Our specialized equipment includes airbase retardant storage, mixing, and delivery equipment; mobile retardant bases; retardant ground application units; mobile foam equipment; and equipment that we custom design and manufacture to meet specific customer needs. The segment sells products to government agencies and commercial customers around the world.

The Specialty Products business produces and sells high quality Phosphorus Pentasulfide (" P_2S_5 ") primarily used in the preparation of specialty chemicals, including a family of compounds called Zinc Dialkyldithiophosphates ("ZDDP") that provide critical anti-wear protection to engine components. P_2S_5 is also used in pesticide and mining chemicals applications.

Non-GAAP Financial Metrics

Adjusted EBITDA

The computation of Adjusted EBITDA is defined as net income plus income tax expense, net interest and other financing expenses, and depreciation and amortization, adjusted on a consistent basis for certain non-recurring, unusual or non-operational items in a balanced manner. These items include (i) expenses related to the Business Combination, (ii) founder

advisory fee expenses, (iii) stock compensation expense, (iv) non-cash impact of purchase accounting on the cost of inventory sold and (v) unrealized foreign currency loss (gain). To supplement the Company's condensed consolidated financial statements presented in accordance with U.S. GAAP, Perimeter is providing a summary to show the computations of Adjusted EBITDA, which is a non-U.S.GAAP measure used by the Company's management and by external users of Perimeter's financial statements, such as investors, commercial banks and others, to assess the Company's operating performance as compared to that of other companies, without regard to financing methods, capital structure or historical cost basis. Adjusted EBITDA should not be considered an alternative to net income (loss), operating income (loss), cash flows provided by (used in) operating activities or any other measure of financial performance or liquidity presented in accordance with U.S. GAAP (in thousands).
