Factors that could cause actual results or events to differ materially from current expectations include, among other things, without limitation, the risk that the operations of the Company, Medac Pharma and Medexus will not be integrated successfully and the general risk that the Company's anticipated revenue growth and EBITDA will not meet current levels or future expectations, as well as other risks disclosed in the Company's public disclosure record on file with the relevant securities regulatory authorities. Although the Company believes that the expectations and assumptions on which such forward-looking information is based are reasonable, undue reliance should not be placed on the forward-looking information because Company can give no assurance that they will prove to be correct. Since forward-looking information addresses future events and conditions, by its very nature they involve inherent risks and uncertainties. The Company's actual results, performance or achievement could differ materially from those expressed in, or implied by, the forward-looking information and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking information will transpire or occur, or if any of them do so, what benefits that Company will derive therefrom. Management has included the above summary of assumptions and risks related to forward-looking information provided in this press release in order to provide securityholders with a more complete perspective on the Company's future operations and such information may not be appropriate for other purposes. Readers should not place undue reliance on forward-looking statements. Readers are cautioned that the foregoing lists of factors are not exhaustive. ## **NON-IFRS FINANCIAL MEASURES**

The term EBITDA is used in this press release. Rather, this measure is provided as additional information to complement IFRS measures by providing a further understanding of operations from management's perspective. See the Company's management discussion and analysis and other reports on file with applicable securities regulatory authorities accessible through the SEDAR website ([www.sedar.com](http://www.sedar.com)) for a further description of how the Company uses non-IFRS financial measures.
