Duos Technologies Displays Imaging Inspection Technology at North American Railway Interchange 2015 Conference

Demonstrating Technology to Improve the Accuracy and Effectiveness of Railcar Inspections

JACKSONVILLE, FL -- (Marketwired) -- 10/06/15 -- Duos Technologies Group (OTCQB: DUOT), a provider of intelligent security analytical technology solutions, is displaying its Vehicle Undercarriage Examiner (vue™) system as part of Railway Interchange 2015, the largest gathering of the North American rail industry that focuses on the technology and trends that keep railroads going. The vue™ system is part of Duos' proprietary Railcar Inspection Portal (rip™) technology, the company's latest innovation that combines several of the company's proprietary intelligent technologies and sub-systems using analytical algorithms to process and evaluate a broad range of data from multiple sensor technologies.

Duos Technologies exhibits at booth #1215.

<http://www.railwayinterchange.org>

Railway Interchange 2015, which runs through October 7 in Minneapolis, MN, combines the technical conferences of the American Railway Engineering and Maintenance-of-Way Association (AREMA) and Coordinated Mechanical Associations (CMA) and the exhibits of Railway Supply Institute (RSI), Railway Engineering-Maintenance Suppliers Association (REMSA) and Railway Systems Suppliers, Inc. (RSSI).

"Duos' vue™ system expands the inspection and detection capabilities of the manual process with enhanced mechanical inspection imaging at speeds up to 70 MPH, thereby substantially improving the accuracy and effectiveness of railcar inspections," stated Felix Krupczynski, EVP & GM for Duos Technologies. "We are excited to be a part of Railway Interchange 2015 and to display the effectiveness of these systems."

About Duos Technologies Group Inc.

Duos Technologies Group, Inc. (OTCQB: DUOT), based in Jacksonville, FL, provides intelligent security analytical technology solutions with a strong portfolio of intellectual property. The Company's core competencies include advanced intelligent technologies that are delivered through its proprietary integrated enterprise command and control platform, centraco™. The Company provides its broad range of technology solutions with an emphasis on mission critical security, inspection and operations within the rail, utilities, petrochemical, healthcare, and hospitality sectors.
