# **To Offset Rising Operating Costs and Continue Best-In-Class Expedited Service, Forward Air to Increase Surcharge on Origin California Shipments**

GREENEVILLE, Tenn.--(BUSINESS WIRE)-- Forward Air Corporation (NASDAQ: FWRD) (the "Company" or "Forward") is executing a growth strategy that involves organic infrastructure investments as well as acquisitions of complementary businesses. Today, Forward announces a five percent increase on its California surcharge. The surcharge will be applied to all origin California shipments tendered on or after Sept. 1, 2020.

A dramatic increase in imports from Asia into California has created a strain on the supply chain, leading to difficulties in taking delivery of containers at the ports, chassis shortages at the terminals and delays in returning empty containers. This pressure has led to increased operating costs. As an expedited carrier, Forward provides a premium service, operating on-demand without the long lead times that traditional carriers require.

Tom Schmitt, President, Chairman and CEO said, "As the national economy continues to recover, we are seeing ocean freight pouring in, creating challenges at the ports and terminals. Until freight flow in California normalizes, we will make necessary adjustments that allow us to continue providing world-class service to our customers."

This press release may contain statements that might be considered as forward-looking statements or predictions of future operations including with respect to the expected growth and future performance of the Company and the ability of the Company to make necessary adjustments that will allow it to continue providing world-class service to its customers. Such statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and are based on management's belief or interpretation of information currently available. These statements and assumptions involve certain risks and uncertainties including that the recovery of the national economy is slower than expected, that imports from Asia to California decrease, that the surcharge will not be enough to

mitigate higher operating costs and that the Company is not able to achieve its planned growth and expansion. Actual events may also differ from these expectations as a result of the risks identified from time to time in our filings with the Securities and Exchange Commission. You should consider the forward-looking statement contained herein in light of such risks. We assume no duty to update these statements as of any future date.
