Ideal Power to Participate at the 8th Annual Craig-Hallum Alpha Select Conference on November 16, 2017

AUSTIN, Texas, Nov. 09, 2017 (GLOBE NEWSWIRE) -- [Ideal Power Inc.](#) (NASDAQ:IPWR), an innovative power conversion technology company, has been invited to participate at the 8th Annual Craig-Hallum Alpha Select Conference being held on November 16, 2017 at the Sheraton New York Times Square Hotel in New York City.

Ideal Power CFO Tim Burns will hold one-on-one and small group meetings with institutional investors throughout the day.

For additional information or to schedule a one-on-one meeting with Ideal Power management, please contact your Craig-Hallum representative or you may also email your request to IPWR@mzgroup.us or call the company's investor relations contact, Chris Tyson at (949) 491-8235.

About the 8th Annual Craig-Hallum Alpha Select Conference

The Craig-Hallum Alpha Select Conference allows Craig-Hallum to present their Alpha Select List to top institutional investors and analysts from across the country. To be considered for the Alpha Select List, they look for as many of the following characteristics as possible including: sub-\$250 million market cap attractive business models, strong management teams, sustainable competitive advantage, unique solutions to large problems, above average growth prospects, significant unappreciated value and little or no sell-side coverage. Last year alone, Craig-Hallum sponsored over 80 non-deal road shows in support of our Alpha Select Companies. These road shows provided visibility for the companies and introduced them to over 400 institutional investors in the U.S. and Canada. For more information, click [here](#).

About Ideal Power Inc.

Ideal Power (NASDAQ:IPWR) is a power conversion technology company that delivers innovative solutions to system integrators and project developers, enabling distributed energy resources for applications both on and off the grid. Ideal Power's products deliver superior reliability and compelling return on investment for renewable energy and storage applications at a competitive cost, backed by first-rate customer service. With its patented power conversion technology, Ideal Power supports a broad set of growing markets, including solar + storage, battery energy storage and microgrids.
