# **CBRE Property Management Forges Strategic Partnership with Deepki to Help Property Owners Worldwide Meet Sustainability Goals**

DALLAS--(BUSINESS WIRE)-- CBRE Group, Inc. (NYSE:CBRE) today announced that its property management group has formed a global strategic partnership with Deepki that will bring Deepki Ready, one of the world's most extensive landlord-focused real estate sustainability data-intelligence platforms to the commercial properties CBRE manages for investors around the world.

CBRE has been using Deepki for properties it manages in the United Kingdom for more than two years; Deepki is now being deployed across CBRE-managed properties throughout Continental Europe, with plans to begin using Deepki in the Americas and the Pacific region as the next step in a global rollout. In an exclusive reseller agreement, CBRE can also offer Deepki Ready directly to its property management clients in the Americas and Asia Pacific region.

In addition, CBRE will make a strategic investment in the rapidly growing, nine-year-old software-as-a-service (SaaS) company, securing a minority share.

"Property owners are increasingly turning to CBRE for help in meeting their decarbonization and other sustainability goals," said Emma Buckland, global president of Property Management at CBRE. "Deepki is a leading sustainability data-intelligence platform for real estate that provides deep insights that will enable our teams to take informed actions at the building level. This will help us embed sustainability best practices—and add real value—at properties we manage around the world."

Operating in more than 50 countries, Deepki's platform enables its customers to collect energy, water and waste consumption data, gain a comprehensive view of environmental performance at a portfolio- and asset-level, establish investment plans to reach net zero, and measure results. It provides superior capabilities for meeting increasingly stringent regulatory and other reporting requirements, as well as for voluntary sustainability initiatives.

Commenting on the new partnership, Vincent Bryant, CEO and co-founder of Deepki, said: "We are extremely proud to be partnering with CBRE, whose outstanding reputation in the real estate space speaks for itself. This partnership is a validation of our market-leading solution and marks a crucial step in our go-to-market strategy to help real estate players tackle climate change and meet net zero targets, particularly in the Americas and the Asia Pacific region."

Buildings are reportedly responsible for approximately 40% of the world's carbon emissions,

and many institutional investors and multinational corporations, including CBRE, have joined the global effort to combat climate change by pledging to reach net zero emissions by 2040.

In March 2022, Deepki raised €150 million in a Series C round of funding, which was jointly led by Highland Europe and One Peak Partners. Other investors include Bpifrance, through their Large Venture fund, Revaia, Hi Inov, Demeter and Statkraft Ventures.

### About Deepki

Founded in 2014, Deepki has developed a SaaS solution that uses data intelligence to guide real estate players in their net zero transition. The solution leverages customer data to improve assets' environmental performance and maximize asset value. Deepki operates in 52 countries, with over 350 team members across offices in Paris, London, Berlin, Milan and Madrid. Deepki serves clients including Generali Real Estate, SwissLife Asset Managers and the French government, helping to make their real estate assets more sustainable at scale.

### Forward-Looking Statements

Certain of the statements in this release regarding the partnership with Deepki SAS that do not concern purely historical data are forward-looking statements within the meaning of the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995.

Forward-looking statements are made based on our management's expectations and beliefs concerning future events affecting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Accordingly, actual performance, results and events may vary materially from those indicated in forward-looking statements, and you should not rely on forward-looking statements as predictions of future performance, results or events.

Numerous factors could cause actual future performance, results and events to differ materially from those indicated in forward-looking statements, including, but not limited to, the ability to integrate Deepki's databases with CBRE's Property Management platform and to use Deepki's data and insights to enhance the value delivered to commercial property owners around the world, as well as other risks and uncertainties discussed in our filings

with the U.S. Securities and Exchange Commission (SEC). Any forward-looking statements speak only as of the date of this release. We assume no obligation to update forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except to the extent required by applicable securities laws. If we do update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements. For additional information concerning factors that may cause actual results to differ from those anticipated in the forward-looking statements and other risks and uncertainties to our business in general, please refer to our SEC filings, including our Form 10-K for the fiscal year ended December 31, 2022 and our Form 10-Q for the period ended March 31, 2023. Such filings are available publicly and may be obtained from our website at [www.cbre.com](http://www.cbre.com) or upon request from the CBRE Investor Relations Department at [investorrelations@cbre.com](mailto:investorrelations@cbre.com).
