Nauticus Robotics Announces Participation in May Conferences

HOUSTON, May 7, 2025 [Nauticus Robotics, Inc.](#) (NASDAQ: KITT, "Nauticus"), a leading innovator in autonomous subsea robotics and software solutions, today announced it will be featured at key conferences this month.

Offshore Technology Conference (OTC)

The Aquanaut® vehicle is the subject of a paper and corresponding presentation, to be given by a Nauticus supermajor customer, at OTC this week in Houston, TX. If you are experiencing OTC on Thursday, May 08, stop by the Technical Program session titled, [*Pushing Boundaries: Redefining Operations in the Era of AI and Advanced Robotics*](#) in room 312 of NRG Center at 2:00pm Central time. The first presentation during this session, *Pioneering the Aquanaut: First Offshore Trial and Sequential De-Risking From Pool Tests to Subsea*, describes our testing efforts as we moved the Aquanaut system from design through wet testing and into commercial viability.

DeepStar Technology Symposium

Nauticus' Chief Technology Officer, JD Yamokoski, is participating in a panel at the DeepStar Technology Symposium hosted in Houston, TX at the Chevron Houston Downtown Office Auditorium this Friday, May 09, at 1:00pm Central time. If you are attending the Symposium, look for JD at the [*Contractors Panel: Robotics for Digital Twin Data Acquisition*](#) session.

Louisiana Energy Conference (LEC)

Nauticus' President and CEO, John Gibson, is participating in a panel later this month at LEC on Tuesday, May 27, in New Orleans, LA at Four Seasons. If you plan to be there, stop by the third floor Pimsoll Ballroom for the [*Offshore Supply Vessels & Marine Services – Do Long-Lead Projects Support Continued Demand*](#) session at 1:55pm Central time.

Nauticus Robotics is excited to be involved in multiple events throughout this month. We look forward to seeing you soon!

[About Nauticus Robotics](#)

Nauticus Robotics, Inc. develops autonomous robots for the ocean industries. Autonomy requires the extensive use of sensors, artificial intelligence, and effective algorithms for perception and decision allowing the robot to adapt to changing environments. The company's business model includes using robotic systems for service, selling vehicles and components, and licensing of related software to both the commercial and defense business sectors. Nauticus has designed and is currently testing and certifying a new generation of vehicles to reduce operational cost and gather data to maintain and operate a wide variety of subsea infrastructure. Besides a standalone service offering and forward-facing products, Nauticus' approach to ocean robotics has also resulted in the development of a range of technology products for retrofit/upgrading traditional ROV operations and other third-party vehicle platforms. Nauticus' services provide customers with the necessary data collection, analytics, and subsea manipulation capabilities to support and maintain assets while reducing their operational footprint, operating cost, and greenhouse gas emissions, to improve offshore health, safety, and environmental exposure.

Cautionary Language Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the "Act"), and are intended to enjoy the protection of the safe harbor for forward-looking statements provided by the Act as well as protections afforded by other federal securities laws. Such forward-looking statements include but are not limited to: the expected timing of product commercialization or new product releases; customer interest in Nauticus' products; estimated operating results and use of cash; and Nauticus' use of and needs for capital. Generally, statements that are not historical facts, including statements concerning possible or assumed future actions, business strategies, events, or results of operations, are forward-looking statements. These statements may be preceded by, followed by, or include the words "believes," "estimates," "expects," "projects," "forecasts," "may," "will," "should," "seeks," "plans," "scheduled," "anticipates," "intends," or "continue" or similar expressions. Forward-looking statements inherently involve risks and uncertainties that may cause actual events, results, or performance to differ materially from those indicated by such statements. These forward-looking statements are based on Nauticus' management's current expectations and beliefs, as well as a number of assumptions concerning future events. There can be no assurance that the events, results, or trends identified in these forward-looking statements will occur or be achieved. Forward-looking statements speak only as of the date they are made, and Nauticus is not under any obligation and expressly disclaims any obligation, to update, alter, or otherwise revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except as required by law. Readers should carefully review the statements set forth in the reports which Nauticus has filed or will file from time to time with the Securities and Exchange Commission (the "SEC") for a more complete discussion of the risks and uncertainties facing the Company and that could cause actual outcomes to be materially different from those indicated in the forward-looking statements made by the Company, in particular the sections entitled "Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements" in documents filed from time to time with the SEC, including Nauticus' Annual Report on Form 10-K filed with the SEC on April 15, 2025. Should one or more of these risks, uncertainties, or other factors materialize, or should assumptions underlying the forward-looking information or statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated, or expected. The documents filed by Nauticus with the SEC may be obtained free

of charge at the SEC's website at www.sec.gov.
