This increase was driven by 102 net new stores, the opening of the Company's fourth distribution center in Greenwood, Indiana, as well as new brand additions. Average inventory per store increased 14%, compared to the second quarter of fiscal 2014. This increase was primarily driven by the new Greenwood, Indiana distribution center, investments in inventory to ensure high in-stock levels to support strong sales growth and incremental inventory for new brands and in-store prestige brand boutiques. Average inventory per store, excluding the investment in the new Greenwood, Indiana distribution center, increased 10.9%.

The Company ended the second quarter of fiscal 2015 with \$475.4 million in cash and short-term investments.

Share Repurchase Program

During the second quarter, the Company repurchased 291,227 shares of its stock at a cost of approximately \$46 million under its 10b5-1 plan. As of August 1, 2015, \$286.3 million remained available under the \$400 million share repurchase program.

Store Expansion

Outlook

For the third quarter of fiscal 2015, the Company currently expects net sales in the range of \$869 million to \$883 million, compared to actual net sales of \$745.7 million in the third quarter of fiscal 2014. Comparable sales for the third quarter of 2015, including e-commerce sales, are expected to increase 8% to 10%. The Company reported a comparable sales increase of 9.5% in the third quarter of 2014.

Income per diluted share for the third quarter of fiscal 2015 is estimated to be in the range of \$1.00 to \$1.05. This compares to income per diluted share for the third quarter of fiscal 2014 of \$0.91. As previously communicated, earnings growth in the second half of 2015 is expected to moderate compared to the first half of the year, reflecting the timing of marketing expenses and supply chain investments including a new distribution center in Greenwood, Indiana which opened on August 3, 2015.

The Company is raising its previously announced fiscal 2015 guidance. The Company plans

to:

- achieve comparable sales growth of approximately 8% to 10%, including the impact of the e-commerce business, compared to previous guidance of 7% to 9%;
- increase total sales in the mid to high teens percentage range;
- grow e-commerce sales in the 40% range;
- expand square footage by approximately 13% with the opening of 100 net new stores;
- remodel four locations;
- deliver earnings per share growth in the high teens, compared to previous guidance of the high end of the range of 15% to 17%. This includes planned supply chain and system investments, excluding the \$0.02 non-recurring tax benefit in the fourth quarter of 2014, and assuming continued share repurchases to offset dilution; and
- incur capital expenditures in the \$300 million range in fiscal 2015, compared to \$249 million in fiscal 2014.
