Starting Monday, they have access to Huntington's entire 1,400 ATM network throughout the Midwest, including the 111 ATMs in East Michigan. At the appropriate time, their existing accounts will be converted to Huntington's systems. Our new customers() can be assured we will communicate details as soon as they are available, and we will work hard to make certain the transition is as smooth and seamless as possible."

"For Huntington, this transaction immediately strengthens our Macomb County deposit market share from 10% to almost 14%," Steinour continued. "We recognize the important role Macomb County plays in the southeast Michigan economy. Having been in this market for years, we understand it well. This transaction affords the opportunity to immediately deepen our presence and better positions us to take advantage of the pockets of growth opportunities that exist. In addition, this expansion allows us to realize the benefit of certain expense efficiencies."
