### **About Telkonet**

Telkonet is the leading provider of innovative, centrally managed solutions for integrated energy management, wired and wireless networking, building automation and proactive customer support services. The company's unique broadband networking solutions support more than 2 million network users per month, with its energy management systems dynamically lowering HVAC costs in over 95,000 rooms.

Telkonet's approach is designed to deliver complete system control and flexibility. Using the Software-as-a-Service (SaaS) model, Telkonet's products are all networked, enabling local and remote access via Telkonet's web-based platform, Telkonet CENTRAL. This essential management tool enables both property management and Telkonet customer support staff to monitor and manage all of Telkonet's systems proactively in real time, reducing costs and streamlining network support.

Telkonet's technology innovation is underpinned by the highest level of end-to-end quality of service, with comprehensive technical customer support. Telkonet's platforms are widely deployed on the global stage - in single buildings and ships, in multi-building complexes, hospitality venues, multi-dwelling units, and utilities.
