This Presentation contains "forward-looking information" and "forward-looking statements" within the meaning of applicable securities laws, including with respect to Coveo's financial outlook on SaaS Subscription Revenue, Total Revenue and Adjusted Operating Loss for the three months ending on June 30, 2023 and the fiscal year ending March 31, 2024 and expectations around achieving positive operating cash flow and the timing thereof (collectively, "forward-looking information") within the meaning of applicable securities laws. #### Non-IFRS Measures and Ratios

The information presented in this Presentation includes non-IFRS financial measures and ratios. These measures and ratios should not be considered in isolation nor as a substitute for analysis of Coveo's financial information reported under IFRS. These measures and ratios are not recognized measures under IFRS and do not have a standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other companies. Rather, these non-IFRS financial measures and ratios are provided as additional information to complement those IFRS measures and ratios by providing further understanding of Coveo's results of operations from management's perspective. Coveo's management also uses non-IFRS financial measures and ratios in order to facilitate operating performance comparisons from period to period, to prepare annual operating budgets and forecasts, and to determine components of management compensation. Coveo believes the non-IFRS measures and ratios used in this Presentation provide its management and investors consistency and comparability with its past financial performance and facilitate period-to-period comparisons of operations, as they generally eliminate the effects of certain variables from period to period for reasons unrelated to overall operating performance. Please refer to the "Definition of Non-IFRS Measures and Ratios" section of the Appendix for details of the composition of Adjusted Operating Loss, Adjusted Gross Profit, Adjusted Product Gross Profit, Adjusted Professional Services Gross Profit, Adjusted Gross Profit (%), Adjusted Product Gross Profit (%), Adjusted Professional Services Gross Profit (%), Adjusted Sales and Marketing Expenses, Adjusted Research and Product Development Expenses, Adjusted General and Administrative Expenses, Adjusted Sales and Marketing Expenses (%), Adjusted Research and Product Development Expenses (%), Adjusted General and Administrative Expenses (%), SaaS Subscription Revenue at constant currency, total revenue at constant currency, SaaS Subscription Revenue growth at constant currency and total revenue growth at constant currency presented by Coveo, as well as the reconciliations of such measures to the most directly comparable IFRS measure, where applicable.

### Definition of Key Performance Indicators

"SaaS Subscription Revenue" means Coveo's SaaS subscription revenue, as presented in its financial statements in accordance with IFRS.

"Current SaaS Subscription Remaining Performance Obligations" is a forward-looking indicator of anticipated future revenue under contract that has not yet been recognized as revenue but that is expected to be recognized over the next 12 months, as presented in our financial statements in accordance with IFRS.

"Net Expansion Rate" is calculated by considering a cohort of customers at the end of the period 12 months prior to the end of the period selected, and dividing the SaaS Annualized Contract Value (as defined below) attributable to that cohort at the end of the current period selected, by the SaaS Annualized Contract Value attributable to that cohort at the beginning of the period 12 months prior to the end of the period selected. Expressed as a percentage, the ratio:

- Excludes any SaaS Annualized Contract Value from new customers added during the 12 months preceding the end of the period selected;
- Includes incremental SaaS Annualized Contract Value made to the cohort over the 12 months preceding the end of the period selected; and
- Is net of the SaaS Annualized Contract Value from any customers whose subscriptions terminated or decreased over the 12 months preceding the end of the period selected

"SaaS Annualized Contract Value" means the SaaS annualized contract value of a customer's commitments calculated based on the terms of that customer's subscriptions, and represents the committed annualized subscription amount as of the measurement date.
