Kane Biotech Announces First Quarter 2019 Financial Results, Extension of Loan and Insider Funding

WINNIPEG, Manitoba, May 22, 2019 (GLOBE NEWSWIRE) -- Kane Biotech Inc. (TSX-V:KNE), (the "Corporation" or "Kane Biotech"), a biotechnology company engaged in the research, development and commercialization of technologies and products that prevent and remove microbial biofilms, today announces its First Quarter 2019 Financial Results.

Key Highlights of the first quarter include the following:

- Announced the kick-off of their new human health strategy focusing on the development of a wound care hydrogel containing Kane's patented enzyme DispersinB®
- Renewed its exclusive worldwide license agreement with the University of Medicine and Dentistry of New Jersey, now part of Rutgers University, for all human, animal, and industrial applications of the DispersinB® enzyme
- Experienced record-breaking year-over-year growth in product and services revenues, largely due to the delivery of its single largest purchase order for its bluestem products to one of the largest pet retail operations in North America
- Announced its growing partnership with Dechra Veterinary Products, leading to growing royalty revenues from product expansion, growing sales demand, and broader veterinary approval
- Signed a non-exclusive Distribution Agreement with a major Chinese distributor and secured its first order valued at \$25K USD
- Announced new sales representation by SLA Brands, who will now exclusively represent Kane's bluestem line of products to distributors and retailers in the US market
- Launched three new bluestem products; powder water additive, dental wipe, and small and medium sized dental chews. A fourth product, medium and large sized rawhide chews, will launch later in 2019

"We're off to a solid start this fiscal year with record-breaking year-over-year revenue growth as well as a number of exciting announcements," stated Marc Edwards, Chief Executive Officer of Kane Biotech. "We are working hard to transform our business and I'm very proud of our recent accomplishments in both the animal and human health markets. We continue to develop our main proprietary technologies, DispersinB and Coactive+, for new uses and are building a strong pipeline for product and line expansion moving forward."

"I am confident in the steps we are taking to create sustainable growth and look forward to continuing to build momentum throughout 2019," concluded Mr. Edwards.

Caution Regarding Forward-Looking Information

This press release contains certain statements regarding Kane Biotech Inc. that constitute forward-looking information under applicable securities law. These statements reflect management's current beliefs and are based on information currently available to management. Certain material factors or assumptions are applied in making forward-looking statements, and actual results may differ materially from those expressed or implied in such statements. These risks and uncertainties include, but are not limited to, risks relating to the Company's: (a) financial condition, including lack of significant revenues to date and reliance on equity and other financing; (b) business, including its early stage of development, government regulation, market acceptance for its products, rapid technological change and dependence on key personnel; (c) intellectual property including the ability of the Company to protect its intellectual property and dependence on its strategic partners; and (d) capital structure, including its lack of dividends on its common shares, volatility of the market price of its common shares and public company costs. Further information about these and other risks and uncertainties can be found in the disclosure documents filed by the Company with applicable securities regulatory authorities, available at www.sedar.com. The Company cautions that the foregoing list of factors that may affect future results is not exhaustive.
