The acquisition is expected to close in approximately 12 months, subject to customary closing conditions, including regulatory clearances and approval by Meggitt’s shareholders.

“The combination of Parker and Meggitt is an exciting opportunity for both companies’ team members, customers, shareholders and communities,” said Tom Williams, Chairman and Chief Executive Officer. “We strongly believe Parker is the right home for Meggitt. Together, we can better serve our customers through innovation, accelerated R&D and a complementary portfolio of aerospace and defense technologies.

“We are committed to being a responsible steward of Meggitt and are pleased our acquisition has the full support of Meggitt’s Board. We fully understand these responsibilities and are making a number of strong commitments that reflect them. During our longstanding presence in the UK we have built great respect for Meggitt, its heritage, and its place in British industry. Our own journey over more than 100 years has taught us the importance of a strong culture and reputation.”
Outlook
For the fiscal year ending June 30, 2022, the company has issued guidance for earnings per share to the range of $14.08 to $14.88, or $16.20 to $17.00 on an adjusted basis. Guidance assumes organic sales growth of approximately 5% to 9% compared with the prior year. Fiscal 2022 guidance is adjusted on a pre-tax basis for expected business realignment expenses of approximately $35 million, LORD costs to achieve of approximately $7 million and acquisition-related intangible asset amortization of approximately $320 million. A reconciliation of forecasted earnings per share to adjusted forecasted earnings per share is included in the financial tables of this press release.

Williams added, “We are encouraged by the positive demand trends across many of our end markets and anticipate a continued recovery in commercial aerospace during fiscal 2022. We expect this improving macro-economic outlook to enhance the impact of our continued actions to drive profitable growth by executing the Win Strategy and delivering top quartile financial performance.”

Note on Orders
Orders provide near-term perspective on the company's outlook, particularly when viewed in the context of prior and future quarterly order rates. However, orders are not in themselves an indication of future performance. All comparisons are at constant currency exchange rates, with the prior year restated to the current-year rates. All exclude acquisitions until they can be reflected in both the numerator and denominator. Aerospace comparisons are rolling 12-month average computations. The total Parker orders number is derived from a weighted average of the year-over-year quarterly % change in orders for Diversified Industrial North America and Diversified Industrial International, and the year-over-year 12-month rolling average of orders for the Aerospace Systems Segment.

Note on Inventories
During the fourth quarter of fiscal 2021, the company voluntarily changed its method of accounting for certain domestic inventory previously valued by the last-in, first-out (LIFO) method to the first-in, first-out (FIFO) method. This accounting change has been retrospectively applied to all periods presented in the financial tables of this press release.

Note on Net Income
Net income referenced in this press release is equal to net income attributable to common shareholders.
Note on Non-GAAP Financial Measures
This press release contains references to non-GAAP financial information including (a) adjusted earnings per share; (b) adjusted total segment operating margin; (c) EBITDA margin; and (d) adjusted EBITDA margin. The adjusted earnings per share and total segment operating margin measures are presented to allow investors and the company to meaningfully evaluate changes in earnings per share and total segment operating margin on a comparable basis from period to period. This press release also contains references to EBITDA, EBITDA margin and adjusted EBITDA margin. EBITDA is defined as earnings before interest, taxes, depreciation and amortization. Although EBITDA, EBITDA margin and adjusted EBITDA margin are not measures of performance calculated in accordance with GAAP, we believe that they are useful to an investor in evaluating the results of this quarter versus the prior period. A reconciliation of non-GAAP measures is included in the financial tables of this press release.

Forward-Looking Statements
Forward-looking statements contained in this and other written and oral reports are made based on known events and circumstances at the time of release, and as such, are subject in the future to unforeseen uncertainties and risks. Often but not always, these statements may be identified from the use of forward-looking terminology such as “anticipates,” “believes,” “may,” “should,” “could,” “potential,” “continues,” “plans,” “forecasts,” “estimates,” “projects,” “predicts,” “would,” “intends,” “expects,” “targets,” “is likely,” “will,” or the negative of these terms and similar expressions, and include all statements regarding future performance, earnings projections, events or developments. Neither Parker nor any of its respective associates or directors, officers or advisers, provides any representation, assurance or guarantee that the occurrence of the events expressed or implied in any forward-looking statements in this press release will actually occur. Parker cautions readers not to place undue reliance on these statements. It is possible that the future performance and earnings projections of the company, including its individual segments, may differ materially from past performance or current expectations, depending on economic conditions within its mobile, industrial and aerospace markets, and the company’s ability to maintain and achieve anticipated benefits associated with announced realignment activities, strategic initiatives to improve operating margins, actions taken to combat the effects of the current economic environment, and growth, innovation and global diversification initiatives. Additionally, the actual impact of changes in tax laws in the United States and foreign jurisdictions and any judicial or regulatory interpretation thereof on future performance and earnings projections may impact the company’s tax calculations. A change in the economic conditions in individual markets may have a particularly volatile effect on segment performance.

the expected synergies and value creation from the proposed acquisition will not be realized

risk factors discussed in Parker’s Annual Report on Form 10-K for the fiscal year ended

undertake business realignment activities and the expected costs thereof and, if undertaken,
the ability to complete such activities and realize the anticipated cost savings from such
activities; ability to implement successfully capital allocation initiatives, including timing, price
and execution of share repurchases; availability, limitations or cost increases of raw
materials, component products and/or commodities that cannot be recovered in product
pricing; ability to manage costs related to insurance and employee retirement and health
care benefits; legal and regulatory developments and changes; compliance costs associated

ultimate resolution of outstanding legal proceedings, including the outcome of any appeals;
global competitive market conditions, including global reactions to U.S. trade policies, and
resulting effects on sales and pricing; and global economic factors, including manufacturing
activity, air travel trends, currency exchange rates, difficulties entering new markets and
general economic conditions such as inflation, deflation, interest rates and credit availability;
local and global political and economic conditions; inability to obtain, or meet conditions
imposed for, required governmental and regulatory approvals; changes in consumer habits
and preferences; foreign exchange rate fluctuations and interest rate fluctuations (including
those from any potential credit rating decline); government actions and natural phenomena
such as floods, earthquakes, hurricanes and pandemics; and success of business and
