## 3DIcon Corporation Provides Management Briefing Information

TULSA, OK -- (Marketwired) -- 06/06/14 -- 3DIcon Corporation(OTCQB: TDCP), a developer of three-dimensional projection display technologies, today provided details for the announced Management Briefing Meeting will be held on Thursday, June 19<sup>th</sup>, beginning promptly at 10 AM, CST.

The meeting will be conducted in the Perkins Family Auditorium on the campus of The University of Oklahoma, Tulsa-Schusterman Center, 4502 East 41<sup>st</sup> Street. As there are several entrances to the University, there will be signs directing attendees:

"3DICON CORPORATION MANAGEMENT BRIEFING"

In order to facilitate maximum participation by our shareholders and others, the meeting will also be shown on the internet in a "webinar" or via a conference call, permitting shareholders, and others, who are not able to attend in person to hear the presentations, see the written materials shown at the meeting and submit questions.

To view the slides being used in the presentation, you must participate in the meeting via the web. To do so, please access the following

link: <https://allianceadvisors.webex.com/allianceadvisors/onstage/g.php?t=a&d=664599093>

Please follow the directions in order to register. You will need to enter your first name, last name and email address. You will receive a confirmation email once registered.

To participate in the Management Briefing without seeing the slides, but via phone/audio only, please call 1-855-282-6330 on June 19th, 2014 at 10 am (Central time).

Attendees joining via phone only will need to enter the event number (664 599 093) when prompted.

You may contact Alliance Advisors, LLC at their toll free number (1-855-973-0095) or at [3DIcon@allianceadvisorsllc.com](mailto:3DIcon@allianceadvisorsllc.com) if you have any questions regarding the process before 9 a.m. (New York time) on June 18th, 2014.

### **About 3DIcon Corporation**

3DIcon Corporation (the "Company", "3DIcon", "we", "us" or "our") is a developer of projection 3D display technologies. The Company's patented volumetric 3D display technology, CSpace®, is being developed to produce 360-degree viewable, high-resolution, color images, and is intended for use in government and industrial applications such as air traffic control, medical imaging, automotive & aerospace design, geological visualization, weather visualization, battle space visualization, and cargo / baggage / people scan visualization. The Company also sells a software product, [Pixel Precision®](#), a simple-to-use image creation / manipulation tool for engineers developing systems based on Texas Instruments' DLP® line of products. For more information please visit [www.3dicon.net](http://www.3dicon.net).

### **S AFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION ACT OF 1995**

*With the exception of historical information, the matters discussed in this news release are forward-looking statements that involve a number of risks and uncertainties. The actual future results of 3DIcon could differ significantly from those statements. Factors that could cause actual results to differ materially include risks and uncertainties such as the inability to finance the company's operations, inability to hire and retain qualified personnel, and changes in the general economic climate. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," the negative of such terms, or other comparable terminology. These statements are only predictions. Although we believe that the expectations reflected in the forward-looking statements are reasonable, such statements should not be regarded as a representation by 3DIcon, or any other person, that such forward-looking statements will be achieved. We undertake no duty to update any of*

*the forward-looking statements, whether as a result of new information, future events or otherwise. In light of the foregoing, readers are cautioned not to place undue reliance on such forward-looking statements.*
