## **Telkonet Announces Special Promotions at HITEC 2014**

### **Select the EcoSmart Energy Management System and Save!**

MILWAUKEE, June 20, 2014 /PRNewswire/ -- Telkonet, Inc., (OTCQB: TKOI), whose complementary business divisions include EcoSmart, an intelligent energy management technology solution and EthoStream, one of the largest high-speed Internet Access (HSIA) providers in the world, will be offering special promotions on their EcoSmart Energy Management System for first-time customers through the end of June, 2014. The EcoSmart suite of products is compatible across most HVAC systems, and integrates with building automation and property management systems for complete control.

The HITEC promotion includes a complimentary full-year of Telkonet's EcoCare Service & Support program. EcoCare is a 24/7/365 support program that provides property owners with a path to continued energy savings through equipment monitoring, maintenance, firmware upgrades, and customer support so the EcoSmart system operates in the most efficient manner possible as well as maximizes customer savings. Telkonet is also offering, complete monitoring of the EcoSmart system; which includes Telkonet's revolutionary Virtual Engineer™ technology for the complete property.

"We are excited to offer this special promotion to first-time customers," stated Chad Burow, Telkonet's Director of Marketing and Sales. "They'll be able to take advantage of great cost savings on their energy management system, while maintaining guest comfort," he also stated.

During the four day show, June 23rd - 26th, Telkonet will be demonstrating their EcoSmart Energy Management System and EthoStream High Speed Internet Access (HSIA) network - booth numbers 855 and 858. Show visitors can stop by the booths and speak with a sales representative for additional information.

### **ABOUT TELKONET**

Telkonet, a leading US-based energy management technology provider offers hardware, software and services to commercial customers worldwide. The EcoSmart suite of products, which includes EcoInsight and EcoWave intelligent thermostats, the EcoView occupancy sensor and the EcoGuard energy management outlet, can be deployed in most building

environments to cut utility costs and enable remote monitoring and control using the EcoCentral management platform. Telkonet's energy management products have the power to reduce energy consumption, minimize carbon footprints and help reduce the need for the construction of new power plants.
