

CollPlant Biotechnologies Provides Business Updates and Second Quarter 2022 Financial Results

- Co-development of rhCollagen-based dermal and soft tissue fillers with AbbVie is progressing
- Company's 3D bioprinted regenerative breast implant program remains on track to conclude large animal study in Q4
- Development of aseptic process for the production of sterile rhCollagen anticipated to be completed in Q4
- Strong balance sheet with cash and cash equivalents of \$36M as of June 30, 2022

REHOVOT, Israel, Aug. 25, 2022 /PRNewswire/ -- **CollPlant Biotechnologies** (NASDAQ: CLGN), a regenerative and aesthetic medicine company developing innovative human collagen-based technologies and products for tissue regeneration and organ manufacturing, today announced financial results for the second quarter ended June 30, 2022 and provided an update on the Company's business developments.

"I am very pleased with the company's execution and significant advances across our diverse and expanding product portfolio. We are targeting large commercial opportunities where we believe our recombinant human collagen (rhCollagen) has the ability to deliver performance and safety advantages," said Yehiel Tal, CollPlant's Chief Executive Officer. "Our agreement with AbbVie to co-develop dermal and soft tissue fillers with rejuvenative properties for the medical aesthetic market is a perfect example of our strategy. We are excited by the direction of this program and continue as well to develop on our own the agreement's option products, including a photocurable dermal filler and an injectable

breast implant."

"We also continue to make important progress with our 3D bioprinted regenerative breast implant program, and anticipate our first large animal study to conclude as planned by the end of 2022. Our collagen-based implants have the potential to meet an enormous unmet need by overcoming the safety challenges of existing breast procedures while promoting natural tissue regeneration. The results of this study, which will evaluate formulation, surgical technique, implant degradation rate and vascularization, will provide the basis for the design of a large pivotal study planned to begin in Q1 2023. We anticipate these studies to support advancement to human clinical trials".

Recent Corporate Highlights

Strategic Collaboration Agreement with AbbVie: CollPlant's exclusive worldwide development and commercialization agreement with AbbVie for dermal and soft tissue fillers continues to advance. Within the framework of this collaboration, CollPlant's proprietary rhCollagen and AbbVie's technology are combined to develop products for the medical aesthetic market. In February 2021, CollPlant received an upfront payment of \$14 million and has the potential to receive an additional \$89 million in milestone and option payments for additional products, which include an injectable breast implant and photocurable dermal filler. According to the agreement, CollPlant will also receive royalties on product sales and will manufacture and sell rhCollagen to AbbVie.

3D Bioprinted Regenerative Breast Implant Program: CollPlant's implants are comprised of the Company's plant-derived rhCollagen in combination with other biomaterials, and intended to degrade over time while promoting natural tissue regeneration. The 3D bioprinting technology used for the implant fabrication, enables scalable production of highly precise and repeatable constructs, which can be customized to the individual anatomy of a patient. CollPlant initiated a large animal study in June 2022 which is expected to conclude by the end of 2022. The global market for breast implants is estimated to be \$2.5B.

Aseptic Production Process for rhCollagen: CollPlant is developing and implementing a fully controlled, closed-loop production process to mass produce sterile rhCollagen. The sterile plant-based collagen is expected to provide better bifunctionality and homogeneity relative to collagen derived from animals or cadavers, with improved safety and reduced risk of contamination.

rhCollagen-based Bioinks: In November 2021, CollPlant launched Collink.3D, a collagen-based Bioink platform, designed to support a wide variety of 3D bioprinting applications. Collink.3D is the first of a portfolio of Bioink products and CollPlant intends to release two additional Bioinks in Q4 2022.

Second Quarter 2022 Financial Results

Cash, cash equivalents and short-term deposits as of June 30, 2022, were \$36.3 million.

GAAP revenues for the second quarter of 2022 were \$66,000 and included mainly income from sales of the Company' Biolnk and rhCollagen. Revenues decreased by \$625,000 compared to \$691,000 in the second quarter of 2021 which mainly related to a decrease in sales of Biolnk and Vergenix products.

GAAP cost of revenue for the second quarter of 2022, was \$43,000, a decrease of 90% compared to \$429,000 in the second quarter of 2021. Cost of revenue includes mainly the cost of the Company' rhCollagen based products, and royalties to the IIA for our sales. The decrease in cost of revenue in the amount of approximately \$386,000 is mainly comprised of: (i) approximately \$145,000 in royalty expenses to the IIA, inventory impairment and (ii) approximately \$241,000 relating to BioInk, FG and rhCollagen sales.

GAAP gross profit for the second quarter of 2022 was \$23,000, compared to gross profit of \$262,000 in the second quarter of 2021.

GAAP operating expenses for the second quarter of 2022 were \$4.2 million compared to \$3.3 million in the second quarter of 2021. The net increase of \$900,000 in expenses is mainly comprised of: (i) \$453,000 in research and product development activities including process development, (ii) \$235,000 in employees' salaries and share base compensation, including recruitment of new employees for development of new products in 3D bioprinting and medical aesthetics, and (iii) \$520,000 in employees and director's salaries and insurance policy expenses, offset by (iv) a decrease of \$410,000 in one-time legal expenses relating to the end of the Company's ADS program, and the registration of the ordinary shares for listing on Nasdaq Global Market in 2021. On a non-GAAP basis, the operating expenses for the second quarter of 2022 were \$3.9 million compared to \$2.8 million in the second quarter of 2021. Non-GAAP measures exclude certain non-cash expenses.

GAAP financial expenses, net for the second quarter of 2022 totaled \$100,000 compared to financial income net, of \$25,000 in the second quarter of 2021. The increase in financial expenses is due to the weakening of the Dollar currency compared to the Shekel currency during the second quarter, and the corresponding effect on the Company's lease liabilities.

GAAP net loss for the second quarter of 2022 was \$4.3 million or \$0.39 basic loss per share, compared to a net loss of \$3 million, or \$0.30 basic loss per share, for the second quarter of 2021. Non-GAAP net loss for the second quarter of 2022 was \$4 million or \$0.36 loss per share, compared to a net loss of \$2.5 million, or \$0.25 basic loss per share, for the second quarter of 2021.

Six months period ended June 30, 2022, compared to six months period ended June 30, 2021

GAAP revenues for the six months ended June 30, 2022, were \$132,000 and included mainly income from sales of the Company' Biolnk and rhCollagen. Revenues decreased by \$15.1 million compared to \$15.2 million in the six months ended June 30, 2021 which mainly derived from the \$14 million consideration for the license granted to AbbVie and to decrease in sales of Biolnk Vergenix products.

GAAP gross profit for the six months ended June 30, 2022, was \$58,000, compared to gross profit of \$13.9 million in the six months ended June 30, 2021.

GAAP operating expenses for the six months ended June 30, 2022, accumulated to \$8 million, compared to \$6.9 million in the six months ended June 30, 2021. The net increase of \$1.1 million in expenses is mainly comprised of: (i) an increase of \$784,000 in research and product development activities including process development, (ii) an increase of \$538,000 in employees' salaries and share base compensation, including recruitment of new

employees for development of new products in 3D bioprinting and medical aesthetics, (iii) an increase of \$210,000 in general and administrative employees and directors salaries and insurance policy expenses, offset by (iv) a decrease of \$410,000 in one-time legal expenses relating to the end of the Company's ADS program, and the registration of the ordinary shares for listing on Nasdaq Global Market in 2021. On a non-GAAP basis, the operating expenses for the six months ended June 30, 2022 were \$3.9 million compared to \$2.8 million in the six months ended June 30, 2021. Non-GAAP measures exclude certain non-cash expenses.

GAAP financial expenses, net for the six months ended June 30, 2022, totaled \$192,000 compared to financial income net, of \$123,000 in the six months ended June 30, 2021. The increase in financial expenses is due to the weakening of the Dollar currency compared to the Shekel currency mainly during the second quarter, and the corresponding effect on the Company's lease liabilities.

GAAP net loss for the six months ended June 30, 2022 was \$8.1 million, or \$0.74 basic loss per share, compared to a net income of \$7.1 million, or \$0.76 basic income per share, for the six months ended June 30, 2021. Non-GAAP net loss for the six months ended June 30, 2022 was \$7.5 million, or \$0.69 basic loss per share, compared to \$7.9 million income, or \$0.85 basic income per share, for the six months ended June 30, 2021.

Cash used in operating activities during the six months ended June 30, 2022, was \$7.2 million compared to \$7.7 million cash provided from operating activities in the six months ended June 30, 2021. The change is mainly attributed to the \$14 million consideration for the license granted to AbbVie in 2021.

Cash provided by investing activities during the six months ended June 30, 2022, was \$30 million compared to \$30.4 cash used in the six months ended June 30, 2021. The change is mainly attributed to repayment and investment in short term cash deposits.

Cash provided by financing activities during the six months ended June 30, 2022, was \$1.5 million compared to cash provided by financing activities of \$36.9 million in the six months ended June 30, 2021. The decrease is mainly attributed to the Company's registered direct offering in February 2021, which resulted in net proceeds of \$32 million and \$4.1 million proceeds in exercise of options and warrants.

About CollPlant

CollPlant is a regenerative and aesthetic medicine company focused on 3D bioprinting of tissues and organs, and medical aesthetics. The Company's products are based on its rhCollagen (recombinant human collagen) produced with CollPlant's proprietary plant based genetic engineering technology. These products address indications for the diverse fields of tissue repair, aesthetics, and organ manufacturing, and are ushering in a new era in regenerative and aesthetic medicine.

At the beginning of 2021, CollPlant entered into a development and global commercialization agreement for dermal and soft tissue fillers with Allergan, an AbbVie company, the global leader in the dermal filler market. Later in 2021, CollPlant entered a strategic codevelopment agreement with 3D Systems for a 3D bioprinted regenerative soft tissue matrix for use in breast reconstruction procedures in combination with an implant.

Use of Non-US GAAP ("non-GAAP")

Financial results for 2022 and 2021 are presented on both a GAAP and a non-GAAP basis. GAAP results were prepared in accordance with U.S. GAAP and include all revenue and expenses recognized during the period. The release contains certain non-GAAP financial measures for operating costs and expenses, operating income, net income and basic and diluted net income per share that exclude the effects of non-cash expense for fair market value attributed to change in fair value of financial instruments, share-based compensation to employees, directors and consultants, and change in operating lease accounts. CollPlant's management believes that these non-GAAP financial measures provide meaningful supplemental information regarding the Company's performance that enhances management's and investors' ability to evaluate the Company's operating costs, comprehensive income and income per share, and to compare them to historical Company results.

The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. Management uses both GAAP and non-GAAP measures when operating and evaluating the Company's business internally and therefore decided to make these non-GAAP adjustments available to investors. The non-GAAP financial measures used by the Company in this press release may be different from the measures used by other companies.

For more information on the non-GAAP financial measures, please see the "Reconciliation of GAAP to Non-GAAP Financial Measures" later in this release. This accompanying table has more details on the GAAP financial measures that are most directly comparable to non-GAAP financial measures and the related reconciliations between these financial measures.

The Company's consolidated financial results as of, and for the six months ended June 30, 2022, are presented in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP").

Safe Harbor Statements

This press release may include forward-looking statements. Forward-looking statements may include, but are not limited to, statements relating to CollPlant's objectives plans and strategies, as well as statements, other than historical facts, that address activities, events or developments that CollPlant intends, expects, projects, believes or anticipates will or may occur in the future. These statements are often characterized by terminology such as "believes," "hopes," "may," "anticipates," "should," "intends," "plans," "will," "expects," "estimates," "projects," "positioned," "strategy" and similar expressions and are based on assumptions and assessments made in light of management's experience and perception of historical trends, current conditions, expected future developments and other factors believed to be appropriate. Forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. Many factors could cause CollPlant's actual activities or results to differ materially from the activities and results anticipated in forward-looking statements, including, but not limited to, the following: the

Company's history of significant losses, its ability to continue as a going concern, and its need to raise additional capital and its inability to obtain additional capital on acceptable terms, or at all; the impact of the COVID-19 pandemic; the Company's expectations regarding the timing and cost of commencing clinical trials with respect to tissues and organs which are based on its rhCollagen based Biolnk and products for medical aesthetics; the Company's ability to obtain favorable pre-clinical and clinical trial results; regulatory action with respect to rhCollagen based Biolnk and medical aesthetics products including but not limited to acceptance of an application for marketing authorization review and approval of such application, and, if approved, the scope of the approved indication and labeling; commercial success and market acceptance of the Company's rhCollagen based products in 3D Bioprinting and medical aesthetics; the Company's ability to establish sales and marketing capabilities or enter into agreements with third parties and its reliance on third party distributors and resellers; the Company's ability to establish and maintain strategic partnerships and other corporate collaborations; the Company's reliance on third parties to conduct some or all aspects of its product manufacturing; the scope of protection the Company is able to establish and maintain for intellectual property rights and the Company's ability to operate its business without infringing the intellectual property rights of others; the overall global economic environment; the impact of competition and new technologies: general market, political, and economic conditions in the countries in which the Company operates; projected capital expenditures and liquidity; changes in the Company's strategy; and litigation and regulatory proceedings. More detailed information about the risks and uncertainties affecting CollPlant is contained under the heading "Risk Factors" included in CollPlant's most recent annual report on Form 20-F filed with the SEC, and in other filings that CollPlant has made and may make with the SEC in the future. The forward-looking statements contained in this press release are made as of the date of this press release and reflect CollPlant's current views with respect to future events, and CollPlant does not undertake and specifically disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
