Telkonet Announces Business Update Conference Call

GERMANTOWN, Md.--

Telkonet, Inc. (AMEX:TKO), the leading technology solutions provider for broadband networking, end-to-end service support and energy management, today announced it will conduct a conference call on Thursday, November 8, 2007 at 2 p.m. EST to provide investors with an update on the growth initiatives at the company.

Ron Pickett, president and CEO of Telkonet commented, "We continued to realize strong top line growth during the September quarter driven by our energy management, hospitality and government systems businesses and we expect this strong top line growth to continue into the December quarter and into 2008. We invite current and prospective investors to join us as we provide a comprehensive update of activities at the company and outline our growth initiatives."

Interested parties will be able to listen to the call by clicking on the following web link: <http://viavid.net/dce.aspx?sid=0000484A> or by copying the address into an Internet browser. The call will also be available by dialing (480) 629-9562 when calling within the United States or internationally. There will be a playback of the call available until November 15, 2007. To listen to the playback, please call (303)590-3030 when calling within the United States or internationally and enter pass code 3804325.

About Telkonet

Telkonet specializes in integrated solutions for broadband data networking and energy management, including in-building powerline communications (PLC) technology. Headquartered in Germantown, Maryland, USA, Telkonet serves thousands of customers worldwide.

Telkonet's technology innovation is underpinned by end-to-end quality of service and comprehensive customer support. Its portfolio includes:

- The revolutionary Telkonet iWire System(TM), converting sites' existing internal electrical infrastructures into an IP network backbone.
- The integrated EthoStream platform for wired and wireless HSIA, differentiated by outstanding remote management tools and dedicated customer support facilities.
- Telkonet SmartEnergy, achieving 30% energy savings through intelligent in-room energy management.
