QVC Group to Significantly Strengthen Financial Position as Company Continues Advancing Transformational Live Social Shopping Growth Strategy

Enters into Restructuring Support Agreement with Majority of Lenders to Substantially Reduce Debt, a Key Pillar of the WIN Growth Strategy

Initiates Voluntary Prepackaged Court-Supervised Process in the U.S. to Implement Financial Restructuring Plan; International Operations Excluded

Serving Customers Across All Channels and Platforms as Usual; Vendors to Be Paid in Full

WEST CHESTER, Pa., April 16, 2026 /PRNewswire/ -- QVC Group, Inc. ("QVC Group" or the "Company") today announced that it has entered into a Restructuring Support Agreement (the "RSA") with holders representing a significant majority of the Company's outstanding funded debt. The RSA outlines the terms of a comprehensive prepackaged financial restructuring plan that will substantially reduce the Company's debt and strengthen its financial position as it continues advancing its transformational WIN Growth Strategy to drive long-term growth and profitability as a leader in live social shopping across social platforms, streaming apps, ecommerce sites, stores and TV channels.

To implement that plan, the Company and certain of its U.S. subsidiaries, including QVC, Inc., have commenced voluntary Chapter 11 proceedings (the "Chapter 11 Cases") in the U.S. Bankruptcy Court for the Southern District of Texas (the "Bankruptcy Court"). QVC Group's international operations are not included in this process.

All QVC Group brands are operating as usual. The Company continues to serve its millions of customers across all channels and platforms for QVC, HSN, and Cornerstone Brands. The Company has ample liquidity to support the business and, importantly, the terms of the RSA provide for vendors, suppliers and all other general unsecured creditors of the filing entities to be paid in full for all goods and services. There are no planned layoffs or furloughs in connection with the financial restructuring process, and all team members should fully expect to continue receiving their wages and benefits without interruption.

"QVC Group is uniquely positioned to compete and win in live social shopping, and we are seeing early momentum in our WIN Growth Strategy," said David Rawlinson, President and Chief Executive Officer, QVC Group, Inc. "Over the past year, we have become a top seller on TikTok Shop U.S. while expanding our business on streaming and other platforms. We have consolidated our HSN and QVC operations, struck new deals with critical social and media partners, and rebalanced sourcing to account for the changing tariff environment. With the support of our lenders and a more appropriate capital structure, we believe we can deliver on our WIN Growth Strategy."

Mr. Rawlinson continued, "We remain focused on serving our customers with joyful and engaging shopping experiences that inspire, entertain and delight. We appreciate the ongoing support of our valued vendors and business partners, and we are grateful to our team members for their unwavering dedication to QVC Group and our customers. This process will allow for QVC Group to have the financial structure it needs to accelerate our return to growth."

All QVC Group Brands are Operating as Normal

As QVC Group moves forward, the customer experience remains the Company's top priority. On-air programming is continuing as normal and customers can continue to shop the Company's brands as always on broadcast TV, on streaming and social, through branded websites and apps, in-store, and through catalogs. For all brands, return policies and procedures remain the same. Gift cards and credits remain valid and promotional communications will continue as normal. Customers can continue to reach service teams through all normal support channels. All retail locations remain open and operating on normal schedules, and all store and merchandise policies remain the same. Branded credit cards will continue to function normally.

Returning to Growth Through Transformational WIN Growth Strategy

Over the past several years, QVC Group has navigated significant changes in how consumers discover and purchase products. The rapid growth of mobile devices, social platforms and streaming services has fundamentally shifted video consumption, while traditional cable television – historically the foundation of the Company's business model – has experienced structural decline.

In response, the Company launched its three-year WIN Growth Strategy to reposition QVC Group to drive the future of live social shopping. The strategy focuses on reaching customers **Wherever She Shops**, engaging customers with **Inspiring People and Products** and driving operating efficiencies with **New Ways of Working**.

The transformation is already showing measurable results. QVC Group acquired nearly 1 million new U.S. customers on TikTok Shop in 2025, leading QVC US to grow its total customer file in 2025 for the first time in over four years. The QVC+ and HSN+ streaming service now has 1.5 million monthly active users and sales attributed to streaming grew 19% in 2025.

A stronger balance sheet, together with revenue growth from social and streaming, is expected to enable QVC Group to stabilize and return to sustainable growth over time.

Additional Information About the RSA

On April 16, 2026, QVC Group, together with certain of its direct and indirect subsidiaries, entered into the RSA with majority lender support. Pursuant to the RSA, QVC Group's principal amount of debt (as of December 31, 2025) will be reduced from approximately \$6.6 billion to \$1.3 billion, and the newly deleveraged company will emerge as Reorganized QVC, Inc.

QVC Group's subsidiaries and entities outside of the U.S. are not included in the court-supervised process underway in the U.S. The only exception is a non-operating subsidiary in Luxembourg that has no team members, customers, vendors or business partners. The Company's global business operations are continuing as normal – including customer-facing operations in the UK, Germany, Japan, and Italy – and they are paying vendors and suppliers as usual across all of these geographies.

Due to the prepackaged nature of the financial restructuring, the Company expects to complete this process on an expedited basis and, pursuant to the RSA, is targeting emergence within approximately 90 days.

The Company had over \$1 billion in domestic cash and cash equivalents as of December 31, 2025. Together with cash generated from ongoing operations, QVC Group has ample liquidity to meet its business obligations during the U.S. court-supervised process. Under the terms of the RSA, all third-party general unsecured creditors will be unimpaired, with their claims to be paid in full or reinstated.

The Company and QVC, Inc. have filed a number of customary motions with the Bankruptcy Court to support its operations during this process, including the continued payment of U.S. employee wages and benefits without interruption. The Company expects to receive Bankruptcy Court approval for these requests shortly.

Additional information regarding the court-supervised financial restructuring process is available at forward.qvcgrp.com.
