Information Systems Associates Signs a Reseller Agreement and Subcontractor Master Services Agreement With SHI International Corp.

PALM CITY, Fla., June 14, 2011 (GLOBE NEWSWIRE) -- Information Systems Associates, Inc. (OTCQB:IOSA), a company focused on Data Center Data Collection, Data Center Infrastructure Management (DCIM) and Mobile Data Center Management, today announces that it has signed a Reseller Agreement and Subcontractor Master Services Agreement with SHI International Corp. in support of ISA's patented data center asset management solution, On Site Physical Inventory (OSPI).

SHI will act as a fulfillment agent in the sale of Information Systems Associates, Inc. products and services. SHI will engage Information Systems Associates, Inc. to deliver the OSPI installation, training, data collection and audit services for its customers.

Joe Coschera, the Chief Executive Officer of Information Systems Associates, stated, "The relationship with SHI represents several key advantages for ISA in the distribution of the OSPI system and services. ISA's products and services will be available to SHI's vast database of industry clients. Through SHI's relationship with its clients, the procurement lifecycle for ISA direct sales can be reduced from the typical 3 months (and sometimes longer) to weeks for those clients who have an existing procurement contract in place with SHI."
