Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ► As of the date hereof, Antero Midstream Corporation has paid the following quarterly distributions to its common stockholders during 2026: February 11, 2026 ($0.225 per share), May 13, 2026 ($0.225 per share) and August 12, 2026 ($0.225 per share).

The amount of Antero Midstream Corporation's earnings and profits may not be sufficient to cause all of its distributions to be treated as dividends for U.S. federal income tax purposes. The chart below sets forth Antero Midstream Corporation's expected treatment of these 2026 distributions for U.S. federal income tax purposes at this time based upon reasonable assumptions.

The treatment of these 2026 distributions for U.S federal income tax purposes may change as the taxable year progresses. Antero Midstream Corporation intends to post an updated Form 8937 following each quarterly distribution to its common stockholders during 2026. Please see any subsequently posted Forms 8937 for updates to the treatment of such distributions for U.S federal income tax purposes.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ► Distributions paid out of a corporation's current or accumulated earnings and profits are treated as dividends. Distributions in excess of a corporation's current and accumulated earnings and profits are treated as a return of capital and reduce the shareholder's basis in the shares of the corporation. Distributions that exceed stock basis result in the recognition of capital gain. At this time, based upon reasonable assumptions, the 2026 distributions by Antero Midstream Corporation are expected to be treated as set forth in the following chart.

Record Date	Payment Date	Cash Distribution Per Common Share	Amount of Distribution that is: Dividend	Amount of Distribution that is: Return of Capital	Percentage of Distribution that is: Dividend	Percentage of Distribution that is: Return of Capital
January 28, 2026	February 11, 2026	$0.225	$0.225	$0.000	100%	0%
April 29, 2026	May 13, 2026	$0.225	$0.225	$0.000	100%	0%
July 29, 2026	August 12, 2026	$0.225	$0.225	$0.000	100%	0%

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► Distributions paid out of a corporation's current or accumulated earnings and profits are treated as dividends. Distributions in excess of a corporation's current and accumulated earnings and profits are treated as a return of capital and reduce the shareholder's basis in the shares of the corporation. Distributions that exceed stock basis result in the recognition of capital gain.
