Award-Winning Leadership: USANA's Chief Scientific Officer Honored with Women Tech Award

Dr. Kathryn Armstrong named a "Leadership Excellence Award" winner

SALT LAKE CITY, Oct. 6, 2025 /PRNewswire/ -- USANA (NYSE:USNA) is proud to announce that its chief scientific officer, Dr. Kathryn Armstrong, has received the Women Tech Award from the Women Tech Council of Utah.

The Women Tech Award is a distinguished recognition platform that celebrates women who are significantly contributing to the expansion and innovation within the technology sector. The program aims to enhance the visibility of women who are not only advancing technology but also inspiring the broader community. This award underscores USANA's commitment to scientific innovation and visionary leadership.

"I am incredibly honored to be recognized by the Women Tech Council of Utah along with the other inspiring winners," said Dr. Kathryn Armstrong. "This award is a testament to our amazing team of scientific professionals at USANA. We are dedicated to pushing the boundaries of science and innovation to create the highest quality nutritional products for our Brand Partners and customers.

"This award is not just a personal achievement; it is a reflection of USANA's unwavering

commitment to empowering women in the workplace and its drive for innovation," continues Dr. Armstrong. "I am proud to be part of a company that values innovation and invests in the development of cutting-edge technologies. This recognition will only fuel our passion to continue making significant contributions to the health and wellness industry."

Dr. Armstrong joined USANA in 2024, bringing 18 years of extraordinary experience from globally recognized corporations. Her academic achievements include a B.S. in Chemistry from Loyola University Chicago and a Ph.D. in Biochemistry from the University of Notre Dame.

In addition to balancing her life as a single parent to her four children, three cats, two dogs, and one horse, Dr. Armstrong leads a team of more than 150 professionals across product development and formulation, regulatory affairs, quality control, quality assurance, health education, research, product validation, laboratory services, and science.
