#### **Non-GAAP Financial Measures**

To supplement the financial results presented in accordance with generally accepted accounting principles in the United States ("GAAP"), HireRight presents certain non-GAAP financial measures. A "non-GAAP financial measure" is a numerical measure of a company's financial performance that excludes amounts that are included in the most directly comparable measure calculated and presented in accordance with GAAP, or that includes amounts that are excluded from the most directly comparable measure calculated and presented in accordance with GAAP in the statements of operations, balance sheets or statements of cash flow of the Company.

We believe that the presentation of our non-GAAP financial measures provides information useful to investors in assessing our financial condition and results of operations. These measures should not be considered an alternative to net income (loss) or any other measure of financial performance or liquidity presented in accordance with GAAP. These measures have important limitations as analytical tools because they exclude some but not all items that affect the most directly comparable GAAP measures. Additionally, to the extent that other companies in our industry, define similar non-GAAP measures differently than we do, the utility of those measures for comparison purposes may be limited.

The non-GAAP financial measures presented in this earnings release and/or included in management's commentary on the earnings call described above, are Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income, and Adjusted Diluted Earnings Per Share. Reconciliations of these non-GAAP financial measures to the most directly comparable measures calculated and presented in accordance with GAAP are provided as schedules attached to this release.

## Adjusted EBITDA and Adjusted EBITDA Margin

Adjusted EBITDA represents, as applicable for the period, net income (loss) attributable to HireRight Holdings Corporation before income from noncontrolling interest, interest expense, income taxes, depreciation and amortization expense, stock-based compensation, realized and unrealized gain (loss) on foreign exchange, restructuring charges, amortization of cloud computing software costs, legal settlement costs deemed by management to be outside the normal course of business, and other items management believes are not representative of the Company's core operations. Adjusted EBITDA Margin is defined as Adjusted EBITDA divided by revenues for the period. Adjusted EBITDA and Adjusted EBITDA Margin are supplemental financial measures that management and external users of our financial statements, such as industry analysts, investors, lenders and rating agencies, may use to assess our:

- Operating performance as compared to other publicly traded companies without regard to capital structure or historical cost basis;
- Ability to generate cash flow;
- Ability to incur and service debt and fund capital expenditures; and
- Viability of acquisitions and other capital expenditure projects and the returns on investment of various investment opportunities.

## Adjusted Net Income and Adjusted Diluted Earnings Per Share

In addition to Adjusted EBITDA, management believes that Adjusted Net Income is a strong indicator of our overall operating performance and is useful to our management and investors as a measure of comparative operating performance from period to period. We define Adjusted Net Income as net income (loss) attributable to HireRight Holdings Corporation adjusted for income from noncontrolling interest, amortization of acquired intangible assets, loss on modification and extinguishment of debt, stock-based compensation, realized and unrealized gain (loss) on foreign exchange, restructuring charges, amortization of cloud computing software costs, legal settlement costs deemed by management to be outside the normal course of business, and other items management believes are not representative of the Company's core operations, to which we apply a blended statutory tax rate. See the footnotes to the table below for a description of certain of

these adjustments. We define Adjusted Diluted Earnings Per Share as Adjusted Net Income divided by the weighted average number of shares outstanding (diluted) for the applicable period. We believe Adjusted Diluted Earnings Per Share is useful to investors and analysts because it enables them to better evaluate per share operating performance across reporting periods and to compare our performance to that of our peer companies.

- (1) During the three months ended September 30, 2022, the Company determined sufficient positive evidence existed to reverse the Company's valuation allowance attributable to the deferred tax assets associated with the Company's operations in the U.S. This reversal resulted in a non-cash deferred tax benefit of \$70.2 million, which materially decreased the Company's income tax expense during the three and nine months ended September 30, 2022.
- (2) Restructuring charges represent costs incurred in connection with the Company's global restructuring plan. Costs incurred in connection with the plan include: (i) \$3.3 million and \$11.1 million of severance and benefits related to impacted employees during the three and nine months ended September 30, 2023, respectively, (ii) \$1.4 million and \$8.6 million of professional service fees related to the execution of our cost savings initiatives during the three and nine months ended September 30, 2023, respectively, (iii) \$0.4 million and \$2.6 million related to the abandonment of certain of our leased facilities during the three and nine months ended September 30, 2023, respectively, and (iv) \$0.9 million and \$1.6 million related to the replacement of certain internal technology systems during the three and nine months ended September 30, 2023, respectively.
- (3) Technology investments represent costs associated with the impairment of certain of our cloud computing software costs during the three and nine months ended September 30, 2023 and discovery phase costs associated with various platform and fulfillment technology initiatives that are intended to achieve greater operational efficiencies during the three and nine months ended September 30, 2022.
- (4) Amortization of cloud computing software costs consists of expense recognized in selling, general and administrative expenses for capitalized implementation costs for cloud computing IT systems incurred in connection with our platform and fulfillment technology initiatives that are intended to achieve greater operational efficiencies. This expense is not included in depreciation and amortization above.
- (5) Other items for the three and nine months ended September 30, 2023 consist primarily of (i) an insurance recovery and related professional services fees of \$6.8 million, net of fees payable to the Company's outside counsel, in connection with litigation related to a predecessor entity of the Company for a claim dating back to 2009 and deemed to be outside the ordinary course of business. The reduction related to the insurance recovery is offset by (i) professional services fees of \$0.6 million pertaining to other financing activities for both the three and nine months ended September 30, 2023, and (ii) \$0.5 million and \$1.2 million of professional services fees not related to core operations during the three and nine months ended September 30, 2023, respectively. Other items for the three and nine months ended September 30, 2022 include (i) costs of \$0.4 million and \$1.7 million associated with the implementation of a company-wide enterprise resource planning system during the three and nine months ended September 30, 2022, respectively, (ii) \$1.0 million and \$1.6 million of severance costs during the three and nine months ended September 30, 2022, (iii) \$0.4 million related to professional services fees not related to core operations for the three and nine months ended September 30, 2022, and (iv) \$0.2 million related to loss on disposal of assets and exit costs associated with one of our short-term leased facilities during the nine months ended September 30, 2022 partially offset by a reduction in previously accrued legal settlement expense of \$0.6 million during the nine months ended September 30, 2022 due to a more favorable outcome than originally anticipated in a claim outside the ordinary course of business.
- (6) Net income (loss) margin represents net income (loss) divided by revenues for the period.

The reduction related to the insurance recovery is offset by (i) professional services fees of \$0.6 million pertaining to other financing activities for both the three and nine months ended September 30, 2023, and (ii) \$0.5 million and \$1.2 million of professional services fees not related to core operations during the three and nine months ended September 30, 2023, respectively.
