Twin Vee PowerCats Announces Repeat Order of Custom 400 GFX2 from Exuma Water Sports

FORT PIERCE, FL / [ACCESS Newswire](#) / May 6, 2026 / [Twin Vee PowerCats Co.](#) (Nasdaq:VEEE), ("Twin Vee" or the "Company"), a manufacturer, distributor, and marketer of power sport boats, today announced that Bahamas-based [Exuma Water Sports](#), one of the leading tour operators in Exuma, has placed an order for a second custom-built 400 GFX2 power catamaran.

According to the Company, this marks a significant validation of the 400 GFX2 in high-demand commercial applications, following the successful deployment of the first vessel in Exuma's premium tourism market. Exuma Water Sports provides a wide range of tours, including snorkeling at Thunderball Grotto, an excursion through seven beaches and Moriah Marine Park, and seeing the world-famous Swimming Pigs of the Exuma Cays.

The second 400 GFX2 is being purpose-built for Exuma Water Sports' expanding tour operations, designed specifically to meet the rigorous demands of daily commercial use while delivering unmatched ride quality, stability, and passenger experience.

"Securing a repeat order from Exuma Water Sports is exactly what validates our platform," remarked Joseph Visconti, CEO, President, and Interim CFO of Twin Vee PowerCats Co. "When an operator running at the highest level in one of the most demanding and fastest-growing luxury markets in the world comes back for a second 400 GFX2, that tells you everything. This is about performance, reliability, and consistency - and that's what commercial operators require."

Exuma has rapidly emerged as one of the world's premier luxury destinations, with major global developers investing heavily in high-end resorts, private islands, and ultra-luxury infrastructure. The need for reliable, high-capacity, and premium marine transport has never been greater.

"The first 400 GFX2, which we received delivery of earlier this year, has been a complete game changer for our operation," commented Justin Lightbourn, President of Exuma Water Sports. "The ride quality, stability, and capacity allow us to deliver a premium experience at scale. As Exuma continues to grow with major luxury developments and increased demand, adding a second custom 400 GFX2 ensures we maintain the highest level of consistency and service for our guests. The addition of a second vessel underscores our commitment to scaling alongside the rapid expansion of luxury tourism infrastructure across the Bahamas, while maintaining a best-in-class customer experience."

"Exuma Water Sports has demonstrated the uncompromising build quality of the 400 GFX2," stated Preston Yarborough, Vice President and Director of Product Development of Twin Vee PowerCats Co. "We construct the 400 GFX2 to withstand the demands of high-volume,

daily use, without sacrificing the smooth ride our power catamarans are known for. Seeing a premium operator return for a second vessel means that our standards don't just meet local expectations, they show our PowerCats can thrive in the most demanding commercial markets worldwide."

Twin Vee plans to continue to position its 400 GFX2 platform as a premier solution for high-end commercial operators in global luxury destinations.

Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are identified by the use of the words "could," "believe," "anticipate," "intend," "estimate," "expect," "may," "continue," "predict," "potential," "project" and similar expressions that are intended to identify forward-looking statements and include statements regarding the delivery of the 400 GFX2 power catamaran and its deployment in Exuma's premium tourism market.

These forward-looking statements are based on management's expectations and assumptions as of the date of this press release and are subject to a number of risks and uncertainties, many of which are difficult to predict that could cause actual results to differ materially from current expectations and assumptions from those set forth or implied by any forward-looking statements. Important factors that could cause actual results to differ materially from current expectations include, among others, continued demand for premier platforms by high-end commercial operators in global luxury destinations, the Company's ability to maintain and deliver premium product offerings in response to such demand, and the risk factors described in the Company's Annual Report on Form 10-K for the year ended December 31, 2025, the Company's Quarterly Reports on Form 10-Q, the Company's Current Reports on Form 8-K and subsequent filings with the SEC. The information in this release is provided only as of the date of this release, and the Company undertakes no

obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events, except as required by law.
