Prime Healthcare Partners with Synchrony to Provide More Healthcare Financing Options to Patients

Synchrony's CareCredit solution will enable Prime Healthcare patients to pay for healthcare services over time

Partnership allows patients to choose customized payment options while enhancing their healthcare experience

COSTA MESA, Calif. and ONTARIO, Calif., Oct. 26, 2021 /PRNewswire/ --[Prime Healthcare](#), an award-winning physician-founded and physician-led health system, and [Synchrony](#) (NYSE: SYF), a premier consumer financial services company, today announced a partnership to offer new patient financing options at Prime Healthcare's 45 hospitals in 14 states. In partnership with Synchrony, Prime Healthcare will offer patients another way to easily pay for healthcare over time with Synchrony's CareCredit, a leading healthcare credit card, for pre-care, point-of-care and post-care payment.

By partnering with Synchrony to offer the CareCredit credit card, Prime Healthcare will establish a new payment option that enables price transparency and affordability, and empowers patients to access the care they need throughout their healthcare journey.

"Patient care will always be our number one priority," said Sunitha Reddy, VP of Operations of Prime Healthcare. "Integrating care delivery with revenue cycle management is critical in an increasingly consumer-focused healthcare market. Implementing CareCredit solutions allows us the ability to offer flexible healthcare financing options that can help meet the

unique and evolving needs of our patients while also improving their well-being and experience."

Prime Healthcare patients can apply for the CareCredit credit card on a mobile device or computer, in a provider's office, or over-the-phone. A credit decision is made within seconds and upon approval, applicants can use the credit card to pay bills immediately. Patients can select from short-term and long-term financing options including deferred interest if paid in full within 6,12,18 or 24 months and reduced APR with fixed monthly payments for 24, 36, 48 or 60 months.

"Synchrony's CareCredit credit card was founded more than 30 years ago to help people pay for the healthcare they need or want for themselves and their families," said Alberto Casellas, chief executive officer, Synchrony's Health and Wellness Platform. "As out-of-pocket healthcare expenses continue to increase, patients are seeking providers that can address both the clinical and financial aspects of their healthcare experience. Our partnership with Prime Healthcare will help Prime Healthcare's patients pay for the care they need while also streamlining the health system's payments processes and financial workflows."

Prime Healthcare patients who select CareCredit will have access to easy online account management tools, including payment reminders, and Synchrony's award-winning customer service call center. Additionally, patients can use the [CareCredit payment calculator](#) to help estimate their monthly payments based on the amount of care financed and the offer selected.

The CareCredit credit card is a way for people to pay for care not covered by insurance, including elective procedures, copays, deductibles and coinsurance, often with special financing. Today, Synchrony's CareCredit credit card is accepted at more than 250,000 provider and health-focused retail locations and has more than 6 million cardholder accounts.
