ISA's Duos Technologies Awarded Contract by Sheriff's Office of Monroe County, Florida

Surveillance Upgrade Includes Centraco Platform

JACKSONVILLE, FL / ACCESSWIRE / May 26, 2015 /Information Systems Associates Inc.'s (IOSA) wholly-owned subsidiary Duos Technologies, a provider of intelligent security analytical technology solutions, has been awarded a contract by the Monroe County's (of Florida) Sheriff Office (MCSO) to upgrade their legacy correctional facilities surveillance systems. The upgrade includes deployment of centraco 3.0, Duos Technologies third-generation intelligent command and control software platform. Centraco 3.0 is a powerful enterprise-level software management suite, which incorporates the traditional "Physical Security Information Management" ("PSIM") functionality with a comprehensive Enterprise Information System ("EIS") feature set.

"Our Centraco application provides numerous state-of-the-art features and integration capabilities not available in the existing system," stated Felix Krupczynski, EVP & GM for ISA Duos Technologies. "This is a critical step that provides the MCSO expansion paths to minimize future costs as they look to expand surveillance capabilities and functionality."

Gianni Arcaini, Chairman and CEO of ISA Duos Technologies, stated, "We have had the pleasure of providing the MCSO the required technologies and support for their surveillance systems for the past seven years. We are delighted to be able to continue to enhance their system and provide the MCSO the latest in technology software platforms that strengthen and reinforce their surveillance capabilities. Our platforms truly provide the necessary foundations for operational effectiveness for a variety of industries including law enforcement."

About Information Systems Associates Inc./ Duos Technologies Inc.

Information Systems Associates Inc. (OTC Markets: IOSA), based in Jacksonville, FL, provides intelligent security analytical technology solutions with a strong portfolio of intellectual property. Its Duos Technologies' core competencies include advanced intelligent technologies that are delivered through its proprietary integrated enterprise command and control platform, centraco™. Forward-Looking Statements

This press release contains forward-looking statements that involve substantial uncertainties and risks. These forward-looking statements are based upon our current expectations, estimates and projections and reflect our beliefs and assumptions based upon information available to us at the date of this release. We caution readers that forward-looking statements are predictions based on our current expectations about future events. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Our actual results, performance or achievements could differ materially from those expressed or implied by the forward-looking statements as a result of a number of factors, including but not limited to, the technical capabilities of our centraco 3.0 command control platform to work with end users' applications and the market acceptance of the platform, competing control platforms, our ability to tap into the relevant potential markets, the sufficiency and availability of working capital and general changes in economic conditions. Further information on our risk factors is contained in our filings with the SEC, including the Form 10-K for the year ended December 31, 2014. Any forward-looking statement made by us herein speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to revise or update any forward-looking statement for any reason.
