

I.D. Systems Receives \$400,000 Order for Initial Deployment of Wireless VMS Technology for International Machinery Manufacturer

WOODCLIFF LAKE, N.J., Sept. 22, 2014 (GLOBE NEWSWIRE) -- I.D. Systems, Inc. (Nasdaq:IDSY), a leading provider of wireless M2M asset management solutions, has received a purchase order valued at approximately \$400,000 to deploy its PowerFleet® wireless industrial Vehicle Management System (VMS) for a leading global manufacturer of machinery and heavy equipment. This is a new customer for I.D. Systems. The order was generated by one of I.D. Systems' channel partners.

"The addition of this multinational manufacturer to I.D. Systems' customer base gives our wireless technology unprecedented penetration with the world's most prominent heavy equipment makers," said Kenneth Ehrman, I.D. Systems' chairman and CEO. "We view this as an implicit endorsement of the high value that our VMS solutions provide in manufacturing operations. We look forward to the opportunity to expand this customer's deployment of our technology across its enterprise, as we have expanded with many other customers with global supply chains."

I.D. Systems holds more than 75 patents related to its wireless solutions and has deployed VMS systems in more than 20 countries around the world.

About Vehicle Management Systems

Vehicle Management Systems (VMS) help improve workplace safety and security by restricting vehicle access to trained, authorized operators, providing electronic vehicle inspection checklists, and sensing vehicle impacts. A wireless VMS also helps reduce fleet maintenance costs by automatically uploading vehicle data, reporting vehicle problems electronically, scheduling maintenance according to actual usage rather than by calendar time, and helping determine the optimal economic time to replace equipment. In addition, a wireless VMS helps improve supply chain productivity by establishing accountability for the use of equipment, ensuring equipment is in the proper place at the right time, streamlining material handling work flow, and providing unique metrics on equipment utilization.

About I.D. Systems

Headquartered in Woodcliff Lake, New Jersey, with subsidiaries in Texas, Germany, and the United Kingdom, I.D. Systems, Inc. is a leading global provider of wireless M2M solutions for securing, controlling, tracking, and managing high-value enterprise assets, including rental cars, industrial vehicles, trailers, containers, and cargo. The company's patented technologies address the needs of organizations to monitor and analyze their assets to increase efficiency and productivity, reduce costs, and improve profitability. PowerFleet® is a registered trademark of I.D. Systems. For more information, visit www.id-systems.com.

Cautionary Note Regarding Forward-Looking Statements

This press release contains forward looking statements within the meaning of federal securities laws. Forward-looking statements include statements with respect to I.D. Systems' beliefs, plans, goals, objectives, expectations, anticipations, assumptions, estimates, intentions, and future performance, and involve known and unknown risks, uncertainties and other factors, which may be beyond I.D. Systems' control, and which may cause its actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. All statements other than statements of historical fact are statements that could be forward-looking statements. For example, forward-looking statements include: statements regarding prospects for additional customers; market forecasts; projections of earnings, revenues, potential contract values, synergies, accretion or other financial information; initiatives for new products and processes, and plans, strategies, objectives, and initiatives of management for future operations. The risks and uncertainties referred to above include, but are not limited to, future economic and business conditions, the loss of key customers or reduction in the purchase of products by any such customers, the failure of the market for I.D. Systems' products to continue to develop, the inability to protect I.D. Systems' intellectual property, the inability to manage growth, the effects of competition from a variety of local, regional, national and other providers of wireless solutions, and other risks detailed from time to time in I.D. Systems' filings with the Securities and Exchange Commission, including its annual

report on Form 10-K for the year ended December 31, 2013. These risks could cause actual results to differ materially from those expressed in any forward looking statements made by, or on behalf of, I.D. Systems. Unless otherwise required by applicable law, I.D. Systems assumes no obligation to update the information contained in this press release, and expressly disclaims any obligation to do so, whether as a result of new information, future events or otherwise.
