# **Actelis Networks Books Mobile Infrastructure Connectivity Order from a Multi-National European Group Member for GigaLine Backhaul Technology**

**GigaLine technology enables gigabit connectivity for mobile base stations over existing infrastructure, eliminating costly fiber deployments**

FREMONT, Calif., July 24, 2025 (GLOBE NEWSWIRE) -- Actelis Networks, Inc. (NASDAQ: ASNS), a market leader in cyber-hardened, rapid deployment networking solutions for IoT and broadband applications, today announced it has received a new order from a member of a large Pan European Telecom Group for its GigaLine technology to support mobile base station backhaul requiring gigabit communication over long distances.

This order addresses critical mobile infrastructure connectivity challenges and establishes the foundation for potential large-scale network modernization programs across the carrier's European service territories. The GigaLine solution enables the carrier to provide reliable gigabit-grade connectivity to remote mobile base stations where traditional fiber deployment is impractical or cost-prohibitive.

"This new win follows our excellent track record in helping European networks connect and be cyber hardened," said Tuvia Barlev, Chairman and CEO of Actelis. "European telecom operators are facing demand for mobile infrastructure support as they expand 5G coverage to underserved areas. Our GigaLine solutions enable carriers to provide gigabit backhaul connectivity to mobile base stations over existing infrastructure and long distances, eliminating the need for costly fiber deployments while providing reliable and high-quality service."

The GigaLine technology leverages Actelis' hybrid fiber-copper, cyber-hardened technology to deliver fiber-grade performance over existing infrastructure, enabling rapid deployment of mobile backhaul services in challenging rural environments where traditional solutions would require extensive and expensive new construction.

## **About Actelis Networks, Inc.**

Actelis Networks, Inc. (NASDAQ: ASNS) is a market leader in hybrid fiber-copper, cyber-hardened networking solutions for rapid deployment in wide-area IoT applications, including government, ITS, military, utility, rail, telecom, and campus networks. Actelis' innovative portfolio offers fiber-grade performance with the flexibility and cost-efficiency of hybrid fiber-copper networks. Through its "Cyber Aware Networking" initiative, Actelis also provides AI-based cyber monitoring and protection for all edge devices, enhancing network security and

resilience. For more information, please visit [www.actelis.com](http://www.actelis.com).

### **Forward-Looking Statements**

This press release contains certain forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are identified by the use of the words "could," "believe," "anticipate," "intend," "estimate," "expect," "may," "continue," "predict," "potential," "project" and similar expressions that are intended to identify forward-looking statements. All forward-looking statements speak only as of the date of this press release. You should not place undue reliance on these forward-looking statements. Although we believe that our plans, objectives, expectations and intentions reflected in or suggested by the forward-looking statements are reasonable, we can give no assurance that these plans, objectives, expectations or intentions will be achieved. Forward-looking statements involve significant risks and uncertainties (some of which are beyond our control), including, but not limited to, market and other conditions, and assumptions that could cause actual results to differ materially from historical experience and present expectations or projections. Actual results could differ materially from those in the forward-looking statements and the trading price for our common stock may fluctuate significantly. Forward-looking statements also are affected by the risk factors described in the Company's filings with the U.S. Securities and Exchange Commission. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events.
