The Partnership Only financials included in this document reflect the operations of the Partnership without the consolidation of any variable interest entities (VIEs) under the GAAP consolidation rules which are in effect. America First Multifamily Investors, L.P. (ATAX or Partnership) was formed for the primary purpose of acquiring a portfolio of mortgage revenue bonds that are issued to provide construction and/or permanent financing of multifamily residential properties. The Partnership believes and expects that interest paid on these bonds is excludable from gross income for federal income tax purposes. Our business objectives are to (i) preserve and protect our capital and (ii) provide regular cash distributions to our shareholders which we believe are substantially exempt from federal income tax. The Partnership also invests in other securities which 1) must be rated in one of the four highest rating categories by at least one nationally recognized securities rating agency and 2) cannot be more than 25% of the Partnership's total assets at acquisition. The Partnership believes and expects that the interest income from these other securities are exempt from federal taxation. The Partnership has also acquired interests in multifamily apartments ("MF Properties") in order to position itself for future investments in mortgage revenue bonds issued to finance these properties.

REVENUE TRENDS

- Recurring revenue has increased due to the Partnership's acquisition of mortgage revenue bonds. In addition, expansion and acquisition of new investment classes (PHC Certificates and mortgage-backed securities) in the second half of 2012 also contributed to this increase over the last eight quarters. The trend line represents the trajectory of total investment revenue.
- Transactions were recorded in certain quarters of 2013 and 2014 which are not expected to recur including:
 - During the second quarter of 2014, the Partnership sold the Autumn Pines mortgage revenue bond and recognized a gain of approximately \$873,000.
 - During the first quarter of 2014, the Partnership redeemed the Lost Creek mortgage revenue bond and recognized a gain of approximately \$2.8 million.
 - During the second quarter of 2013, the Partnership redeemed the Iona Lakes mortgage revenue bond and recorded approximately \$6.5 million of contingent interest income which will be tax-exempt.
 - During the first quarter of 2013, the Partnership recognized \$3.5 million of interest income from the Ohio Properties' mortgage bonds which had been deferred and recorded as a liability until the recognition of the sale of the Ohio Properties.

Partnership Only Income Statement Trends - Revenues

Cash Available to Distribute ("CAD") Trend

- In general, CAD¹ has been trending up over the past eight quarters.
- The Partnership recognized Tier 2 income (defined as gains on sale of investments) of \$873,000 in the second quarter and \$2.8 million in the first quarter of 2014 of which \$2.8million was allocated to the unit holders.

1) Management utilizes a calculation of Cash Available for Distribution ("CAD") as a means to determine the Partnership's ability to make distributions to shareholders. This is a non-GAAP financial measure, Slide 17 of the Supplement provides a reconciliation of CAD to Partnership Only net income.

The Partnership's operating policy on leverage is:

- To maintain leverage of approximately 60% of the mortgage revenue bonds' par value.
- For investment grade rated assets, which are the PHC certificates and the mortgage-backed securities, the policy allows for higher leverage percentages since those asset classes are more liquid. The Partnership's policy is to have leverage no greater than 80% of the par value for these investment classes.
- The Partnership's policy regarding mortgages on MF Properties is to look at total debt of the Partnership as a percentage of total assets. Mortgages are utilized to bring the leverage ratio on total assets to a target level of approximately 60%.

Weighted Average Cost of Debt ¹	Qtr Ended	Qtr Ended

1) The change in the fair value of the interest rate swap contracts which are recorded within interest expense in the consolidated financial statements has been excluded from the calculation of the weighted average cost of debt for the mortgage revenue bond segment for both quarters presented.

In addition, income subject to AMT was approximately 25% of the tax-exempt income. A unit holder of ATAX who had ownership for the full year would have seen a similar break out of their income on their 2013 tax form K-1.
