Information Systems Associates Signs an Implementation Partner Agreement With Raritan, Inc.

PALM CITY, Fla., May 9, 2011 (GLOBE NEWSWIRE) -- Information Systems Associates, Inc. (OTCQB:IOSA), a company focused on Data Center Data Collection, Data Center Infrastructure Management (DCIM), and Mobile Data Center Management, today announces that it has signed an Implementation Partner Agreement with Raritan, Inc. in support of Raritan's dcTrack DCIM software solution.

dcTrack DCIM software helps data centers track their IT and facilities assets, providing valuable information on where best to place servers and devices in racks, as well as how best to provision network, cabling, and power connectivity to those devices. In addition to real-time information on servers, networking and facilities elements, dcTrack provides details on power consumption, heat dissipation, raised floor space and rack elevations -- providing a complete and accurate view of a data center's infrastructure.

As a Certified dcTrack Implementation Partner, ISA will provide implementation services to dcTrack customers. ISA will utilize its patented On Site Physical Inventory mobile solution to capture the data required for dcTrack, and will make the technology available to dcTrack customers.

Joe Coschera, the Chief Executive Officer of Information Systems Associates, stated, "This announcement represents another important milestone for our Company. We recently announced several important initiatives that will contribute to our growth. Being selected to offer our data center data collection services to Raritan's customers and resellers is another important step in the direction that we are now following. We expect to make similar exciting announcements during the remaining period in 2011 as we continue to build our partnerships."

Vicki Zona, Channel Sales Director, stated, "Raritan welcomes Information Systems Associates, Inc. as a dcTrack Implementation Partner and we look forward to utilizing ISA's data center data collection services along with its patented OSPI® system to support our customers and resellers. Information Systems Associates, Inc. has begun the process of becoming a Raritan dcTrack Certified Implementation Partner. This certification is only granted to those companies who commit qualified resources and demonstrate a thorough understanding of the dcTrack product."

About Information Systems Associates
