Motus GI Hosting Key Opinion Leader Call on Improving Endoscopy Outcomes with the Pure-Vu® System

FORT LAUDERDALE, Fla., Oct. 13, 2020 (GLOBE NEWSWIRE) -- [Motus GI Holdings, Inc.](#), (NASDAQ: MOTS) ("Motus GI" or the "Company"), a medical technology company providing endoscopy solutions that improve clinical outcomes and enhance the cost-efficiency associated with the diagnosis and management of gastrointestinal conditions, announced today that it will host a key opinion leader (KOL) call on improving inpatient endoscopy outcomes with the Pure-Vu® system on Friday, October 16, 2020.

The webinar will feature a presentation by KOL Seth Gross, MD, NYU Langone, who will discuss:

- The unmet needs and challenges associated inpatient colonoscopy
- The benefits to patients in reducing time in the hospital, especially during the COVID-19 pandemic
- Mitigating increasing costs to hospitals due to delayed / incomplete procedures

Dr. Gross will be available to answer questions following the formal presentation.

Motus GI's management team will also provide an update on the Pure-Vu® System, a U.S. FDA cleared medical device indicated to help facilitate the cleaning of a poorly prepared colon during the colonoscopy procedure. The device integrates with standard and slim colonoscopes to enable safe and rapid cleansing during the procedure while preserving established procedural workflow and techniques. Within the last year, the Company initiated its commercial launch of the Pure-Vu System in the U.S. with an initial focus on inpatient colonoscopy. The system is currently in more than 20 major U.S. hospitals, including NYU Langone Medical Center, Cleveland Clinic, UC-Irvine Health, UCLA Health, University of Texas, Memorial Hermann and Geisinger Medical Center.
