Recent Highlights

Strategic

- In April 2020, Midship Pipeline Company, LLC, in which we have an equity investment, placed into service the Midship natural gas pipeline and related compression and interconnect facilities.

Operational

- As of April 27, 2020, more than 1,100 cumulative LNG cargoes totaling over 75 million tonnes of LNG have been produced, loaded and exported from our liquefaction projects.

Financial

- For the three months ended March 31, 2020, we reported net income¹ of \$375 million, Consolidated Adjusted EBITDA² of \$1.04 billion, and Distributable Cash Flow² of approximately \$250 million.
- During the three months ended March 31, 2020, we repurchased an aggregate of 2.9 million shares of our common stock for \$155 million under our share repurchase program.
- In March 2020, Sabine Pass Liquefaction, LLC entered into a \$1.2 billion Working Capital Revolving Credit and Letter of Credit Reimbursement Agreement, which refinanced its previous working capital facility, reduced the interest rate, and extended the maturity date to March 2025.
- In February 2020, the amended and restated note purchase agreement for the 2025 CCH HoldCo II Convertible Senior Notes was amended to allow Cheniere CCH HoldCo II, LLC (“CCH HoldCo II”) the option to redeem all or a portion of the outstanding notes with cash at a price of \$1,080 per \$1,000 principal amount, at the time of any CCH HoldCo II or noteholder initiated conversion through September 2, 2020. In March 2020, CCH HoldCo II redeemed an aggregate outstanding principal amount of \$300 million with cash.

Cheniere Energy, Inc. (“Cheniere”) (NYSE American: LNG) reported net income¹ of \$375 million, or \$1.48 per share—basic and \$1.43 per share—diluted for the three months ended March 31, 2020, compared to \$141 million, or \$0.55 per share—basic and \$0.54 per share—diluted, for the comparable 2019 period. Net income increased during the three months ended March 31, 2020 as compared to the comparable 2019 period primarily due to increased total margins³, partially offset by (i) increased operating costs and expenses primarily as a result of additional Trains in operation, (ii) increased net loss related to interest rate derivatives, (iii) increased interest expense, and (iv) increased income tax expense. Total margins increased primarily due to increased volumes of LNG recognized in income primarily as a result of additional Trains in operation and increased net gains from changes in fair value of commodity derivatives, partially offset by slightly decreased margins per MMBtu of LNG recognized in income. Margins per MMBtu of LNG recognized in income decreased primarily due to decreased pricing on LNG sold, partially offset by decreased pricing of natural gas feedstock related to our LNG sales.

Consolidated Adjusted EBITDA was \$1.04 billion for the three months ended March 31, 2020, compared to \$0.65 billion for the comparable 2019 period. The increase in Consolidated Adjusted EBITDA was primarily due to additional volumes of LNG recognized in income primarily due to additional Trains in operation, partially offset by increased operating costs and expenses primarily as a result of additional Trains in operation and slightly decreased margins per MMBtu of LNG recognized in income.

During the three months ended March 31, 2020, 128 LNG cargoes were exported from our liquefaction projects, none of which were commissioning cargoes. Eight cargoes exported from our liquefaction projects and sold on a delivered basis were in transit as of March 31, 2020.

“The first quarter of 2020 was defined by unprecedented circumstances, and our focus at Cheniere has been to protect the health and safety of our workforce, ensure continuity of construction and operations to deliver on our obligations to our customers, and to support the communities where we live and work with assistance needed to provide critical services,” said Jack Fusco, Cheniere’s President and Chief Executive Officer. “I am immensely proud of the Cheniere team for their united response to these challenges.

“Those efforts contributed to our ability to deliver strong financial results for the first quarter. We have built a strong and resilient business, one capable of withstanding volatility in both energy and financial markets, and that enables us today to reconfirm our full year 2020 guidance of Consolidated Adjusted EBITDA of \$3.8 to \$4.1 billion, and Distributable Cash Flow of \$1.0 to \$1.3 billion.”

LNG Volume Summary

The following table summarizes the volumes of operational and commissioning LNG that were loaded from our liquefaction projects and for which the financial impact was recognized on our Consolidated Financial Statements during the three months ended March 31, 2020:

<i>(in TBtu)</i>	Three Months Ended March 31, 2020	
	Operational	Commissioning
Volumes loaded during the current period	455	—
Volumes loaded during the prior period but recognized during the current period	33	—
Less: volumes loaded during the current period and in transit at the end of the period	(29)	—
Total volumes recognized in the current period	<u>459</u>	<u>—</u>

In addition, during the three months ended March 31, 2020, we recognized the financial impact of 14 TBtu of LNG on our Consolidated Financial Statements related to LNG cargoes sourced from third parties.

Additional Discussion and Analysis of Financial Condition and Results

Details Regarding First Quarter 2020 Results

Our financial results are reported on a consolidated basis. Our ownership interest in Cheniere Energy Partners, L.P. (“Cheniere Partners”) (NYSE American: CQP) as of March 31, 2020 consisted of 100% ownership of the general partner and a 48.6% limited partner interest.

Income from operations increased \$740 million during the three months ended March 31, 2020, as compared to the comparable 2019 period, primarily due to an increase in total margins, partially offset by an increase in operating costs and expenses primarily as a result of additional Trains in operation. Total margins increased primarily due to increased volumes of LNG recognized in income primarily as a result of additional Trains in operation and increased net gains from changes in fair value of commodity derivatives, partially offset by slightly decreased margins per MMBtu of LNG recognized in income.

Selling, general and administrative expense included share-based compensation expenses of \$19 million for the three months ended March 31, 2020, compared to \$20 million for the comparable 2019 period.

Capital Resources

As of March 31, 2020, we had cash and cash equivalents of \$2.4 billion on a consolidated basis, of which \$1.7 billion was held by Cheniere Partners. In addition, we had current restricted cash of \$430 million designated for the following purposes: \$109 million for the SPL Project, \$94 million for the CCL Project and \$227 million for other restricted purposes.

Liquefaction Projects

SPL Project

Through Cheniere Partners, we operate five natural gas liquefaction Trains and are constructing one additional Train for a total production capacity of approximately 30 million tonnes per annum (“mtpa”) of LNG at the Sabine Pass LNG terminal (the “SPL Project”).

CCL Project

We operate two Trains and are constructing one additional Train for a total production capacity of approximately 15 mtpa of LNG near Corpus Christi, Texas (the “CCL Project”).

Corpus Christi Stage 3

We are developing an expansion adjacent to the CCL Project for up to seven midscale Trains with an expected total production capacity of approximately 10 mtpa of LNG (“Corpus Christi Stage 3”). We expect to commence construction of the Corpus Christi Stage 3 project upon, among other things, entering into an engineering, procurement, and construction contract and additional commercial agreements, and obtaining adequate financing.

Investor Conference Call and Webcast

Reconciliation of Non-GAAP Measures

Regulation G Reconciliations

In addition to disclosing financial results in accordance with U.S. GAAP, the accompanying news release contains non-GAAP financial measures. Consolidated Adjusted EBITDA and Distributable Cash Flow are non-GAAP financial measures that we use to facilitate comparisons of operating performance across periods. These non-GAAP measures should be viewed as a supplement to and not a substitute for our U.S. GAAP measures of performance and the financial results calculated in accordance with U.S. GAAP and

reconciliations from these results should be carefully evaluated.

Consolidated Adjusted EBITDA represents net income attributable to Cheniere before net income attributable to non-controlling interest, interest, taxes, depreciation and amortization, adjusted for certain non-cash items, other non-operating income or expense items, and other items not otherwise predictive or indicative of ongoing operating performance, as detailed in the following reconciliation. Consolidated Adjusted EBITDA is not intended to represent cash flows from operations or net income as defined by U.S. GAAP and is not necessarily comparable to similarly titled measures reported by other companies.

We believe Consolidated Adjusted EBITDA provides relevant and useful information to management, investors and other users of our financial information in evaluating the effectiveness of our operating performance in a manner that is consistent with management's evaluation of business performance. We believe Consolidated Adjusted EBITDA is widely used by investors to measure a company's operating performance without regard to items such as interest expense, taxes, depreciation and amortization which vary substantially from company to company depending on capital structure, the method by which assets were acquired and depreciation policies. Further, the exclusion of certain non-cash items, other non-operating income or expense items, and items not otherwise predictive or indicative of ongoing operating performance enables comparability to prior period performance and trend analysis.

Consolidated Adjusted EBITDA is calculated by taking net income attributable to common stockholders before net income attributable to non-controlling interest, interest expense, net of capitalized interest, changes in the fair value and settlement of our interest rate derivatives, taxes, depreciation and amortization, and adjusting for the effects of certain non-cash items, other non-operating income or expense items, and other items not otherwise predictive or indicative of ongoing operating performance, including the effects of modification or extinguishment of debt, impairment expense and loss on disposal of assets, changes in the fair value of our commodity and FX derivatives, non-cash compensation expense, and non-recurring costs related to our response to the COVID-19 outbreak. We believe the exclusion of these items enables investors and other users of our financial information to assess our sequential and year-over-year performance and operating trends on a more comparable basis and is consistent with management's own evaluation of performance.

Distributable Cash Flow is defined as cash received, or expected to be received, from Cheniere's ownership and interests in Cheniere Partners, cash received (used) by Cheniere's integrated marketing function (other than cash for capital expenditures) less interest, taxes and maintenance capital expenditures associated with Cheniere and not the underlying entities. Management uses this measure and believes it provides users of our financial statements a useful measure reflective of our business's ability to generate cash earnings to supplement the comparable GAAP measure.

We believe Distributable Cash Flow is a useful performance measure for management, investors and other users of our financial information to evaluate our performance and to measure and estimate the ability of our assets to generate cash earnings after servicing our debt, paying cash taxes and expending sustaining capital, that could be used for discretionary purposes such as common stock dividends, stock repurchases, retirement of debt, or expansion capital expenditures. Management uses this measure and believes it

provides users of our financial statements a useful measure reflective of our business's ability to generate cash earnings to supplement the comparable GAAP measure. Distributable Cash Flow is not intended to represent cash flows from operations or net income as defined by U.S. GAAP and is not necessarily comparable to similarly titled measures reported by other companies.

Non-GAAP measures have limitations as an analytical tool and should not be considered in isolation or in lieu of an analysis of our results as reported under GAAP and should be evaluated only on a supplementary basis.

Consolidated Adjusted EBITDA

The following table reconciles our Consolidated Adjusted EBITDA to U.S. GAAP results for the three months ended March 31, 2020 and 2019 (in millions):
