

## Company Overview

Clearfield, Inc. (NASDAQ: CLFD) designs, manufactures and distributes fiber optic management, protection and delivery products for communications networks. Our "fiber to anywhere" platform serves the unique requirements of leading ILECS, CLECs, MSO/cable TV companies, and the broadband needs of the Utility/Municipality, Enterprise, Data Center and Military markets. Clearfield offers the industry's only fiber management and delivery platform that scales to align capital equipment expenditure alongside subscriber revenue through a single architecture.

To be an industry leader means knowing the customer's requirements, and then exceeding them. Clearfield leads the industry by helping service providers reduce the high costs associated with deploying, managing, protecting and scaling a fiber optic network. We do this by bringing customer-focused designs to the marketplace, building simplicity into the design and delivering the lowest total cost of ownership.

Headquartered in Minneapolis, MN, Clearfield deploys millions of fiber ports each year throughout North America and beyond.
