About the Byrna™ **HD Personal Security Device**

The Byrna™ HD is a disruptive new non-lethal device aimed at the home defense and personal security markets. Its small size (similar to popular lethal handguns on the market today), ease of obtaining (no gun license required), ease of carry, effectiveness in deterring or stopping an intruder and accessible price point (under $300) should be appealing to homeowners who want protection, but either don't want the hassle of obtaining a gun license

or don't want the risk of having a hand gun in their home, as well as to gun enthusiasts who appreciate a precision piece of equipment and want something in their collection that is both effective and non-lethal.

The Byrna™ HD comes with multiple easily reloadable magazines that can hold either training rounds, impact rounds or highly effective .68 caliber chemical payload rounds designed to burn an assailant's eyes and respiratory system upon contact. Accurate up to 60 feet, the Byrna™ is fitted with a picatinny rail that allows owners to mount either a laser sight or flash light making it easy for novices to fire it accurately. The Byrna™ HD is ideal for today's homeowners, boaters, truckers, outdoor enthusiasts and gun enthusiasts around the world. For more information on the Byrna™, please click here.
