Per share numbers are calculated based on 26,355,838 diluted weighted average shares for the six months ended June 30, 2019, and 26,174,393 diluted weighted average shares for the six months ended June 30, 2018.

## **Balance Sheet**

As of June 30, 2019, the company had \$231.9 million outstanding on the 6.75% senior secured notes due 2024 (the “Notes”) and \$22.4 million outstanding on the Asset Based Revolving Credit Facility (“ABL Facility”).

## **Acquisitions and Divestitures**

The following transactions were completed since April 1, 2019:

- On July 25, 2019, the company acquired the Journeyboxmedia.com website and related assets for \$0.5 million in cash.
- On July 10, 2019 the company acquired certain assets including a digital content library from Steelehouse Productions, Inc. for \$0.1 million in cash.
- On June 27, 2019, the company sold a portion of land on its transmitter site in Miami, Florida, for \$0.9 million in cash. The company recognized a pre-tax gain of \$0.4 million reflecting the sales price as compared to the carrying value of the land.
- On June 6, 2019, the company acquired the InvestmentHouse.com website and the related financial newsletter assets and deferred subscription liabilities for \$0.6 million in cash. As part of the purchase agreement, the company may pay an additional incentive payment equal to 10% of revenue earned in excess of a predetermined during the incentive period ending May 31, 2020. Using a probability-weighted discounted cash flow model based on its own assumptions as to the ability of InvestmentHouse.com to achieve revenue in excess of the targets at the time of closing, the company estimated the fair value of the contingent earn-out consideration to be \$2,500, which approximated the present value based on the earn-out period of less than twelve months.
- On May 14, 2019, the company sold radio station WSPZ-AM (previously WWRC-AM) in Washington D.C. for \$0.8 million in cash. The buyer began programming the station under a Time Brokerage Agreement (“TBA”) on April 12, 2019. The company recorded an estimated pre-tax loss of \$3.8 million as of March 31, 2019, based on its plan to sell the station and the probability of the sale, which reflects the sales price as compared to the carrying value of the radio station assets and the estimated closing costs. The company recorded an additional loss of \$32,000 upon closing based on the actual closing costs incurred.

Pending transactions:

- On July 25, 2019, the company entered into an agreement to sell radio stations WWMI-AM and WLCC-AM in Tampa Florida and WZAB-AM and WKAT-AM in Miami,

Florida for \$8.2 million in cash. The company recognized an estimated pre-tax loss of \$4.7 million on July 25, 2019, which reflects the sales price as compared to the carrying value of the assets of the radio stations and the estimated closing costs. This transaction is subject to the approval of the FCC and is expected to close in the third quarter of 2019.

- On July 10, 2019, the company entered into an agreement to sell radio station WORL-AM in Orlando, Florida for \$0.9 million in cash. The company recognized an estimated pre-tax loss of \$1.6 million on July 10, 2019, which reflects the sales price as compared to the carrying value of the radio station assets and the estimated closing costs. The company also entered a LMA effective September 2, 2019, under which the radio station will be operated by the buyer pending the closing of the sale of the station. This transaction is subject to the approval of the FCC and is expected to close in the third quarter of 2019.
- On January 3, 2017, Word Broadcasting began operating our Louisville radio stations (WFIA-AM; WFIA-FM; WGTK-AM) under a twenty-four month TBA. We received \$0.5 million in cash associated with an option for Word Broadcasting Network to acquire the radio stations during the term. In December 2018, Word Broadcasting notified the company of their intent to purchase our Louisville radio stations. The TBA contained an extension clause that allowed Word Broadcasting to continue operating the station until the purchase agreement was executed and the transaction closed. On June 28, 2019, the TBA was amended to include an additional 24 months under which Word Broadcasting will program the radio stations with the option to acquire the stations extended to December 31, 2020.
- On April 29, 2019 the company entered into an agreement to exchange FM Translator W276CR, in Bradenton, Florida with FM Translator W262CP in Bayonet Point, Florida. No cash will be exchanged for the assets.
- On April 26, 2018, the company entered an agreement to exchange radio station KKOL-AM, in Seattle, Washington for KPAM-AM in Portland, Oregon. The transaction is expected to close in the second half of 2019. No cash will be exchanged for the assets.

## Third Quarter 2019 Outlook

For the third quarter of 2019, the company is projecting total revenue to decrease between 4% and 6% from third quarter 2018 total revenue of \$65.5 million. Excluding the impact of political revenue and recent acquisitions and dispositions, the company is projecting total revenue to decrease between 2% and 4%. The company is also projecting operating expenses before gains or losses on the disposition of assets, stock-based compensation

expense, changes in the estimated fair value of contingent earn-out consideration, impairments, depreciation expense and amortization expense to be between flat and a decrease of 3% compared to the third quarter of 2018 non-GAAP operating expenses of \$55.2 million.

*A reconciliation of non-GAAP operating expenses, excluding gains or losses on the disposition of assets, stock-based compensation expense, changes in the estimated fair value of contingent earn-out consideration, impairments, depreciation expense and amortization expense to the most directly comparable GAAP measure is not available without unreasonable efforts on a forward-looking basis due to the potential high variability, complexity and low visibility with respect to the charges excluded from this non-GAAP financial measure, in particular, the change in the estimated fair value of earn-out consideration, impairments and gains or losses from the disposition of fixed assets. The company expects the variability of the above charges may have a significant, and potentially unpredictable, impact on its future GAAP financial results.*

### **Forward-Looking Statements**

Statements used in this press release that relate to future plans, events, financial results, prospects or performance are forward-looking statements as defined under the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those anticipated as a result of certain risks and uncertainties, including but not limited to the ability of Salem to close and integrate announced transactions, market acceptance of Salem's radio station formats, competition from new technologies, adverse economic conditions, and other risks and uncertainties detailed from time to time in Salem's reports on Forms 10-K, 10-Q, 8-K and other filings filed with or furnished to the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Salem undertakes no obligation to update or revise any forward-looking statements to reflect new information, changed circumstances or unanticipated events.

### **(1) Regulation G**

*Management uses certain non-GAAP financial measures defined below in communications with investors, analysts, rating agencies, banks and others to assist such parties in understanding the impact of various items on its financial statements. The company uses these non-GAAP financial measures to evaluate financial results, develop budgets, manage expenditures and as a measure of performance under compensation programs.*

*The company's presentation of these non-GAAP financial measures should not be considered as a substitute for or superior to the most directly comparable financial measures as reported in accordance with GAAP.*

*Regulation G defines and prescribes the conditions under which certain non-GAAP financial information may be presented in this earnings release. The company closely monitors EBITDA, Adjusted EBITDA, Station Operating Income ("SOI"), Same Station net broadcast revenue, Same Station broadcast operating expenses, Same Station Operating Income, Digital Media Operating Income, Publishing Operating Loss, and operating expenses excluding gains or losses on the disposition of assets, stock-based compensation, changes in the estimated fair value of contingent earn-out consideration, impairments, depreciation and amortization, all of which are non-GAAP financial measures. The company believes that these non-GAAP financial measures provide useful information about its core operating results, and thus, are appropriate to enhance the overall understanding of its financial performance. These non-GAAP financial measures are intended to provide management and investors a more complete understanding of its underlying operational results, trends and performance.*

*The company defines Station Operating Income ("SOI") as net broadcast revenue minus broadcast operating expenses. The company defines Digital Media Operating Income as net Digital Media Revenue minus Digital Media Operating Expenses. The company defines Publishing Operating Loss as net Publishing Revenue minus Publishing Operating Expenses. The company defines EBITDA as net income before interest, taxes, depreciation, and amortization. The company defines Adjusted EBITDA as EBITDA before gains or losses on the disposition of assets, before changes in the estimated fair value of contingent earn-out consideration, before changes in the fair value of interest rate swap, before impairments, before net miscellaneous income and expenses, before gain on bargain purchase, before (gain) loss on early retirement of long-term debt and before non-cash compensation expense. SOI, Digital Media Operating Income, Publishing Operating Loss, EBITDA and Adjusted EBITDA are commonly used by the broadcast and media industry as important measures of performance and are used by investors and analysts who report on the industry to provide meaningful comparisons between broadcasters. SOI, Digital Media Operating Income, Publishing Operating Loss, EBITDA and Adjusted EBITDA are not measures of liquidity or of performance in accordance with GAAP and should be viewed as a supplement to and not a substitute for or superior to its results of operations and financial condition presented in accordance with GAAP. The company's definitions of SOI, Digital Media Operating Income, Publishing Operating Loss, EBITDA and Adjusted EBITDA are not necessarily comparable to similarly titled measures reported by other companies.*

*The company defines Adjusted Free Cash Flow as Adjusted EBITDA less cash paid for capital expenditures, less cash paid for income taxes, and less cash paid for interest. The company considers Adjusted Free Cash Flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated by its operations after cash paid for capital expenditures, cash paid for income taxes and cash paid for interest. A limitation of Adjusted Free Cash Flow as a measure of liquidity is that it does not represent the total increase or decrease in its cash balance for the period. The company uses Adjusted Free Cash Flow, a non-GAAP*

*liquidity measure, both in presenting its results to stockholders and the investment community, and in its internal evaluation and management of the business. The company's presentation of Adjusted Free Cash Flow is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. The company's definition of Adjusted Free Cash Flow is not necessarily comparable to similarly titled measures reported by other companies.*

*The company defines Same Station net broadcast revenue as broadcast revenue from its radio stations and networks that the company owns or operates in the same format on the first and last day of each quarter, as well as the corresponding quarter of the prior year. The company defines Same Station broadcast operating expenses as broadcast operating expenses from its radio stations and networks that the company owns or operates in the same format on the first and last day of each quarter, as well as the corresponding quarter of the prior year. The company defines Same Station SOI as Same Station net broadcast revenue less Same Station broadcast operating expenses. Same Station operating results include those stations that the company owns or operates in the same format on the first and last day of each quarter, as well as the corresponding quarter of the prior year. Same Station operating results for a full calendar year are calculated as the sum of the Same Station-results for each of the four quarters of that year. The company uses Same Station operating results, a non-GAAP financial measure, both in presenting its results to stockholders and the investment community, and in its internal evaluations and management of the business. The company believes that Same Station operating results provide a meaningful comparison of period over period performance of its core broadcast operations as this measure excludes the impact of new stations, the impact of stations the company no longer owns or operates, and the impact of stations operating under a new programming format. The company's presentation of Same Station operating results are not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. The company's definition of Same Station operating results is not necessarily comparable to similarly titled measures reported by other companies.*

*For all non-GAAP financial measures, investors should consider the limitations associated with these metrics, including the potential lack of comparability of these measures from one company to another.*

*The Supplemental Information tables that follow the condensed consolidated financial statements provide reconciliations of the non-GAAP financial measures that the company uses in this earnings release to the most directly comparable measures calculated in accordance with GAAP. The company uses non-GAAP financial measures to evaluate financial performance, develop budgets, manage expenditures, and determine employee compensation. The company's presentation of this additional information is not to be considered as a substitute for or superior to the directly comparable measures as reported in accordance with GAAP.*

The company defines Adjusted Free Cash Flow (1) as Adjusted EBITDA (1) less cash paid for capital expenditures, less cash paid for income taxes, and less cash paid for interest. The company considers Adjusted Free Cash Flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated by its operations after cash paid for capital expenditures, cash paid for income taxes and cash paid for interest. A limitation of Adjusted Free Cash Flow as a measure of liquidity is that it does not represent the total increase or decrease in its cash balance for the period. The company uses Adjusted Free Cash Flow, a non-GAAP liquidity measure, both in presenting its results to stockholders and the investment community, and in its internal evaluation and management of the business. The company's presentation of Adjusted Free Cash Flow is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. The company's definition of Adjusted Free Cash Flow is not necessarily comparable to similarly titled measures reported by other companies.

The table below presents a reconciliation of Adjusted Free Cash Flow to net cash provided by operating activities, the most directly comparable GAAP measure. Adjusted Free Cash Flow is a non-GAAP liquidity measure that is not to be considered a substitute for or superior to the directly comparable measures reported in accordance with GAAP.
