Although we believe that our forward-looking statements to be reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ from those expressed or implied by the forward-looking statements. These factors include the following:

- a failure to maintain adequate levels of capital and liquidity to support our operations;

- difficult business and economic conditions that can adversely affect our industry and business, including lack of soundness of other financial institutions, fraudulent activity and negative publicity;

Further, given its ongoing and dynamic nature, it is difficult to predict the continuing impact of the COVID-19 outbreak on our business. The extent of such impact will depend on future developments, which are highly uncertain, including when the coronavirus can be controlled and abated and whether the continued reopening of businesses will result in a meaningful increase in economic activity. As the result of the COVID-19 pandemic and the related adverse local and national economic consequences, we could be subject to any of the

following risks, any of which could have a material, adverse effect on our business, financial condition, liquidity, and results of operations:

- demand for our products and services may decline;
- if the economy is unable to substantially reopen, and higher levels of unemployment continue for an extended period of time, loan delinquencies, problem assets, and foreclosures may increase;
- collateral for loans, especially real estate, may decline in value, which could cause loan losses to increase;
- our allowance for credit losses may have to be increased if borrowers experience financial difficulties;
- a worsening of business and economic conditions or in the financial markets could result in an impairment of certain intangible assets, such as goodwill or our servicing assets;
- the net worth and liquidity of loan guarantors may decline, impairing their ability to honor commitments to us;
- a material decrease in net income or a net loss over several quarters could result in the elimination or a decrease in the rate of our quarterly cash dividend;
- litigation, regulatory enforcement risk and reputation risk regarding our participation in the Paycheck Protection Program and the risk that the Small Business Administration may not fund some or all PPP loan guaranties;
- our cyber security risks are increased as the result of an increase in the number of employees working remotely;
- FDIC premiums may increase if the agency experiences additional resolution costs; and
- the unanticipated loss or unavailability of key employees due to the outbreak, which could harm our ability to operate our business or execute our business strategy, especially as we may not be successful in finding and integrating suitable replacements.

In addition, we set forth certain risks in our reports filed with the U.S. Securities and Exchange Commission, including, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2020, our Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K that we will file hereafter, which could cause actual results to differ from those projected. We undertake no obligation to update such forward-looking statements except as required by law.
