction. In addition, we have stayed focused on fundamental banking principals in our effort to create value for all our stakeholders.

Core Funding

The Bank relies on retail deposits from our consumer and small business customers as the mainstay of our funding needs. Our emphasis has been on checking, money market, and savings accounts, a strategy that fulfills a fundamental need in our market while driving down our cost of funds. We have stayed away from hot money and brokered deposits.

Loan Quality

The Bank's loan underwriting standards are designed to encourage the offering of sound credit facilities to our borrowers while protecting the quality of our asset base. The uncertainty of the economy has impacted the quality of our loan portfolio, particularly with regard to loan participations originally intended to avoid concentrations in our local market. As a result of management's assessment of current credit quality, provisions to the allowance for loan losses totaled $2.4 million for the year. Our due diligence process will continue to take into account the risks of the current recession.

Efficiency

The Bank continues to believe that low cost providers of high quality products and services will lead our industry, a concept that is consistently reinforced with the Peoples team. Our efficiency ratio, a key indicator of a bank's cost consciousness, was a respectable 63.5% for the year. Management is confident that we not only have well qualified talent in place, but that we also provide the salary, benefits, education, and training necessary for their continued professional development.

Growth

Our strategic plan calls for increasing our market value through improved market share. Professional studies suggest that opportunities exist in numerous segments of our market to capture more wallet share of existing customers as well as extend our brand through new locations in Lake and Porter counties. One new product introduced in 2008, You First Checking, garnered $3.5 million in deposits by year-end. Our new Crown Point Banking Center had growth exceeding $10.4 million after its first full year of operation, and our new Gary location also exceeded expectations during the two months it was on line in 2008.

Balance Sheet Strategies

During economic stress, sound management requires a bank to balance the need to nimbly react to changing circumstances with prudent banking practices. In these times, a common sense approach to investing requires a stronger cash position as liquidity takes on increasing importance in preserving operating alternatives.

The Bank will continue to review opportunities to reposition the duration of our assets and, during 2008, will originate for sale all fixed rate mortgage loans with a term of fifteen years or more. Our investment portfolio will continue to be positioned to avoid high risk returns in the current low rate environment.

Capital

In the current crisis, a healthy capital position is central to weathering the storm of the economy. Capital resources permit growth but also provide the cushion to withstand shocks that might stem from deterioration in asset quality. As a shareholder, you should be pleased to know that your company continues to exceed all the federal government's "well capitalized" standards.

Dividend Policy

Bank investors across the country have experienced decreases in dividends as bank earnings have fallen resulting in pressure on bank capital. Shareholders have expressed interest in the outlook for the Bancorp's dividend in the current economic environment.

During the year, the Bancorp's dividend held steady consistent with the parameters of our dividend policy. Your Board of Directors determines our dividend each quarter and formulates a decision based upon a review of several interrelated factors.

The Board's evaluation embraces operating dynamics and issues that influence our capital position including income, current economic conditions, capital usage for technology and banking center expansion, provisions for potential loan portfolio deterioration, and the capital guidance of state and federal banking regulators.

In February of 2009, the Board applied these factors to the dividend to be paid in April of 2009 and authorized the payment of $0.36 dividend per share, an amount unchanged from the October 2008 quarterly dividend payment and the quarterly dividends paid in January, April, and July of last year.

Directors

At last year's annual meeting, Lee Cataldi retired from the Board after thirty years of service to the Bancorp. Lee served with distinction as a director and consistently advocated for our customers, community, and shareholders. He provided valuable insight on product and service delivery, and for many years devoted extra time to our cause as chairman of our Wealth Management Committee. We continue to benefit from his counsel and experience in his role as a director emeritus.

Following Lee's retirement, Amy W. Han, Ph.D., joined the Board of Directors. Amy is the Director of Clinical Affairs and Clinical Professor of Psychology at Indiana University School of Medicine-Northwest, as well as actively engaged in numerous community activities. Her background brings additional expertise to the skill sets of the Board with respect to employee training and development as well as the target marketing of our products and services.

In the fall of last year, Harold Rueth, a friend of the Bancorp who had served the Bank since the 1960s as a Board member and subsequently a director emeritus, passed away. Renowned as a businessman and developer, Harold was also a true humanitarian who helped many people in numerous ways. His insights made a difference in the success of the Bancorp and he shall always be remembered for his dedication to our cause.

The Coming Year

These are unprecedented times in the American economy as uncertainty grips the nation. Restoring confidence is our top priority and banks need to take a leadership role in making that happen. Our capitalist system is built upon trust and the Peoples team has a track record that has earned the trust of our customers, community, and shareholders.

The Peoples team promises our shareholders and stakeholders that we will continue to provide leadership and stability while remaining close to the needs of our customers and community. The ability to work in the banking business is a privilege not a right, and the one hundred ninety eight men and women who work at Peoples Bank every day will honor that privilege through their hard work, values-based principles, and commitment to delivering exceptional operating results to our customers, community and shareholders.

Sincerely,

David A. Bochnowski
Chairman and Chief Executive Officer

Business

NorthWest Indiana Bancorp (the Bancorp) is a bank holding company registered with the Board of Governors of the Federal Reserve System. Peoples Bank (the Bank), an Indiana bank, is a wholly owned subsidiary of the Bancorp. The Bancorp has no other business activity other than being the holding company for the Bank.

The Bancorp conducts business from its Corporate Center in Munster and its ten full-service offices located in Crown Point, Dyer, East Chicago, Gary, Hammond, Hobart, Merrillville, Munster and Schererville, Indiana. The Bancorp is primarily engaged in the business of attracting deposits from the general public and the origination of loans secured by single family residences and commercial real estate, as well as, construction loans, various types of consumer loans and commercial business loans. In addition, the Bancorp's Wealth Management Group provides estate and retirement planning, guardianships, land trusts, profit sharing and 401(k) retirement plans, IRA and Keogh accounts, and investment agency accounts. The Wealth Management Group may also serve as the personal representative of estates and act as trustee for revocable and irrevocable trusts.

The Bancorp's common stock is traded in the over-the-counter market and is quoted on the OTC Bulletin Board. On February 23, 2009, the Bancorp had 2,809,285 shares of common stock outstanding and 410 stockholders of record. This does not reflect the number of persons or entities who may hold their stock in nominee or "street" name through brokerage firms.

Management's Discussion and Analysis of Financial Condition and Results of Operations

General

The Bancorp's earnings are dependent upon the earnings of the Bank. The Bank's earnings are primarily dependent upon net interest margin. The net interest margin is the difference between interest income earned on loans and investments and interest expense paid on deposits and borrowings stated as a percentage of average interest earning assets. The net interest margin is perhaps the clearest indicator of a financial institution's ability to generate core earnings. Fees and service charges, wealth management operations income, gains and losses from the sale of assets, provisions for loan losses, income taxes and operating expenses also affect the Bancorp's profitability.

A summary of the Bancorp's significant accounting policies is detailed in Note 1 to the Bancorp's consolidated financial statements included in this report. The preparation of our financial statements requires management to make estimates and assumptions that affect our financial condition and operating results. Actual results could differ from those estimates. Estimates associated with the allowance for loan losses, fair values of financial instruments and status of contingencies are particularly susceptible to material change in the near term as further information becomes available and future events occur.

At December 31, 2008, the Bancorp had total assets of $664.7 million and total deposits of $528.1 million. The Bancorp's deposit accounts are insured up to applicable limits by the Deposit Insurance Fund (DIF) that is administered by the Federal Deposit Insurance Corporation (FDIC), an agency of the federal government. At December 31, 2008, stockholders' equity totaled $52.8 million, with book value per share at $18.79. Net income for 2008 was $5.9 million, or $2.11 basic earnings per common share and $2.10 diluted earnings per common share. The return on average assets was 0.91%, while the return on average stockholders' equity was 10.96%.

Recent Developments

In response to the financial crises affecting the banking system and financial markets, on October 3, 2008, the Emergency Economic Stabilization Act of 2008 (the "EESA") was signed into law creating the Troubled Asset Relief Program ("TARP"). Pursuant to the EESA, the U.S. Department of Treasury (the "Treasury") has the authority to, among other things, purchase up to $700 billion of mortgages, mortgage-backed securities and certain other financial instruments from financial institutions for the purpose of stabilizing and providing liquidity to the U.S. financial markets.

On October 14, 2008, the Treasury also announced it would offer to qualifying U.S. banking organizations the opportunity to sell preferred stock, along with warrants to purchase common stock, to the Treasury on what may be considered attractive terms under the TARP Capital Purchase Program (the "CPP"). The CPP allows financial institutions to issue nonvoting preferred stock to the Treasury in an amount ranging between 1% and 3% of its total risk weighted assets. After a careful review of the terms of participation in the CPP, along with consideration of the capital requirements applicable to the Bancorp and the Bank, both of which have remained above the "well-capitalized" regulatory guidelines, the Bancorp's board of directors decided it is not in the best interests of the Bancorp and its shareholders to participate in the CPP.

On February 17, 2009, President Obama signed into law the American Recovery and Reinvestment Act of 2009 (the "ARRA"), which contains a comprehensive set of government spending initiatives and tax incentives aimed at stimulating the U.S. economy. The ARRA also amends, among other things, the TARP program legislation by directing the Treasury to issue regulations implementing strict limitations on compensation paid or accrued by financial institutions participating in the TARP, which regulations do not apply to the Bancorp.

EESA and ARRA followed, and have been followed by, numerous actions by the Federal Reserve, Congress, Treasury, the SEC and others to address the current liquidity and credit crisis that has followed the sub-prime meltdown that commenced in 2007. These measures include homeowner relief that encourage loan restructuring and modification; the establishment of significant liquidity and credit facilities for financial institutions and investment banks; the lowering of the federal funds rate, including two 50 basis point decreases in October of 2008; emergency action against short selling practices; a temporary guaranty program for money market funds; the establishment of a commercial paper funding facility to provide back-stop liquidity to commercial paper issuers; and coordinated international efforts to address illiquidity and other weaknesses in the banking sector. It is not clear at this time what impact the EESA, ARRA, the CPP, the TARP, other liquidity and funding initiatives of the Federal Reserve and other agencies that have been previously announced, and any additional programs that may be initiated in the future will have on the financial markets, including the extreme levels of volatility and limited credit availability currently being experienced, or on the U.S. banking and financial industries and the broader U.S. and global economies. Further adverse effects could have an adverse effect on the Bancorp and its business.

Financial Condition

During the year ended December 31, 2008, total assets increased by $36.0 million (5.7%), to $664.7 million, with interest-earning assets increasing by $32.7 million (5.6%). At December 31, 2008, interest-earning assets totaled $621.2 million and represented 93.4% of total assets. Loans totaled $489.5 million and represented 78.8% of interest-earning assets, 73.6% of total assets and 92.7% of total deposits. The loan portfolio, which is the Bancorp's largest asset, is a significant source of both interest and fee income. The Bancorp's lending strategy emphasizes quality

growth, product diversification, and competitive and profitable pricing. The loan portfolio includes $225.8 million (46.2%) in residential real estate loans, $130.3 million (26.6%) in commercial real estate loans, $55.0 million (11.2%) in construction and land development loans, $49.3 million (10.1%) in commercial business loans, $14.8 million (3.0%) in government and other loans, $12.3 million (2.5%) in multifamily loans, and $2.0 million (0.4%) in consumer loans. Adjustable rate loans comprised 53.4% of total loans at year-end. During 2008, loan balances increased by $21.1 million (4.5%), with commercial real estate, construction and development, government and commercial business loan balances increasing, while residential real estate, multifamily, and consumer loan balances decreased. Management believes that the current economic slowdown in the national and local economies may result in a continued softening in loan demand in all categories.

During 2008, the Bancorp sold $4.3 million in fixed rate mortgages originated for sale compared to $12.3 million in 2007. Net gains realized from the sales totaled $108 thousand and $221 thousand for 2008 and 2007. The current year decrease in gains on sale of loans is a result of lower customer demand for mortgage loans due to a decline in economic conditions. Net mortgage loan servicing fees totaled $13 thousand for 2008 and $23 thousand for 2007. At December 31, 2008, the Bancorp had no loans that were originated for sale. During 2009, the Bancorp expects to continue selling current year fixed rate mortgage loans originated for sale, with contractual maturities of fifteen years or greater, on a case-by-case basis, as part of its efforts to manage interest rate risk. Consistent with the Bancorp's Strategic Plan and in an ongoing effort to reduce interest rate risk, management may implement strategies to increase asset sensitivity on its balance sheet. Such strategies may include reducing the percentage of fixed rate loans on the balance sheet, while originating commercial and consumer loans tied to short-term interest rates or loans having shorter durations. During January 2009, the Bancorp's management implemented a strategy with a one-time sale of fixed rate mortgage loans from its loan portfolio by selling $10.5 million in fixed rate mortgage loans, while funding newly originated construction and land development, commercial and government loan originations. Implementing the balance sheet restructuring strategy had a positive impact on interest rate risk by replacing longer duration fixed rate mortgage loans with shorter duration non-mortgage loans that will reprice more frequently. The gain realized from the loan sale totaled approximately $230 thousand.

Non-performing loans include those loans that are 90 days or more past due and those loans that have been placed on non-accrual status. Non-performing loans totaled $12.4 million at December 31, 2008, compared to $8.6 million at December 31, 2007, an increase of $3.8 million or 44.2%. The increase in non-performing loans is concentrated with one commercial borrower with three cross collateralized loans in the amount of $1.5 million, and two borrowers, with eight cross collateralized construction loans totaling $921 thousand. As previously reported, the Bank's December 31, 2008 and December 31, 2007 non-performing and impaired loan balances have been negatively impacted by two past due commercial real estate participation loans. The first commercial real estate participation loan carries a balance of $3.8 million, of which $2.2 million has been classified as substandard and $1.6 million is classified as doubtful. The second commercial real estate participation loan carried a balance of $956 thousand, of which $569 thousand was charged-off during the fourth quarter of 2008, leaving a balance of $387 thousand classified as doubtful at December 31, 2008. The $569 thousand charge-off was based on an updated appraisal obtained by the lead lender and a shared national credit report received from the Federal Deposit Insurance Corporation. For both loans, management is in contact with the lead lenders and continues to take the appropriate steps for protection of the Bank's interest in the collateral. Based on the current information provided by the lead lenders, management has had to make certain estimates regarding both projects' cash flows, collateral values and strength of personal guarantees. At December 31, 2008, for the $3.8 million commercial real estate participation, a condominium conversion project in Ann Arbor, Michigan, management's current estimates indicate a collateral deficiency of $1.0 million, which has been reserved for as a specific allocation in the allowance for loan losses. Management has retained legal counsel to actively pursue potential material violations of the participation agreement and the underlying loan documentation by the lead lender. During the first quarter of 2008, management filed a law suit against the lead lender. To the extent that actual cash flows, collateral values and strength of personal guarantees differ from current estimates, additional provisions to the allowance for loan losses may be required for both commercial real estate participation loans.

The ratio of non-performing loans to total loans was 2.54% at December 31, 2008, compared to 1.84% at December 31, 2007. The ratio of non-performing loans to total assets was 1.87% at December 31, 2008, compared to 1.37% at December 31, 2007. The December 31, 2008, non-performing loan balances include $10.9 million in loans accounted for on a non-accrual basis and $1.5 million in accruing loans, which were contractually past due 90 days or more. Loans internally classified as substandard totaled $11.4 million at December 31, 2008, compared to $10.9 million at December 31, 2007. Loans internally classified as doubtful totaled $2.0 million at December 31, 2008, compared to $0.0 at December 31, 2007. The increase in doubtful loans at December 31, 2008, is related to two commercial real estate participation loans that had balances transferred from substandard to doubtful during the fourth quarter of 2008. No loans were classified as loss.

Substandard loans include non-performing loans and potential problem loans, where information about possible credit issues or other conditions causes management to question the ability of such borrowers to comply with loan covenants or repayment terms. In addition to identifying and monitoring non-performing and other classified loans, management maintains a list of watch loans. Watch loans represent loans management is closely monitoring due to one or more factors that may cause the loan to become classified. Watch loans totaled $22.7 million at December 31, 2008, compared to $10.8 million at December 31, 2007. The increase in watch loans is primarily related to a construction development participation loan in the amount of $4.2 million and a two commercial real estate participation loans in the amount of $5.7 million.

A loan is considered impaired when, based on current information and events, it is probable that a borrower will be unable to pay all amounts due according to the contractual terms of the loan agreement. At December 31, 2008, impaired loans totaled $8.6 million, compared to $6.0 million at December 31, 2007. The December 31, 2008, impaired loan balances consist of eighteen loans to ten commercial borrowers that are secured by business assets and real estate, and are personally guaranteed by the owners of the businesses. The December 31, 2008 ALL contained $1.7 million in specific allowances for collateral deficiencies, compared to $824 thousand in specific allowances at December 31, 2007. During the fourth quarter of 2008, four additional commercial real estate loans and one commercial business loan totaling $2.2 million were classified as impaired. Management's current estimate indicates that specific allowances of $295 thousand are required for these loans. In addition, during the current quarter, one commercial business loan in the amount of $191 thousand was repaid and removed from impaired status. The December 31, 2008, impaired loan balances were also included in the previously discussed non-performing and substandard loan balances. There were no other loans considered to be impaired loans as of, or for, the quarter ended, December 31, 2008.

At December 31, 2008, management is of the opinion that there are no loans, except those discussed above, where known information about possible credit problems of borrowers causes management to have serious doubts as to the ability of such borrowers to comply with the present loan repayment terms and which may result in disclosure of such loans as non-accrual, past due or restructured loans. Also, at December 31, 2008, no other interest bearing assets were required to be disclosed as non-accrual, past due or restructured. Management does not presently anticipate that any of the non-performing loans or classified loans would materially impact future operations, liquidity or capital resources.

The Bancorp is a party to financial instruments in the normal course of business to meet financing needs of its customers. These financial instruments, which include commitments to make loans and standby letters of credit, are not reflected in the accompanying consolidated financial statements. Such financial instruments are recorded when they are funded. The Bancorp has a $1.1 million participation in a $6.4 million letter of credit, which acts as payment support to bondholders. Cash flows from the security collateralizing the letter of credit have been negatively impacted as the property is vacant. Our portion of the letter of credit is also secured by a cash collateral account and a collateralized guarantee in the amount of $1.0 million. During July 2008, a new forbearance agreement was executed, which expired on December 31, 2008. Currently, the letter of credit participants are reviewing the credit worthiness of a prospective tenant. Management will continue to monitor the letter of credit and bond repayments.

Because some loans may not be repaid in accordance with contractual agreements, an ALL has been maintained. While management may periodically allocate portions of the allowance for specific problem loans, the entire allowance is available to absorb probable incurred losses that arise from the loan portfolio and is not segregated for, or allocated to, any particular loan or group of loans. For the twelve months ended December 31, 2008, $2.4 million in additions to the ALL account were required, compared to $552 thousand for the twelve months ended December 31, 2007. The increase in the 2008 ALL provisions was related to the need for additional specific allowances for the collateral deficiency associated with the previously mentioned impaired loans, and an increase in non-performing and classified loans. Charge-offs, net of recoveries, totaled $1.1 million for the twelve months ended December 31, 2008, compared to $238 thousand for the twelve months ended December 31, 2007. The ALL provisions take into consideration management's current judgments about the credit quality of the loan portfolio, loan portfolio balances, changes in the portfolio mix and local and national economic conditions. In determining the provision for loan loss for the current period, management has given consideration to increased risks associated within the local and national economy, changes in loan balances and mix, and asset quality.

The determination of the amount of the ALL and provisions for loan losses is based on management's current judgments about the credit quality of the loan portfolio with consideration given to all known relevant internal and external factors that affect loan collectibility as of the reporting date. The appropriateness of the current year provision and the overall adequacy of the ALL are determined through a disciplined and consistently applied quarterly process that combines a review of the current position with a risk assessment worksheet. The risk assessment worksheet covers the residential, commercial real estate, commercial business, and consumer loan portfolios. Management uses a risk rating system to assist in determining the appropriate level for the ALL.

Management assigns risk factors to non-performing loans; loans that management has internally classified as impaired; loans that management has internally classified as substandard, doubtful, loss, or watch; and performing loans.

Risk factors for non-performing and internally classified loans are based on an analysis of the estimated collateral liquidation value for individual loans defined as substandard, doubtful, loss or watch. Estimated collateral liquidation values are based on established loan underwriting standards and adjusted for current mitigating factors on a loan-by-loan basis. Aggregate substandard loan collateral deficiencies are determined for residential, commercial real estate, commercial business, and consumer loan portfolios. These deficiencies are then stated as a percentage of the classified loan category to determine the appropriate risk factors.

Risk factors for performing and non-classified loans are based on the average net charge-offs for the most recent five years, which are then stated as a percentage of average loans for the same period. Historical risk factors are calculated for residential, commercial real estate, commercial business, and consumer loans. The historical factors are then adjusted for current subjective risks attributable to: local and national economic factors; loan growth and changes in loan composition; organizational structure; composition of loan staff; loan concentrations; policy changes and out of market lending activity.

The ALL to total loans was 1.19% at December 31, 2008, compared to 0.98% at December 31, 2007. The ALL to non-performing loans (coverage ratio) was 47.0% at December 31, 2008, compared to 53.2% at December 31, 2007. The December 31, 2008 balance in the ALL account of $5.8 million is considered adequate by management after evaluation of the loan portfolio, past experience and current economic and market conditions. While management may periodically allocate portions of the allowance for specific problem loans, the whole allowance is available for any loan charge-offs that occur. The allocation of the ALL reflects performance and growth trends within the various loan categories, as well as consideration of the facts and circumstances that affect the repayment of individual loans, and loans which have been pooled as of the evaluation date, with particular attention given to non-performing loans and loans which have been classified as substandard, doubtful or loss. Management has allocated general reserves to both performing and non-performing loans based on current information available.

At December 31, 2008, the Bancorp's investment portfolio totaled $126.7 million and was invested as follows: 54.9% in U.S. government agency mortgage-backed securities and collateralized mortgage obligations, 35.4% in municipal securities, 4.4% in U.S. government agency debt securities, 3.8% in corporate securities and 1.5% in trust preferred securities. At December 31, 2008, securities available-for-sale totaled $108.2 million or 85.4% of total securities. Available-for-sale securities are those the Bancorp may decide to sell if needed for liquidity, asset-liability management or other reasons. During 2008, securities increased by $12.1 million (10.5%). In addition, at December 31, 2008, the Bancorp had $3.7 million in FHLB stock.

Deposits are a fundamental and cost-effective source of funds for lending and other investment purposes. The Bancorp offers a variety of products designed to attract and retain customers, with the primary focus on building and expanding relationships. At December 31, 2008, deposits totaled $528.1 million. During 2008, deposits increased by $34.8 million (7.0%). The 2008 change in deposits was comprised of the following: certificates of deposit increased by $16.9 million (7.9%), checking accounts increased by $14.5 million (12.5%), money market deposit accounts (MMDA's) increased by $3.5 million (3.1%), while savings accounts decreased by $66 thousand (0.1%).

The Bancorp's borrowed funds are primarily comprised of repurchase agreements and FHLB advances that are used to fund asset growth not supported by deposit generation. At December 31, 2008, borrowed funds totaled $74.8 million compared to $76.9 million at December 31, 2007, a decrease of $2.1 million (2.8%). Retail repurchase agreements totaled $25.8 million at December 31, 2008, compared to $14.2 million at December 31, 2007, an increase of $11.6 million (81.7%). During 2008, as a result of economic uncertainties, customer preference for retail repurchase agreements increased, with the additional security provided by pledged collateral for funds invested at the Bancorp. FHLB advances totaled $46.0 million, decreasing $13.0 million or 22.0%, as the Bancorp paid-off maturing advances with funds provided from deposit and retail repurchase agreement growth. In addition, the Bancorp's FHLB line of credit carried a balance of $2.0 million at December 31, 2008, compared to $2.8 million at December 31, 2007. Other short-term borrowings totaled $978 thousand at December 31, 2008, compared to $898 thousand at December 31, 2007.

Liquidity and Capital Resources

The Bancorp's primary goal for funds and liquidity management is to ensure that at all times it can meet the cash demands of its depositors and its loan customers. A secondary purpose of funds management is profit management. Because profit and liquidity are often conflicting objectives, management will maximize the Bank's net interest margin by making adequate, but not excessive, liquidity provisions. Furthermore, funds are managed so that future profits will not be significantly impacted as funding costs increase.

Changes in the liquidity position result from operating, investing and financing activities. Cash flows from operating activities are generally the cash effects of transactions and other events that enter into the determination of net income.

The primary investing activities include loan originations, loan repayments, investments in interest bearing balances in financial institutions, dividend receipts and the purchase and maturity of investment securities. Financing activities focus almost entirely on the generation of customer deposits. In addition, the Bancorp utilizes borrowings (i.e., repurchase agreements, FHLB advances and federal funds purchased) as a source of funds.

During 2008, cash and cash equivalents decreased $815 thousand, compared to a decrease of $3.7 million for 2007. During 2008, the primary sources of cash and cash equivalents were from the maturities and sales of securities, loan sales and repayments, FHLB advances and cash from operating activities. The primary uses of cash and cash equivalents were loan originations, purchase of securities, expenditures for premises and equipment, deposit withdrawals, FHLB advance repayments and the payment of common stock dividends. During 2008, cash from operating activities totaled $12.1 million, compared to $8.2 million for 2007. The 2008 increase in cash provided by operating activities was a result of the net change in other liabilities and an increase in provision for loan losses. Cash outflows from investing activities totaled $41.5 million during 2008, compared to $13.9 million during 2007. The increase during 2008 was due primarily to an increase in loan originations. Loan balances increased by $20.1 million during 2008, compared to a decrease of $3.3 million for 2007. Net cash inflows from financing activities totaled $28.6 million in 2008, compared to net cash inflows of $2.0 million in 2007. The change during 2008 was primarily due to deposit growth. Deposits increased by $34.8 million during 2008, compared to a decrease of $19.5 million for 2007. FHLB advances increased by $4.0 million during 2008 compared to an increase of $17.0 million during 2007. Other borrowed funds decreased by $6.1 million during 2008, compared to an increase of $8.4 million in 2007. The increase in deposit balances resulted in less dependence on borrowed funds. The Bancorp paid dividends on common stock of $4.0 million during 2008 and 2007.

During the fourth quarter of 2008, the Bancorp opened its tenth full service banking center in Gary, Indiana. The new $1.9 million state-of-the-art facility did not have a material impact on noninterest expense during 2008. It is expected that the new banking center will provide opportunities to expand market share for the Bancorp's products and services.

Management strongly believes that safety and soundness is enhanced by maintaining a high level of capital. Stockholders' equity totaled $52.8 million at December 31, 2008, compared to $52.7 million at December 31, 2007, an increase of $40 thousand (0.1%). The increase was a result of $5.9 million in net income for 2008. Additional items increasing stockholders' equity were $170 thousand from stock-based compensation plans and $83 thousand from the sale of treasury stock. Items decreasing stockholders' equity were $1.8 million from the net change in the valuation of available-for-sale securities, the Bancorp's declaration of $4.0 million in cash dividends, $226 thousand in treasury stock purchases and $11 thousand from the change in net unrealized items from the Bank's postretirement plans. At December 31, 2008 and 2007, book value per share was $18.79.

The Bancorp is subject to risk-based capital guidelines adopted by the Board of Governors of the Federal Reserve System (the FRB), and the Bank is subject to risk-based capital guidelines adopted by the FDIC. As applied to the Bancorp and the Bank, the FRB and FDIC capital requirements are substantially the same. These regulations divide capital into two tiers. The first tier (Tier 1) includes common equity, certain non-cumulative perpetual preferred stock and minority interests in equity accounts of consolidated subsidiaries, less goodwill and certain other intangible assets. Supplementary (Tier 2) capital includes, among other things, cumulative perpetual and long-term limited-life preferred stock, mandatory convertible securities, certain hybrid capital instruments, term subordinated debt and the allowance for loan losses, subject to certain limitations, less required deductions. The Bancorp and the Bank are required to maintain a total risk-based capital ratio of 8%, of which 4% must be Tier 1 capital. In addition, the FRB and FDIC regulations provide for a minimum Tier 1 leverage ratio (Tier 1 capital to adjusted average assets) of 3% for financial institutions that meet certain specified criteria, including that they have the highest regulatory rating and are not experiencing or anticipating significant growth. All other financial institutions are required to maintain a Tier 1 leverage ratio of 3% plus an additional cushion of at least one to two percent.

The following table shows that, at December 31, 2008, the Bancorp's capital exceeded all regulatory capital requirements. At December 31, 2008, the Bancorp's and the Bank's regulatory capital ratios were substantially the same. The dollar amounts are in millions.

At December 31, 2008	*Actual*		*Required for Adequate Capital*		*To Be Well Capitalized*	
	Amount	*Ratio*	*Amount*	*Ratio*	*Amount*	*Ratio*
Total capital to risk-weighted assets	$59.9	12.0%	$39.9	8.0%	$50.0	10.0%
Tier 1 capital to risk-weighted assets	$54.1	10.8%	$20.0	4.0%	$29.9	6.0%
Tier 1 capital to adjusted average assets	$54.1	8.2%	$20.0	3.0%	$33.1	5.0%

Results of Operations - Comparison of 2008 to 2007

Net income for 2008 was $5.9 million, compared to $5.6 million for 2007, an increase of $341 thousand (6.1%). During 2008, the Bancorp's earnings were enhanced by consistent earning asset growth, core deposit growth and significant increase in net interest income. The earnings represent a return on average assets of 0.91% for 2008 compared to 0.91% for 2007. The return on average equity was 10.96% for 2008 compared to 10.78% for 2007.

Net interest income for 2008 was $22.2 million, an increase of $4.3 million (24.3%) from $17.9 million for 2007. The increase in net interest income has been positively impacted by growth in the loan and securities portfolio, core deposit growth and a decrease in the cost of funds as a result the Federal Reserve's action in lowering short-term interest rates. The weighted-average yield on interest-earning assets was 5.78% for 2008 compared to 6.21% for 2007. The weighted-average cost of funds was 2.19% for 2008 compared to 3.18% for 2007. The impact of the 5.78% return on interest earning assets and the 2.19% cost of funds resulted in a net interest spread of 3.59% for 2008 compared to 3.03% for 2007. During 2008, total interest income decreased by $601 thousand (1.7%) while total interest expense decreased by $4.9 million (27.7%). The net interest margin was 3.65% for 2008 compared to 3.10% for 2007. During 2008, the Bancorp continued to focus on reducing its effective tax rate by investing in tax-exempt securities and loans. As a result, the Bancorp's tax equivalent net interest margin for 2008 was 3.81% compared to 3.21% for 2007.

During 2008, interest income from loans decreased by $1.5 million (5.0%) compared to 2007. The change was primarily due to a decrease in the weighted-average yield of the loan portfolio. The weighted-average yield on loans outstanding was 6.04% for 2008 compared to 6.60% for 2007. Loan balances averaged $484.8 million for 2008, an increase of $18.4 million (3.95%) from $466.4 million for 2007. During 2008, interest income from securities and other interest earning assets increased by $925 thousand (18.6%) compared to 2007. The increase was due to higher average balances and an increase in portfolio yields. The weighted-average yield on securities and other interest earning assets was 4.75% for 2008 compared to 4.52% for 2007. Securities and other interest earning assets averaged $124.0 million for 2008, up $14.0 million (12.7%) from $110.0 million for 2007.

Interest expense for deposits decreased by $4.3 million (28.7%) during 2008 compared to 2007. The change was due to a decrease in the weighted-average rate paid on deposits. The weighted-average rate paid on deposits for 2008 was 2.02% compared to 3.02% for 2007. Total deposit balances averaged $517.4 million for 2008, an increase of $23.2 million (4.7%) from $494.2 million for 2007. Interest expense on borrowed funds decreased by $653 thousand (22.2%) during 2008 due to a decrease in the cost of borrowing. The weighted-average cost of borrowed funds was 3.08% for 2008 compared to 4.32% for 2007. Borrowed funds averaged $74.3 million during 2008, an increase of $6.3 million (9.3%) from $68.0 million for 2007.

During 2008, fees and service charges totaled $2.898 million, a decrease of $49 thousand (1.7%) from $2.947 million for 2007. Fees from Wealth Management operations totaled $814 thousand for 2008, an increase of $95 thousand (13.2%) from $719 thousand for 2007. The increase in Wealth Management income is related to consistent asset growth that has occurred during the past twelve months. Income from an increase in the cash value of bank owned life insurance totaled $413 thousand for 2008, an increase of $6 thousand (1.5%), compared to $407 thousand for 2007. Gains from the sale of securities totaled $210 thousand for the current year, an increase of $110 thousand (110.0%) from $100 thousand for 2007. Current market conditions provided opportunities to recognize gains from the sales of securities, while reinvesting in different sectors with similar yields. Gains from loan sales totaled $108 thousand for the year, a decrease of $113 thousand (51.1%), compared to $221 thousand for 2007. The current year decrease in gains on sale of loans is a result of lower customer demand for mortgage loans due to a decline in economic conditions. For 2008, $52 thousand in losses were realized related to foreclosed real estate, compared to $12 thousand in gains for 2007. During 2008, other noninterest income totaled $137 thousand, an increase of $112 thousand (448.0%) from $25 thousand for 2007. This increase was primarily due to the reversal of impairment on a letter of credit that was taken at December 31, 2007.

Noninterest expense for 2008 was $17.0 million, up $2.4 million (17.0%) from $14.5 million for 2007. During 2008, compensation and benefits totaled $8.8 million, an increase of $1.4 million (18.1%) from $7.5 million for 2007. The change in compensation and benefits is related to the increase in additional personnel for lending and retail banking activities. Occupancy and equipment totaled $2.8 million for 2008, an increase of $377 thousand (15.3%) compared to $2.5 million for 2007. The increase is related to the operations of a new banking center in Crown Point, Indiana that was opened during December 2007. Data processing expense totaled $852 thousand for 2008, a decrease of $15 thousand (1.7%) from $867 thousand for 2007. Marketing expense related to banking products totaled $405 thousand for the year, an increase of $126 thousand (45.2%) from $279 thousand for 2007. The additional marketing expense is associated with increased communications of the Bank's brand and product offerings, and the implementation of new marketing systems.

Other expenses related to banking operations totaled $3.4 million for 2008, an increase of $579 thousand (12.5%) from $2.8 million for 2007. The change in other expenses is a result of an increase in third-party professional services, community contributions and operating expenses related to loan and deposit products. The Bancorp's efficiency ratio for 2008 was 63.5% compared to 65.1% for 2007. The ratio is determined by dividing total noninterest expense by the sum of net interest income and total noninterest income for the period.

Income tax expenses for 2008 totaled $1.4 million compared to $1.7 million for 2007, a decrease of $206 thousand (12.5%). The combined effective federal and state tax rates for the Bancorp were 19.6% for 2008 and 22.8% for 2007. The decrease was due to an increased investment in tax-exempt investments and loans, bank owned life insurance and the Bank's real estate investment trust.

Critical Accounting Policies

Critical accounting policies are those accounting policies that management believes are most important to the portrayal of the Bancorp's financial condition and that require management's most difficult, subjective or complex judgments. The Bancorp's most critical accounting policies are summarized below. Other accounting policies, including those related to the fair values of financial statements and the status of contingencies, are summarized in Note 1 to the Bancorp's consolidated financial statements.

Valuation of Investment Securities – The fair values of securities available for sale are determined on a recurring basis by obtaining quoted prices on nationally recognized securities exchanges or pricing models utilizing significant observable inputs such as matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities. Different judgment and assumptions used in pricing could result in different estimates of value.

At the end of each reporting period securities held in the investment portfolio are evaluated on an individual security level for other-than-temporary impairment in accordance with SFAS No. 115, Accounting for Certain Investment in Debt and Equity Securities. An impairment is other-than-temporary if the decline in the fair value of the security is below its amortized cost and it is probable that all amounts due according to the contractual terms of a debt security will not be received. Significant judgments are required in determining impairment, which include making assumptions regarding the estimated prepayments, loss assumptions and the change in interest rates.

We consider the following factors when determining an other-than-temporary impairment for a securities: The length of time and the extent to which the market value has been less than amortized cost; The financial condition and near-term prospects of the issuer; The underlying fundamentals of the relevant market and the outlook for such market for the near future; Our intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery in market value; and

If, in management's judgment, an other-than-temporary impairment exists, the cost basis of the security will be written down to the then-current fair value, and the unrealized loss will be transferred from accumulated other comprehensive loss as an immediate reduction of current earnings (as if the loss had been realized in the period of other than temporary impairment).

Allowance for Loan Losses – The Bancorp maintains an Allowance for Loan Losses (ALL) to absorb probable incurred credit losses that arise from the loan portfolio. The ALL is increased by the provision for loan losses, and decreased by charge-offs net of recoveries. The determination of the amounts of the ALL and provisions for loan losses is based upon management's current judgments about the credit quality of the loan portfolio with consideration given to all known relevant internal and external factors that affect loan collectibility. The methodology used to determine the current year provision and the overall adequacy of the ALL includes a disciplined and consistently applied quarterly process that combines a review of the current position with a risk assessment worksheet. Factors that are taken into consideration in the analysis include an assessment of national and local economic trends, a review of current year loan portfolio growth and changes in portfolio mix, and an assessment of trends for loan delinquencies and loan charge-off activity. Particular attention is given to non-accruing loans and accruing loans past due 90 days or more, and loans that have been classified as substandard, doubtful, or loss. Changes in the provision are directionally consistent with changes in observable data.

Commercial and industrial, and commercial real estate loans that exhibit credit weaknesses and loans that have been classified as impaired are subject to an individual review. Where appropriate, ALL allocations are made to these loans based on management's assessment of financial position, current cash flows, collateral values, financial strength of guarantors, industry trends, and economic conditions. ALL allocations for homogeneous loans, such as residential mortgage loans and consumer loans, are based on historical charge-off activity and current delinquency trends. Management has allocated general reserves to both performing and non-performing loans based on historical data and current information available.

Risk factors for non-performing and internally classified loans are based on an analysis of the estimated collateral liquidation value for individual loans defined as substandard or doubtful. Estimated collateral liquidation values are based on established loan underwriting standards and adjusted for current mitigating factors on a loan-by-loan basis. Aggregate substandard loan collateral deficiencies are determined for residential, commercial real estate, commercial business, and consumer loan portfolios. These deficiencies are then stated as a percentage of the total substandard balances to determine the appropriate risk factors.

Risk factors for performing and non-classified loans are based on the average net charge-offs for the most recent five years, which are then stated as a percentage of average loans for the same period. Historical risk factors are calculated for residential, commercial real estate, commercial business, and consumer loans. The historical factors are then adjusted for current subjective risks attributable to: regional and national economic factors; loan growth and changes in loan composition; organizational structure; composition of loan staff; loan concentrations; policy changes and out of market lending activity.

The risk factors are applied to these types of loans to determine the appropriate level for the ALL. Adjustments may be made to these allocations that reflect management's judgment on current conditions, delinquency trends, and charge-off activity.

The Bancorp has not made any significant changes to its overall approach in the determination of the ALL for all periods reported. There have been no material changes in assumptions or estimation techniques. Based on the above discussion, management believes that the ALL is currently adequate, but not excessive, given the risk inherent in the loan portfolio.

Impact of Inflation and Changing Prices

The financial statements and related data presented herein have been prepared in accordance with accounting principles generally accepted in the United States of America, which require the measurement of financial position and operating results in terms of historical dollars, without considering changes in the relative purchasing power of money over time due to inflation. The primary assets and liabilities of the Bancorp are monetary in nature. As a result, interest rates have a more significant impact on the Bancorp's performance than the effects of general levels of inflation. Interest rates do not necessarily move in the same direction or magnitude as the prices of goods and services.

Forward-Looking Statements

Statements contained in this report that are not historical facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The words or phrases "would be," "will allow," "intends to," "will likely result," "are expected to," "will continue," "is anticipated," "estimate," "project," or similar expressions are also intended to identify "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act. The Bancorp cautions readers that forward-looking statements, including without limitation, those relating to the Bancorp's future business prospects, interest income and expense, net income, liquidity, and capital needs are subject to certain risks and uncertainties that could cause actual results to differ materially from those indicated in the forward-looking statements, due to, among other things, factors identified in this report.

Report of Independent Registered Public Accounting Firm

Board of Directors
NorthWest Indiana Bancorp
Munster, Indiana

We have audited the accompanying consolidated balance sheets of NorthWest Indiana Bancorp ("Company") as of December 31, 2008 and 2007 and the related consolidated statements of income, changes in stockholders' equity, and cash flows for each of the two years in the period ended December 31, 2008. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of NorthWest Indiana Bancorp as of December 31, 2008 and 2007, and the results of their operations and its cash flows for each of the two years in the period ended December 31, 2008 in conformity with U.S. generally accepted accounting principles.

Interest	$ 12,916	$ 17,881
Income taxes	$ 1,885	$ 2,190
SUPPLEMENTAL NONCASH INFORMATION:		
Transfers from loans to foreclosed real estate	$ 817	$ 357

See accompanying notes to consolidated financial statements.

NOTE 1 - Summary of Significant Accounting Policies

Principles of Consolidation – The consolidated financial statements include NorthWest Indiana Bancorp (the Bancorp), its wholly owned subsidiary, Peoples Bank SB (the Bank), and the Bank's wholly owned subsidiaries, Peoples Service Corporation and NWIN, LLC. The Bancorp has no other business activity other than being a holding company for the Bank. The Bancorp's earnings are dependent upon the earnings of the Bank. Peoples Service Corporation provides insurance and annuity investments to the Bank's wealth management customers. NWIN, LLC is located in Las Vegas, Nevada and serves as the Bank's investment subsidiary and parent of a real estate investment trust, NWIN Funding, Inc.

NWIN Funding, Inc. was formed on September 1, 2006, as an Indiana Real Estate Investment Trust. The formation of NWIN Funding, Inc. provides the Bancorp with a vehicle that may be used to raise capital utilizing portfolio mortgages as collateral, without diluting stock ownership. In addition, NWIN Funding, Inc. will receive favorable state tax treatment for income generated by its operations. All significant inter-company accounts and transactions have been eliminated in consolidation.

Use of Estimates – Preparing financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period, as well as the disclosures provided. Actual results could differ from those estimates. Estimates associated with the allowance for loan losses, loan servicing rights, fair values of financial instruments and status of contingencies are particularly susceptible to material change in the near term.

Concentrations of Credit Risk – The Bancorp grants residential, commercial real estate, commercial business and installment loans to customers primarily of Lake County, in northwest Indiana. Substantially all loans are secured by specific items of collateral including residences, commercial real estate, business assets and consumer assets.

Cash Flow Reporting – For purposes of the statement of cash flows, the Bancorp considers cash on hand, noninterest bearing balances in financial institutions, all interest-bearing balances in financial institutions with original maturities of ninety days or less and federal funds sold to be cash and cash equivalents. The Bancorp reports net cash flows for customer loan and deposit transactions and short-term borrowings with maturities of 90 days or less.

Interest-bearing Deposits in Other Financial Institutions – Interest bearing deposits in other financial institutions mature within one year and are carried at cost.

Securities – The Bancorp classifies securities into held-to-maturity, available-for-sale, or trading categories. Held-to-maturity securities are those which management has the positive intent and the Bancorp the ability to hold to maturity, and are reported at amortized cost. Available-for-sale securities are those the Bancorp may decide to sell if needed for liquidity, asset-liability management or other reasons. Available-for-sale securities are reported at fair value, with unrealized gains and losses reported in other comprehensive income, net of tax. The Bancorp does not have a trading portfolio. Realized gains and losses resulting from the sale of securities recorded on the trade date are computed by the specific identification method. Interest and dividend income, adjusted by amortization of premium or discount on a level yield method are included in earnings. Securities are written down to fair value when a decline in fair value is not temporary.

Declines in the fair value of securities below their cost that are other than temporary are reflected as realized losses. In estimating other than temporary losses, management considers: (1) the length of time and extent that fair value has been less than cost, (2) the financial condition and near term prospects of the issuer, and (3) the Bancorp's ability and intent to hold the security for a period sufficient to allow for any anticipated recovery in fair value.

Loans Held for Sale – Mortgage loans originated and intended for sale in the secondary market are carried at the lower of aggregate cost or market, as determined by outstanding commitments from investors. Net unrealized losses, if any, are recorded as a valuation allowance and charged to earnings.

Mortgage loans held for sale are generally sold with servicing rights retained. The carrying value of mortgage loans sold is reduced by the amount allocated to the servicing rights. Gains and losses on sales of mortgage loans are based on the difference between the selling price and the carrying value of the related loan sold.

Loans and Loan Income – Loans that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at the principal balance outstanding, net of unearned interest, deferred loan fees and costs, and an allowance for loan losses. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized in interest income using the level yield method without anticipating prepayments.

Interest income on mortgage and commercial loans is discontinued at the time the loan is 90 days delinquent unless the loan is well-secured and in process of collection. Consumer loans are typically charged off no later than 120 days past due. Past due status is based on the contractual terms of the loan. In all cases, loans are placed on non-accrual or charged-off at an earlier date if collection of principal or interest is considered doubtful.

Generally interest accrued but not received for loans placed on non-accrual is reversed against interest income. Interest received on such loans is accounted for on the cash-basis or cost recovery method, until qualifying for return to accrual. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Allowance for Loan Losses – The allowance for loan losses is a valuation allowance for probable incurred credit losses. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. Management estimates the allowance balance required using past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions, and other factors. Allocations of the allowance may be made for specific loans, but the entire allowance is available for any loan that, in management's judgment, should be charged off.

A loan is considered impaired when, based on current information and events, it is probable that the Bancorp will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case by case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan by loan basis for commercial and construction loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral if the loan is collateral dependent. Large groups of smaller balance homogeneous loans are collectively evaluated for impairment. Accordingly, the Bancorp does not separately identify individual consumer and residential loans for impairment disclosures.

Federal Home Loan Bank Stock – The Bank is a member of the FHLB system. Members are required to own a certain amount of stock based on the level of borrowings and other factors, and may invest in additional amounts. FHLB stock is carried at cost, classified as a restricted security, and periodically evaluated for impairment based on ultimate recovery of par value. Both cash and stock dividends are reported as income.

Premises and Equipment – Land is carried at cost. Premises and equipment are stated at cost less accumulated depreciation. Premises and related components are depreciated using the straight-line method with useful lives ranging from 26 to 39 years. Furniture and equipment are depreciated using the straight-line method with useful lives ranging from 2 to 10 years.

Foreclosed Real Estate – Assets acquired through or instead of loan foreclosure are initially recorded at fair value when acquired, establishing a new cost basis. If fair value declines subsequent to foreclosure, a valuation allowance is recorded through expense. Operating costs after acquisition are expensed.

Servicing Rights – Servicing rights are recognized separately when they are acquired through sales of loans. For sales of mortgage loans prior to January 1, 2007, a portion of the cost of the loan was allocated to the servicing right based on relative fair values. The Company adopted SFAS No. 156 on January 1, 2007, and for sales of mortgage loans beginning in 2007, servicing rights are initially recorded at fair value with the income statement effect recorded in gains on sales of loans. Fair value is based on market prices for comparable mortgage servicing contracts, when available, or alternatively, is based on a valuation model that calculates the present value of estimated future net servicing income. The valuation model incorporates assumptions that market participants would use in estimating future net servicing income, such as the cost to service, the discount rate, the custodial earnings rate, an inflation rate, ancillary income, prepayment speeds and default rates and losses. The Company compares the valuation model inputs and results to published industry data in order to validate the model results and assumptions. All classes of servicing assets are subsequently measured using the amortization method which requires servicing rights to be amortized into non interest income in proportion to, and over the period of, the estimated future net servicing income of the underlying loans.

Servicing assets are evaluated for impairment based upon the fair value of the rights as compared to carrying amount. Impairment is determined by stratifying rights into groupings based on predominant risk characteristics, such as interest rate, loan type and investor type. Impairment is recognized through a valuation allowance for an individual grouping, to the extent that fair value is less than the carrying amount. If the Bancorp later determines that all or

a portion of the impairment no longer exists for a particular grouping, a reduction of the allowance may be recorded as an increase to income. Changes in valuation allowances are reported with Other Noninterest Income on the income statement. The fair values of servicing rights are subject to significant fluctuations as a result of changes in estimated and actual prepayment speeds and default rates and losses.

Servicing fee income which is reported on the income statement as Other Noninterest Income is recorded for fees earned for servicing loans. The fees are based on a contractual percentage of the outstanding principal; or a fixed amount per loan and are recorded as income when earned. The amortization of mortgage servicing rights is netted against loan servicing fee income. Servicing fees totaled $111 thousand and $109 thousand for the years ended December 31, 2008 and 2007. Late fees and ancillary fees related to loan servicing are not material.

Investment in Real Estate Limited Partnerships – Investment in real estate limited partnerships represent the Bancorp's investments in affordable housing projects for the primary purpose of available tax benefits. The method of accounting used for each investment is based on ownership percentage in the investment. One investment is accounted for using the cost method of accounting. The excess of the carrying amount of the investment over its estimated residual value is amortized during the periods in which associated tax credits are allocated to the investor. The annual amortization of the investment is based on the proportion of tax credits received in the current year to total estimated tax credits to be allocated to the Bancorp. The other investment is accounted for using the equity method of accounting. Under the equity method of accounting, the Bancorp records its share of the partnership's earnings or losses in its income statement and adjusts the carrying amount of the investments on the balance sheet. These investments are reviewed for impairment when events indicate their carrying amounts may not be recoverable from future undiscounted cash flows. If impaired, the investments are reported at fair value. The Bancorp's involvement in these types of investments is for tax planning purposes only and, as such, the Bancorp is not involved in the management or operation of such investments.

Long-term Assets – Premises and equipment and other long-term assets are reviewed for impairment when events indicate their carrying amount may not be recoverable from future undiscounted cash flows. If impaired, the assets are recorded at fair value.

Bank Owned Life Insurance – The Bancorp has purchased life insurance policies on certain key executives. In accordance with EITF 06-5, Bank owned life insurance is recorded at the amount that can be realized under the insurance contract at the balance sheet date, which is the cash surrender value adjusted for other charges or other amounts due that are probable at settlement.

Repurchase Agreements – Substantially, all repurchase agreement liabilities represent amounts advanced by various customers that are not covered by federal deposit insurance and are secured by securities owned by the Bancorp.

Postretirement Benefits Other Than Pensions – The Bancorp sponsors a defined benefit postretirement plan that provides comprehensive major medical benefits to all eligible retirees. Postretirement benefits are accrued based on the expected cost of providing postretirement benefits to employees during the years the employees have rendered service to the Bancorp.

Income Taxes – Income tax expense is the total of the current year income tax due or refundable and the change in deferred tax assets and liabilities. Deferred tax assets and liabilities are the expected future tax amounts for the temporary differences between carrying amounts and tax bases of assets and liabilities, computed using enacted tax rates. A valuation allowance, if needed, reduces deferred tax assets to the amount expected to be realized. The Bancorp adopted FASB Interpretation 48, Accounting for Uncertainty in Income Taxes ("FIN 48"), as of January 1, 2007. A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded. The Bancorp recognizes interest and/or penalties related to income tax matters in income tax expense. The adoption had no affect on the Bancorp's financial statements.

Loan Commitments and Related Financial Instruments – Financial instruments include off-balance sheet credit instruments, such as commitments to make loans and standby letters of credit, issued to meet customer financing needs. The face amount for these items represents the exposure to loss, before considering customer collateral or ability to repay. Such financial instruments are recorded when they are funded.

Earnings Per Common Share – Basic earnings per common share is net income divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per common share includes the dilutive effect of additional potential common shares issuable under stock options.

Comprehensive Income – Comprehensive income consists of net income and other comprehensive income. Other comprehensive income includes unrealized gains and losses on securities available-for-sale and the unrecognized gains and losses on postretirement benefits.

Loss Contingencies – Loss contingencies, including claims and legal actions arising in the ordinary course of business, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. Management does not believe there now are such matters that will have a material effect on the financial statements.

Restrictions on Cash – Cash on hand or on deposit with the Federal Reserve Bank of $539,000 and $575,000 was required to meet regulatory reserve and clearing requirements at year-end 2008 and 2007. These balances do not earn interest.

Fair Value of Financial Instruments – Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in a separate note. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect the estimates.

Operating Segments – While the Bancorp's executive management monitors the revenue streams of the various products and services, the identifiable segments are not material and operations are managed and financial performance is evaluated on a company-wide basis. Accordingly, all of the Bancorp's financial service operations are considered by management to be aggregated in one reportable operating segment.

Reclassification – Certain amounts appearing in the consolidated financial statements and notes thereto for the year ended December 31, 2007, may have been reclassified to conform to the December 31, 2008 presentation.

Adoption of New Accounting Standards – In September 2006, the FASB issued Statement No. 157, Fair Value Measurements (FAS 157). This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This Statement establishes a fair value hierarchy about the assumptions used to measure fair value and clarifies assumptions about risk and the effect of a restriction on the sale or use of an asset. The standard was effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB issued Staff Position (FSP) 157-2, Effective Date of FASB Statement No. 157. This FSP delays the effective date of FAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The impact of adoption was not material. In October 2008, the FASB issued Staff Position (FSP) 157-3, Determining the Fair Value of a Financial Asset when the Market for That Asset Is Not Active. This FSP clarifies the application of FAS 157 in a market that is not active. The impact of adoption was not material.

In February 2007, the FASB issued Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. The standard provides companies with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. The new standard is effective for the Bancorp on January 1, 2008. The Bancorp did not elect the fair value option for any financial assets or financial liabilities as of January 1, 2008.

In September 2006, the FASB Emerging Issues Task Force finalized Issue No. 06-4, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements. This issue requires that a liability be recorded during the service period when a split-dollar life insurance agreement continues after participants' employment or retirement. The required accrued liability will be based on either the post-employment benefit cost for the continuing life insurance or based on the future death benefit depending on the contractual terms of the underlying agreement. This issue is effective for fiscal years beginning after December 15, 2007. A liability of $20,000 was recorded and was reflected as an adjustment to retained earnings.

On November 5, 2007, the SEC issued Staff Accounting Bulletin No. 109, Written Loan Commitments Recorded at Fair Value through Earnings ("SAB 109"). Previously, SAB 105, Application of Accounting Principles to Loan Commitments, stated that in measuring the fair value of a derivative loan commitment, a company should not incorporate the expected net future cash flows related to the associated servicing of the loan. SAB 109 supersedes SAB 105 and indicates that the expected net future cash flows related to the associated servicing of the loan should be included in measuring fair value for all written loan commitments that are accounted for at fair value through earnings. SAB 105 also indicated that internally-developed intangible assets should not be recorded as part of the fair value of a derivative loan commitment, and SAB 109 retains that view. SAB 109 is effective for derivative loan commitments issued or modified in fiscal quarters beginning after December 15, 2007. The impact of adoption was not material.

In December 2007, the SEC issued SAB No. 110, which expresses the views of the SEC regarding the use of a "simplified" method, as discussed in SAB No. 107, in developing an estimate of expected term of "plain vanilla" share options in accordance with SFAS No. 123(R), Share-Based Payment. The SEC concluded that a company could, under certain circumstances, continue to use the simplified method for share option grants after December 31, 2007. The Bancorp does not use the simplified method for share options and therefore SAB No. 110 has no impact on the Bancorp's consolidated financial statements.

Effect of Newly Issued Accounting Standards – In December 2007, the FASB issued FAS No. 141 (revised 2007), Business Combinations ("FAS 141(R)"), which establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in an acquiree, including the recognition and measurement of goodwill acquired in a business combination. FAS No. 141(R) is effective for fiscal years beginning on or after December 15, 2008. Earlier adoption is prohibited. The adoption of this standard did not have a material effect on the Bancorp's results of operations or financial position.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51" ("SFAS No. 160"), which will change the accounting and reporting for minority interests, which will be recharacterized as noncontrolling interests and classified as a component of equity within the consolidated balance sheets. FAS No. 160 is effective as of the beginning of the first fiscal year beginning on or after December 15, 2008. The adoption of FAS No. 160 did not have a significant impact on the results of operations or financial position.

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of SFAS No. 133". FAS No. 161 amends and expands the disclosure requirements of SFAS No. 133 for derivative instruments and hedging activities. FAS No. 161 requires qualitative disclosure about objectives and strategies for using derivative and hedging instruments, quantitative disclosures about fair value amounts of the instruments and gains and losses on such instruments, as well as disclosures about credit-risk features in derivative agreements. FAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The adoption of this standard did not have a material effect on the Bancorp's results of operations or financial position.

NOTE 2 - Securities

The fair value of available-for-sale securities and the related gross unrealized gains and losses recognized in accumulated other comprehensive income (loss) were as follows:

(Dollars in thousands)	Fair Value	Gross Unrealized Gains	Gross Unrealized Losses
2008			
U.S. government sponsored entities	$ 5,621	$ 137	$ –
CMO and mortgage-backed securities	65,369	1,856	(7)
Municipal securities	26,679	259	(532)
Corporate securities	4,813	–	(266)
CMO government sponsored entities	3,852	97	(1)
Trust preferred securities	1,873	–	(3,608)
Total debt securities	$ 108,207	$ 2,349	$ (4,414)
2007			
U.S. government sponsored entities	$ 24,871	$ 276	$ (27)
CMO and mortgage-backed securities	51,913	547	(156)
Municipal securities	14,104	208	(15)
Trust preferred securities	4,049	–	(130)
CMO government sponsored entities	1,349	3	–
Total debt securities	$ 96,286	$ 1,034	$ (328)

The carrying amount, unrecognized gains and losses, and fair value of securities held-to-maturity were as follows:

(Dollars in thousands)	Carrying Amount	Gross Unrecognized Gains	Gross Unrecognized Losses	Fair Value
2008				
Municipal securities	$ 18,127	$ 117	$ (263)	$ 17,981
Mortgage-backed securities	388	16	–	404
Total debt securities	$ 18,515	$ 133	$ (263)	$ 18,385
2007				
Municipal securities	$ 17,897	$ 219	$ (24)	$ 18,093
Mortgage-backed securities	461	6	(3)	464
Total debt securities	$ 18,358	$ 225	$ (27)	$ 18,557

The fair value of debt securities and carrying amount, if different, at year end 2008 by contractual maturity were as follows. Securities not due at a single maturity date, primarily mortgage-backed securities, are shown separately.

(Dollars in thousands)	Available-for-sale	Held-to-maturity	
	Fair Value	Carrying Amount	Fair Value
Due in one year or less	$ –	$ –	$ –
Due from one to five years	8,428	–	–
Due over five years	30,558	18,127	17,981
CMO and mortgage-backed securities	69,221	388	404
Total	$ 108,207	$ 18,515	$ 18,385

Sales of available-for-sale securities were as follows:

	(Dollars in thousands) 2008	2007
Proceeds	$ 11,203	$ 14,853
Gross gains	214	107
Gross losses	(5)	(7)

The tax benefits related to these net realized gains and losses were $84,000 for 2008 and $39,000 for 2007.

Securities with carrying values of $37,414,000 and $25,060,000 were pledged as of December 31, 2008 and 2007 as collateral for repurchase agreements and public funds and for other purposes as permitted or required by law.

Securities with unrealized losses at year-end 2008 and 2007 not recognized in income are as follows:

	Less than 12 months		12 months or longer		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
2008						
Description of Securities:						
U.S. government sponsored entities	$ –	$ –	$ 104	$ (1)	$ 104	$ (1)
CMO and mortgage-backed securities	1,368	(3)	371	(4)	1,739	(7)
Municipal securities	25,924	(795)	–	–	25,924	(795)
Corporate securities	4,813	(266)	–	–	4,813	(266)
Trust preferred securities	1,409	(2,640)	464	(968)	1,873	(3,609)
Total temporarily impaired	$ 33,514	$(3,704)	$ 939	$ (973)	$34,453	$ (4,677)

	Less than 12 months		12 months or longer		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
2007						
Description of Securities:						
U.S. government sponsored entities	$ –	$ –	$ 9,433	$ (27)	$ 9,433	$ (27)
CMO and mortgage-backed securities	1,376	(6)	14,259	(153)	15,635	(159)
Municipal securities	2,152	(15)	2,629	(24)	4,781	(39)
Trust preferred securities	4,050	(130)	–	–	4,050	(130)
Total temporarily impaired	$ 7,578	$ (151)	$26,321	$ (204)	$33,899	$ (355)

(Dollars in thousands)

Unrealized losses on securities have not been recognized into income because the securities are of high credit quality or have undisrupted cash flows. Management has the intent and ability to hold for the foreseeable future, and the decline in fair value is largely due to changes in interest rates. The fair value is expected to recover as the securities approach maturity.

We currently have four trust preferred securities. In accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities", we have determined this decline in value to represent only temporary impairment. This investment is held by our investment subsidiary. The investment is collateralized by underlying investments in trust preferred securities issued by many different banks and insurance companies. We believe the increase in the net unrealized loss is the result of the declining economy, the low trade volume of the security, and the lack of confidence in the financial services industry. Based on the latest trustee reports, review of underlying financial information, and review of projected cash flows, we believe that no adverse change in estimated cash flows has occurred and anticipate no interruption of cash flows.

The Bancorp evaluates securities for other-than-temporary impairment, at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to the length of time and the extent to which the fair value has been less than cost, the financial condition and near-term prospects of the issuer, and the intent and ability of the Bancorp to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. In analyzing an issuer's financial condition, the Bancorp may consider whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, and the results of reviews of the issuer's financial condition.

NOTE 3 - Loans Receivable

Year end loans are summarized below:

	(Dollars in thousands) 2008	2007
Loans secured by real estate:		
Construction and land development	$ 54,975	$ 46,288
Residential, including home equity	238,638	229,410
Commercial real estate and other dwelling	130,256	132,142
Total loans secured by real estate	423,869	407,840
Consumer loans	1,967	2,400
Commercial business	49,418	47,034
Government and other	14,783	11,664
Subtotal	490,037	468,938
Less:		
Net deferred loan origination fees	(347)	(380)
Undisbursed loan funds	(181)	(99)
Loans receivable	$ 489,509	$ 468,459

Activity in the allowance for loan losses is summarized below for the years indicated:

	(Dollars in thousands) 2008	2007
Balance at beginning of period	$ 4,581	$ 4,267
Provision charged to income	2,388	552
Loans charged-off	(1,227)	(268)
Recoveries	88	30
Balance at end of period	$ 5,830	$ 4,581

Non-performing loans at year end were as follows:

	(Dollars in thousands) 2008	2007
Loans past due over 90 days still on accrual	$ 1,476	$ 842
Non-accrual loans	10,937	7,776

Impaired loans at year end were as follows:

	(Dollars in thousands) 2008	2007
Year end loans with no allocated allowances for loan losses	$ 1,748	$ 687
Year end loans with allocated allowances for loan losses	6,819	5,319
Total	$ 8,567	$ 6,006
Amount of the allowance for loan losses allocated	$ 1,683	$ 824
Average of impaired loans during the year	7,393	6,311
Interest income recognized during impairment	–	–
Cash-basis interest income recognized	–	–

During January 2009, the Bancorp's management implemented a strategy with a one-time sale of fixed rate mortgage loans from its loan portfolio by selling $10.5 million in fixed rate mortgage loans, while funding newly originated construction and land development, commercial and government loan originations. Implementing the balance sheet restructuring strategy had a positive impact on interest rate risk by replacing longer duration fixed rate mortgage loans with shorter duration non-mortgage loans that will reprice more frequently. The gain realized from the loan sale totaled approximately $230 thousand.

NOTE 4 - Loan Servicing

Mortgage loans serviced for others are not reported as assets. The principal balances of these loans at year end are as follows:

	(Dollars in thousands) 2008	2007
Mortgage loan portfolio serviced for FHLMC	$ 43,212	$ 46,061

Custodial escrow balances maintained in connection with the foregoing loan servicing were approximately $619,000 and $244,000 at December 31, 2008 and 2007.

Activity for capitalized mortgage servicing rights, and the related valuation allowance, was as follows:

	(Dollars in thousands) 2008	2007
Servicing rights:		
Beginning of year	$ 325	$ 295
Additions	49	116
Amortized to expense	(98)	(86)
End of year	$ 276	$ 325

At year end 2008 and 2007, there was no valuation allowance required.

The fair value of servicing rights was $438,000 and $484,000 at year end 2008 and 2007. Fair value at year-end 2008 was determined using a discount rate of 9.3%, prepayment speeds ranging from 134.4% to 395.0%, depending on the stratification of the specific right, and a weighted average default rate of 0.0%. Fair value at year-end 2007 was determined using a discount rate of 9.3%, prepayment speeds ranging from 138.2% to 465%, depending on the stratification of the specific right, and a weighted average default rate of 0.0%.

The weighted average amortization period is 7.3 years. Estimated amortization expense for each of the next five years is:

	(Dollars in thousands)
2009	$ 64
2010	57
2011	48
2012	43
2013	36

NOTE 5 - Premises and Equipment, Net

At year end, premises and equipment are summarized below:

	(Dollars in thousands) 2008	2007
Cost:		
Land	$ 5,069	$ 3,287
Buildings and improvements	16,821	15,248
Furniture and equipment	9,383	8,595
Total cost	31,273	27,130
Less accumulated depreciation	(12,190)	(10,804)
Premises and equipment, net	$ 19,083	$ 16,326

Depreciation expense was $1,386,000 and $1,329,000 for 2008 and 2007.

NOTE 6 - Income Taxes

Components of the income tax expenses consist of the following:

	(Dollars in thousands) 2008	2007
Federal:		
Current	$ 1,825	$ 2,037
Deferred	(305)	(89)
State:		
Current	–	–
Deferred	(75)	(297)
Income tax expenses	$ 1,445	$ 1,651

Effective tax rates differ from federal statutory rate of 34% applied to income before income taxes due to the following:

	(Dollars in thousands) 2008	2007
Federal statutory rate	34%	34%
Tax expense at statutory rate	$ 2,507	$ 2,462
State tax, net of federal effect	(49)	(187)
Tax exempt income	(686)	(380)
Bank owned life insurance	(140)	(138)
Tax credits	(114)	(114)
Reversal of FIN 48	(84)	–
Other	11	8
Total income tax expenses	$ 1,445	$ 1,651

The components of the net deferred tax asset recorded in the consolidated balance sheets are as follows:

	(Dollars in thousands) 2008	2007
Deferred tax assets:		
Bad debts	$ 2,276	$ 1,774
Deferred loan fees	136	147
Deferred compensation	609	545
Unrealized depreciation on securities available-for-sale	690	–
Net operating loss	276	169
Other	275	230
Total deferred tax assets	4,262	2,865
Deferred tax liabilities:		
Depreciation	(894)	(673)
Unrealized appreciation on securities available-for-sale	–	(240)
Prepaids	(196)	(199)
Other	(347)	(389)
Total deferred tax liabilities	(1,437)	(1,501)
Valuation allowance	(143)	–
Net deferred tax assets	$ 2,682	$ 1,364

The Bancorp has a state net operating loss carry forward of approximately $4.9 million which will begin to expire in 2022 if not used. A valuation allowance of $143,000 was provided at December 31, 2008 for the state net operating loss deferred tax asset.

The Bancorp qualified under provisions of the Internal Revenue Code, in prior years, to deduct from taxable income a provision for bad debts in excess of the provision for such losses charged to income in the financial statements, if any. Accordingly, retained earnings at December 31, 2008 and 2007 includes, approximately $5,982,000 for which no provision for federal income taxes has been made. If, in the future, this portion of retained earnings is used for any purpose other than to absorb bad debt losses, federal income taxes would be imposed at the then applicable rates. The unrecorded deferred income tax liability on the above amounts was approximately $2,034,000 at December 31, 2008.

The Bancorp and its subsidiaries are subject to US Federal income tax as well as income tax of the State of Indiana. The Bancorp is no longer subject to examination by taxing authorities for the years before 2005. The Bancorp is currently under examination by the Internal Revenue Service for the 2006 tax year. While the examination is not final, the Bancorp expects no material adjustment to the financial statements.

Unrecognized Tax Benefits

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

	(Dollars in thousands) 2008	2007
Balance at beginning of period	$ 47	$ 25
Additions based on tax positions related to the current year	–	–
Additions for tax positions of prior years	37	25
Reducations for tax positions of prior years	84	3
Reducations due to the statute of limitations	–	–
Settlements	–	–
Balance at end of period	$ –	$ 47

The Bancorp does not expect the total amount of tax benefits to significantly increase or decrease in the next twelve months.

We recognize interest and penalties related to income tax matters in income tax expense. We had approximately $0 and $6,000 for interest and penalties accrued at December 31, 2008 and December 31, 2007.

NOTE 7 - Deposits

The aggregate amount of certificates of deposit with a balance of $100 thousand or more was $99.6 million at December 31, 2008 and $89.4 million at December 31, 2007.

At December 31, 2008, scheduled maturities of certificates of deposit were as follows:

	(Dollars in thousands)
2008	$ 208,933
2009	20,472
2010	1,472
2011	195
Total	$ 231,072

NOTE 8 - Borrowed Funds

At year end, borrowed funds are summarized below:

	(Dollars in thousands) 2008	2007
Repurchase agreements	$ 25,773	$ 14,186
Fixed rate advances from the FHLB	41,000	31,000
Variable rate advances from the FHLB	–	26,000
Putable advances from the FHLB	5,000	2,000
Line of credit from the FHLB	2,044	2,846
Other	978	898
Total	$ 74,795	$ 76,930

Repurchase agreements generally mature within one year and are secured by U.S. government and U.S agency securities, under the Bancorp's control. At year end, information concerning these retail repurchase agreements is summarized below:

	(Dollars in thousands) 2008	2007
Ending balance	$ 25,773	$ 14,186
Average balance during the year	16,301	14,280
Maximum month-end balance during the year	25,773	15,746
Securities underlying the agreements at year end:		
Carrying value	37,414	21,421
Fair value	37,414	21,421
Average interest rate during the year	2.65%	3.79%

At year-end, advances from the Federal Home Loan Bank were as follows:

	(Dollars in thousands) 2008	2007
Fixed rate advances, maturing January 2008 through May 2011, at rates from 2.60% to 4.36% average rate: 2008 - 3.40%; 2007 - 4.23%	$ 41,000	$ 31,000
Variable rate advances, maturing January 2008 through June 2008 at the rate of 3.75%, average rate: 2008 - N/A; 2007 - 3.75%	–	26,000
Putable advances, maturing July 2008 through February 2013 at rates from 2.62% to 5.28%, average rate: 2008 - 2.62%; 2007 - 5.28%	5,000	2,000

Fixed rate advances are payable at maturity, with a prepayment penalty. Variable rate advances have a maturity of six months and reprice daily. Variable rate advance can be partially or fully prepaid without penalty. Putable advances are fixed for a period of one to three years and then may adjust quarterly to the three-month London Interbank Offered Rate until maturity. Once the putable advance interest rate adjusts, the Bancorp has the option to prepay the advance on specified quarterly interest rate reset dates. The advances were collateralized by mortgage loans totaling $231,267,000 and $175,308,000 at December 31, 2008 and 2007. In addition to the fixed rate and putable advances, the Bancorp maintains a $10.0 million line of credit with the Federal Home Loan Bank of Indianapolis. The outstanding balance on the line of credit was $2.0 million and $2.8 million at December 31, 2008 and 2007.

Other borrowings at December 31, 2008 and 2007 include Treasury, Tax and Loan and reclassified bank balances.

At December 31, 2008, scheduled maturities of borrowed funds were as follows:

	(Dollars in thousands)
2009	$ 44,542
2010	22,253
2011	3,000
2012	–
2013	5,000
Total	$ 74,795

NOTE 9 - Employees' Benefit Plans

The Bancorp maintains an Employees' Savings and Profit Sharing Plan and Trust for all employees who meet the plan qualifications. Employees are eligible to participate in the Employees' Savings and Profit Sharing Plan and Trust on the first day of the month coincident with or the next date following the completion of one year of employment, age 18, and completion of at least 1,000 hours of employment. The Employees' Savings Plan feature allows employees to make pre-tax contributions to the Employees' Savings Plan of 1% to 50% of Plan Salary, subject to limitations imposed by Internal Revenue Code section 401(k). The Profit Sharing Plan and Trust feature is noncontributory on the part of the employee. Contributions to the Employees' Profit Sharing Plan and Trust are made at the discretion of the Bancorp's Board of Directors. Contributions for the year ended December 31, 2008 and 2007, were based on 5% of the participants' total compensation excluding incentives. Participants in the plan become 100% vested upon completion of five years of service. The benefit plan expense amounted to $314,000 and $254,000 for 2008 and 2007.

The Bancorp maintains an Unqualified Deferred Compensation Plan (the Plan). The purpose of the Plan is to provide deferred compensation to key senior management employees of the Bancorp in order to recognize their substantial contributions to the Bank and provide them with additional financial security as inducement to remain with the Bank. The Compensation Committee selects which persons shall be participants in the Plan. Participants' accounts are credited each year with an amount based on a formula involving the participant's employer funded contributions under all qualified plans and the limitations imposed by Internal Revenue Code subsection 401(a)(17) and Code section 415. The unqualified deferred compensation plan liability at December 31, 2008 and 2007 was $97,000 and $86,000. The Plan expense amounted to $11,000 for 2008 and $10,000 for 2007.

The Bancorp sponsors a defined benefit postretirement plan that provides comprehensive major medical benefits to all eligible retirees. Eligible retirees are those who have attained age 65, have completed at least 18 years of service and are eligible for coverage under the employee group medical plan as of the date of their retirement. Spouses of eligible retirees are covered if they were covered as of the employee's date of retirement. Surviving spouses are covered if they were covered at the time of the retiree's death. Dependent children of eligible retirees are generally covered to the later of age 19 or until the child ceases being a full-time student. Surviving dependent children are subject to the same eligibility restrictions if they were covered at the time of the retiree's death. Currently, the Bancorp pays $148.00 of the retiree monthly medical coverage premium.

This amount will remain fixed over the benefit period. Retirees pay 100% of the premiums for all dependent medical coverage. The Bancorp uses December 31 as the measurement date for its postretirement plan. The benefit obligation for this plan was $25,000 and $27,000 at December 31, 2008 and 2007. Benefit plan expense was $13,000 and $15,000 for 2008 and 2007 and contains no significant components, and thus details are not presented due to immateriality. Since future expected payments over the next ten years are approximately $12,000, detail by year is not presented due to immateriality. Also, future benefit plan obligations, funded status, and expense are considered immaterial.

Directors have deferred some of their fees in consideration of future payments. Fee deferrals, including interest totaled $154,000 and $138,000 for 2008 and 2007. The deferred fee liability at December 31, 2008 and 2007 was $1,561,000 and $1,407,000.

NOTE 10 - Regulatory Capital

The Bancorp and Bank are subject to regulatory capital requirements administered by federal banking agencies. Capital adequacy guidelines and prompt corrective action regulations involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators. Failure to meet various capital requirements can initiate regulatory action. Prompt corrective action regulations provide five classifications, including well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized capital distributions are limited, as is asset growth and expansion, and capital restoration plans are required. At year-end 2008 and 2007, the most recent regulatory notifications categorized the Bancorp and Bank as well capitalized under the regulatory framework for prompt corrective action. There are no conditions or events since that notification that management believes have changed the Bancorp's or the Bank's category.

At year end, capital levels for the Bancorp and the Bank were considerably the same. Actual capital levels (in millions), minimum required levels and levels needed to be classified as well capitalized for the Bancorp are summarized below:

	Actual		*Minimum Required for Capital Adequacy Purposes*		*Minimum Required To Be Well Capitalized Under Prompt Corrective Action Regulations*	
(Dollars in millions)	*Amount*	*Ratio*	*Amount*	*Ratio*	*Amount*	*Ratio*
2008						
Total capital to risk-weighted assets	$59.9	12.0%	$39.9	8.0%	$50.0	10.0%
Tier 1 capital to risk-weighted assets	$54.1	10.8%	$20.0	4.0%	$29.9	6.0%
Tier 1 capital to adjusted average assets	$54.1	8.2%	$20.0	3.0%	$33.1	5.0%
2007						
Total capital to risk-weighted assets	$56.8	12.0%	$37.8	8.0%	$47.2	10.0%
Tier 1 capital to risk-weighted assets	$52.2	11.0%	$18.9	4.0%	$28.3	6.0%
Tier 1 capital to adjusted average assets	$52.2	8.3%	$18.8	3.0%	$31.4	5.0%

The Bancorp's ability to pay dividends is entirely dependent upon the Bank's ability to pay dividends to the Bancorp. Under Indiana law, the Bank may pay dividends of so much of its undivided profits (generally, earnings less losses, bad debts, taxes and other operating expenses) as is considered expedient by the Bank's Board of Directors. However, the Bank must obtain the approval of the Indiana Department of Financial Institutions for the payment of a dividend if the total of all dividends declared by the Bank during the current year, including the proposed dividend, would exceed the sum of retained net income for the year-to-date plus its retained net income for the previous two years. For this purpose, "retained net income" means net income as calculated for call report purposes, less all dividends declared for the applicable period. Moreover, the FDIC and the Federal Reserve Board may prohibit the payment of dividends if it determines that the payment of dividends would constitute an unsafe or unsound practice because of the financial condition of the Bank. The aggregate amount of dividends, which may be declared by the Bank in 2009, without prior regulatory approval, approximates $3,650,000 plus current 2009 net profits.

NOTE 11 - Stock Based Compensation

The Bancorp's 2004 Stock Option Plan (the Plan), which is stockholder-approved, permits the grant of share options to its employees for up to 250,000 shares of common stock. Awards granted under the Plan may be in the form of incentive stock options, non-incentive stock options, or restricted stock. The purposes of the Plan are to attract and retain the best available personnel, to provide additional incentives for all employees and to encourage their continued employment by facilitating employees' purchases of an equity interest in the Bancorp. Option awards are generally granted with an exercise price equal to the market price of the Bancorp's common stock at the date of grant; those option awards have five year vesting periods and have 10-year contractual terms. Total compensation cost that has been charged against income for those plans was $10 thousand and $22 thousand for 2008 and 2007 respectively. The total income tax benefit was $7 thousand and $17 thousand 2008 and 2007 respectively.

The fair value of each option award is estimated on the date of grant using a closed form option valuation (Black-Scholes) model that uses the assumptions noted in the table below. Expected volatilities are based on historical volatilities of the Company's common stock. The Company uses historical data to estimate option exercise and post-vesting termination behavior. The expected term of options granted is based on historical data and represents the period of time that options granted are expected to be outstanding, which takes into account that the options are not transferable. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of the grant.

A summary of the Bancorp's stock option activity for 2008 follows:

	(Dollars in Thousands)			
	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at beginning of year	75.952	$ 23.25		
Granted	1,000	28.50		
Exercised	(4,755)	20.65		
Forfeited or expired	(1,600)	20.50		
Outstanding at end of year	70,597	$ 23.56	3.1	$ 120
Vested or expected to vest	70,597	$ 23.56	3.1	$ 120
Exercisable at end of year	59,172	$ 22.35	2.7	$ 120

Information related to the stock option plan during each year follows:

	(Dollars in thousands)	
	2008	2007
Intrinsic value of options exercised	$ 28	$ 80
Cash received from options exercised	98	199
Tax benefit realized from options exercised	7	17
Weighted average fair value of options granted	4.61	N/A

	2008
Risk-free interest rate	3.61%
Expected term	10.0 years
Expected stock price volatility	26.55%
Dividend yield	5.20%

As of December 31, 2008, there was $3,688 of total unrecognized compensation cost related to nonvested stock options granted under the Plan. The cost is expected to be recognized over a weighted-average period of 4.0 years.

Restricted stock awards are generally granted with an award price equal to the market price of the Bancorp's common stock on the award date. Restricted stock awards have been issued with a five year vesting period. Forfeiture provisions exist for personnel that separate employment before the vesting period expires. Compensation expense related to restricted stock awards are recognized over the vesting period. Total compensation cost that has been charged against income for those plans was $47 thousand and $50 thousand for 2008 and 2007 respectively.

A summary of changes in the Bancorp's nonvested restricted stock for 2008 follows:

	(Dollars in thousands)	
Nonvested Shares	Shares	Weighted Average Grant Date Fair Value
Nonvested at January 1, 2008	9,300	$ 324
Granted	600	16
Vested	(2,350)	(64)
Nonvested at December 31, 2008	7,550	$ 276

As of December 31, 2008, there was $111,617 of total unrecognized compensation cost related to nonvested restricted shares granted under the Plan. The cost is expected to be recognized over a weighted-average period of 4.1 years. No shares vested during the year ended December 31, 2007.

NOTE 12 - Earnings Per Common Share

A reconciliation of the numerators and denominators of the basic earnings per common share and diluted earnings per common share computations for 2008 and 2007 is presented below.

	2008	2007
Basic earnings per common share:		
Net income available to common stockholders...	$ 5,930,255	$ 5,589,023
Weighted-average common shares outstanding	2,809,176	2,805,860
Basic earnings per common share	$ 2.11	$ 1.99
Diluted earnings per common share:		
Net income available to common stockholders	$ 5,930,255	$ 5,589,023
Weighted-average common shares outstanding	2,809,176	2,805,860
Add: dilutive effect of assumed stock option exercises and restrictive stock	16,595	23,805
Weighted-average common and dilutive potential common shares outstanding	2,825,771	2,829,665
Diluted earnings per common share	$ 2.10	$ 1.98

There were 11,183 and 10,325 anti-dilutive shares outstanding at December 31, 2008 and 2007.

NOTE 13 - Related Party Transactions

The Bancorp had aggregate loans outstanding to directors and executive officers (with individual balances exceeding $120,000) of $8,999,000 at December 31, 2008 and $5,560,000 at December 31, 2007. For the year ended December 31, 2008, the following activity occurred on these loans:

	(Dollars in thousands)
Aggregate balance - January 1, 2008	$ 5,560
New loans	3,965
Repayments	(526)
Aggregate balance - December 31, 2008	$ 8,999

Deposits from directors and executive officers were $2.9 million and $3.0 million at December 31, 2008 and 2007.

NOTE 14 - Commitments and Contingencies

The Bancorp is a party to financial instruments in the normal course of business to meet financing needs of its customers. These financial instruments, which include commitments to make loans and standby letters of credit, are not reflected in the accompanying consolidated financial statements. Such financial instruments are recorded when they are funded.

The Bancorp's exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to originate loans and standby letters of credit is represented by the contractual amount of those instruments. Commitments generally have fixed expiration dates or other termination clauses and may require the payment of a fee. The Bancorp uses the same credit policy to make such commitments as it uses for on-balance sheet items. Since commitments to make loans may expire without being used, the amount does not necessarily represent future cash commitments.

The Bancorp had outstanding commitments to originate loans as follows:

	(Dollars in thousands)		
	Fixed Rate	Variable Rate	Total
December 31, 2008:			
Commercial business	$ –	$ 42,458	$ 42,458
Real estate	11,890	28,618	40,508
Consumer loans	–	17	17
Unsecured consumer overdrafts	12,345	–	12,345
Total	$ 24,235	$ 71,093	$ 95,328
December 31, 2007:			
Commercial business	$ –	$ 49,592	$ 49,592
Real estate	8,268	10,706	18,974
Consumer loans	–	17	17
Unsecured consumer overdrafts	11,382	–	11,382
Total	$ 19,650	$ 60,315	$ 79,965

The $11,890 thousand in fixed rate commitments outstanding at December 31, 2008 had interest rates ranging from 4.50% to 8.75%, for a period not to exceed forty-five days. At December 31, 2007, fixed rate commitments outstanding of $8,268 thousand had interest rates ranging from 4.75 to 8.75%, for a period not to exceed forty-five days.

Standby letters of credit are conditional commitments issued by the Bancorp to guarantee the performance of a customer to a third party. At December 31, 2008 and 2007, the Bancorp had standby letters of credit totaling $4,416 thousand and $3,681 thousand, respectively. The Bancorp evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bancorp upon extension of credit, is based on management's credit evaluation of the borrower. Collateral obtained may include accounts receivable, inventory, property, land or other assets.

NOTE 15 - Fair Values of Financial Instruments

Statement 157 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing and asset or liability.

The fair values of securities available for sale are mostly determined by matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities. In certain cases where market data is not readily available because of lack of market activity or little public disclosure, values may be based on unobservable inputs and classified in level 3 of the fair value hierarchy.

Trust Preferred Securities which are issued by financial institutions and insurance companies were historically priced using Level 2 inputs, the decline in the level of observable inputs and market activity in this class of investments by the measurement date has been significant and resulted in unreliable external pricing. Broker pricing and bid/ask spreads, when available, vary widely. The once active market has become comparatively inactive. As such, some of these investments are now priced using Level 3 inputs.

The fair value of impaired loans with specific allocations of the allowance for loan losses is generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are typically significant and result in a Level 3 classification of the inputs for determining fair value.

Assets and Liabilities Measured on a Recurring Basis

Assets and liabilities measured at fair value on a recurring basis are summarized below:

(Dollars in thousands)

	Fair Value Measurements at December 31, 2008 Using			
	December 31, 2008	*Quoted Prices in Active Markets for Identical Assets (Level 1)*	*Significant Other Observable Inputs (Level 2)*	*Significant Unobservable Inputs (Level 3)*
Assets:				
Available for sale securities	$ 108,207	$ –	$ 107,204	$ 1,003

Reconciliation of available for sale securities, which require significant adjustment based on unobservable data are presented below:

(Dollars in thousands)

	Fair Value Measurements at December 31, 2008 Using Significant Unobservable Inputs (Level 3)
	Available for sale securities
Beginning balance - January 1, 2008	$ –
Included in other comprehensive income	440
Transfers in and/or out of Level 3	563
Ending balance	$ 1,003

Assets and liabilities measured at fair value on a non-recurring basis are summarized below:

(Dollars in thousands)

	Fair Value Measurements at December 31, 2008 Using			
	December 31, 2008	*Quoted Prices in Active Markets for Identical Assets (Level 1)*	*Significant Other Observable Inputs (Level 2)*	*Significant Unobservable Inputs (Level 3)*
Assets:				
Impaired loans	$ 5,523	$ –	$ 2,789	$ 2,734

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans, had a carrying amount of $7.2 million, with a valuation allowance of $1.7 million, resulting in an additional provision of $2.1 million for the year. Fair value is determined, where possible, using market prices derived from an appraisal or evaluation. In many cases, this qualifies as Level 2 pricing. However, sometimes assumptions and unobservable inputs are used many times by the appraiser, therefore, qualifying the assets as Level 3 in the fair value hierarchy.

The following table shows fair values and the related carrying values of financial instruments as of the dates indicated. Items that are not financial instruments are not included.

	(Dollars in thousands) December 31, 2008	
	Carrying Value	*Estimated Fair Value*
Financial assets		
Cash and cash equivalents	$ 11,296	$ 11,296
Securities available-for-sale	108,207	108,207
Securities held-to-maturity	18,515	18,385
Loans receivable, net	483,679	533,377
Federal Home Loan Bank stock	3,650	N/A
Accrued interest receivable	3,160	3,160
Financial liabilities		
Demand and savings deposits	297,076	297,076
Certificates of deposit	231,072	232,926
Borrowed funds	74,795	75,166
Accrued interest payable	256	256

	(Dollars in thousands) December 31, 2007	
	Carrying Value	*Estimated Fair Value*
Financial assets		
Cash and cash equivalents	$ 12,111	$ 12,111
Securities available-for-sale	96,286	96,286
Securities held-to-maturity	18,358	18,557
Loans receivable, net	463,878	487,443
Federal Home Loan Bank stock	3,550	N/A
Accrued interest receivable	3,294	3,294
Financial liabilities		
Demand and savings deposits	279,176	279,176
Certificates of deposit	214,208	214,094
Borrowed funds	76,930	71,450
Accrued interest payable	239	239

For purposes of the above disclosures of estimated fair value, the following assumptions were used as of December 31, 2008 and 2007. The estimated fair value for cash and cash equivalents and accrued interest receivable and payable are considered to approximate cost. The estimated fair value for loans is based on estimates of the rate the Bancorp would charge for similar such loans at December 31, 2008 and 2007, applied for the time period until estimated repayment. For commercial loans the fair value includes a liquidity adjustment to reflect current market conditions. The estimated fair value for demand and savings deposits is based on their carrying value. The estimated fair value for certificates of deposits is based on estimates of the rate the Bancorp would pay on such deposits at December 31, 2008 and 2007, applied for the time period until maturity. The estimated fair value for borrowed funds is based on current rates for similar financings. The estimated fair value of other financial instruments, and off-balance sheet loan commitments approximate cost and are not considered significant to this presentation.

NOTE 16 - Other Comprehensive Income/(Loss)

Other comprehensive income/(loss) components and related taxes were as follows:

	(Dollars in thousands) 2008	2007
Net change in net unrealized gains and losses on securities available for sale:		
Unrealized gains/(losses) arising during the year	$ (2,981)	$ 1,585
Reclassification adjustment for gains included in net income	210	(100)
Net securities gain (loss) during the year	(2,771)	1,485
Tax effect	930	523
Net of tax amount	(1,841)	962
Net change in unrecognized gain on post retirement benefit:		
Net gain on post retirement benefit	5	(4)
Amortization of net actuarial gain	(16)	(18)
Net gain (loss) activity during the year	(11)	(22)
Tax effect	–	(12)
Net of tax amount	(11)	(10)
Other comprehensive income (loss), net of tax	$ (1,852)	$ 952

Accumulated other comprehensive income/(loss) balances, net of tax, were as follows:

	Balance at December 31, 2007	*Current Period Change*	*Balance at December 31, 2008*
Unrealized gains (losses) on securities available for sale	$ 466	$ (1,841)	$ (1,375)
Unrealized gain (loss) on pension benefits	97	(11)	86
Total	$ 563	$ (1,852)	$ (1,289)

NOTE 17 - Parent Company Only Statements

(Dollars in thousands)
NorthWest Indiana Bancorp
Condensed Balance Sheets

	December 31, 2008	December 31, 2007

Market Information

The Bancorp's Common Stock is traded in the over-the-counter market and quoted on the OTC Bulletin Board. The Bancorp's stock is not actively traded. As of February 23, 2009, the Bancorp had 2,809,285 shares of common stock outstanding and 410 stockholders of record. This does not reflect the number of persons or entities who may hold their stock in nominee or "street" name through brokerage firms. Set forth below are the high and low bid prices during each quarter for the years ended December 31, 2008 and December 31, 2007. The bid prices reflect inter-dealer prices without retail mark-up, mark-down or commission and may not necessarily represent actual transactions. Also set forth is information concerning the dividends declared by the Bancorp during the periods reported. Note 10 to the Financial Statements describes regulatory limits on the Bancorp's ability to pay dividends.

		Per Share Prices		*Dividends Declared Per*
		High	*Low*	*Common Share*
Year Ended December 31, 2008	1st Quarter	$29.90	$23.10	$0.36
